Tentative Program

2nd International Conference on
Metabolic Syndrome

August 10-11, 2017 London, UK

Theme: "Innovative Technologies and Treatments to overcome Metabolic Syndrome and offer lasting lifestyle"

For Available Speaker Slots

metabolicsyndromes@conferenceseries.net

Conference Secretariat

Conference Series LLC 2360 Corporate Circle, Suite 400 Henderson, NV 89074-7722, USA

Tel: +1-888-843-8169, Fax: +1-650-618-1417, Ph: +1-650-268-9744, Toll free: +1-800-216-6499

Email: metabolicsyndromes@conferenceseries.net

Tentative Agenda

Morning Sessions	Reception/Registration	08.00-09.00		19 Speakers for Day 1
		Time	General Session	
	Least of 3 Keynote/Plenary Talks	09.00-09.15	Inaugural Address	
		09.15-09.45	Keynote/Plenary Talk 1	
		09.45-10.15	Keynote/Plenary Talk 2	
		10.15-10.45	Keynote/Plenary Talk 3	
	Panel Discussions/Group Photo			
	Coffee/Tea Break 10.45-11.00 (Networking)			
Evening Sessions	11.00-12.40	5 Speakers (20 Mins Each)		
	Lunch Break 12.40-13.30			
	13.30-15.30	6 Speakers (20 Mins Each)		
	Coffee/Tea Break 15.30-15.45 (Networking)			
	15.45-17.25	5 Speakers (20 Mins Each)		

Day 2

Morning Sessions		Time	Session 1	Session 2	40 Speakers on Day 2
	09.00-10.40		5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)	
	Coffee/Tea Break 10.40-10.55 (Networking)				
	10.55-12.35		5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)	
	Lunch Break 12.35-13.25				
Evening Sessions	13.25-15.05		5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)	
	Poster Sessions				
	Coffee/Tea Break 15.05-15.20 (Networking)				
	15.20-17.00		5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)	

NOTE: Program Schedule is subject to change with final allotment of the speaker slots

http://metabolicsyndromes.conferenceseries.com/

Glimpses of Metabolic Syndrome Conferences

Glimpses of Metabolic Syndrome Conferences

Major Scientific Sessions

- Metabolic Syndrome
- Endocrine disorders
- Cardiovascular Disorder
- Insulin Resistance Syndrome
- Pediatric Metabolic Syndrome
- Obesity, Diabetes and Metabolism
- Oxidative Stress and Inflammation in the Metabolic Syndromes
- Nutrition and Metabolic Responses
- Diet and Weight Management
- Prostate Cancer and Metabolic Syndrome
- Genetics of the Metabolic Syndrome
- Regulations of Energy Metabolism
- Heart and healthy life style changes
- Managing stress
- Weight loss therapies

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

About London

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames, London has been a major settlement for two millennia, its history going back to its founding by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km2) medieval boundaries and in 2011 had a resident population of 7,375, making it the smallest city in England. Since at least the 19th century, the term London has also referred to the metropolis developed around this core.

London is a leading global city, with strengths in the sciences, arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transport all contributing to its prominence. It is one of the world's leading financial centres and has the fifth-or sixth-largest metropolitan area GDP in the world depending on measurement. London is a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. London is the world's leading investment destination, hosting more international retailers and ultra-high-net-worth individuals than any other city. London's 43 universities form the largest concentration of higher education institutes in Europe, and a 2014 report placed it first in the world university rankings. According to the report London also ranks first in the world in software, multimedia development and design, and shares first position in technology readiness. In 2012, London became the first city to host the modern Summer Olympic Games three times.

London is a popular center for tourism, one of its prime industries, employing the equivalent of 350,000 full-time workers in 2003, while annual expenditure by tourists is around £15 billion. London attracts over 16 million international visitors per year, making it Europe's most visited city. London attracts 27 million overnight-stay visitors every year. In 2010 the ten most-visited attractions in London were, British Museum, National Gallery, Natural History Museum, Imperial War Museum, Science Museum, Victoria and Albert Museum, National Maritime Museum, Big Ben Tower, Tower of London etc.

Metabolic Syndrome, London,UK represents the largest market worldwide, supported by high R&D interest in developing synthetic biology based products. Within Europe, Germany and UK remain prominent markets.

Day 1 October 17, 2016

Registrations

Olimpica 4

conferenceseries.com

Opening Ceremony

Keynote Forum

Introduction

Title: Reproduction and pregnancy as stress test for lifelong cardiovascular health
Arie Franx, University Medical Centre Utrecht, Netherlands

Title: Prospective of long-acting GLP-1 receptor agonists for the therapeutics
Kang Choon Lee, SungKyunKwan University, South Korea

Group photo & Networking & Refreshments @ Foyer

Sessions:
Metabolic Syndrome | Cardiovascular Disorders | Oxidative Stress, Inflammation & Angiogenesis in the Metabolic Syndromes | Obesity, Diabetes & Metabolism

Session Chair: Kang Choon Lee, Sung Kyun Kwan University, South Korea
Session Co-chair: Nihal El Habachi, Alexandria University School of Medicine, Egypt

Session Introduction

Title: Increased oxidative stress according to number of risk factors in metabolic syndrome patients
Danielle Venturini, Universidade Estadual de Londrina, Brazil
Title: Associations between vitamin D status and measures of glycaemia in participants with normoglycaemia, impaired fasting glucose and type 2 diabetes during winter months
Ffion Curtis, University of Lincoln, UK
Title: Prevalence of metabolic syndrome among University of Yaounde I campus police workers
Mandob Enyegue Damaris, University of Yaounde I, Cameroon

Lunch Break @ Hotel Restaurant

Title: Cross-talk between two partners regulates the gating of the KATP channel pore
Hussein Nori Rubaiy, University of Leeds, UK
Title: A novel look into pathogenesis and a logic hint towards the aetiology of metabolic syndrome: The jiggly-signal and wiggly-receptor hypothesis!
Abbas Tavakolian Arjmand, Shahrood Azad University, Iran

Networking & Refreshments @ Foyer

Title: Antioxidant capacity increases after olive oil supplementation in patients with metabolic syndrome
Danielle Venturini, Universidade Estadual de Londrina, Brazil
Title: Relationship between adolescent obesity and elevated blood pressure: A cross sectional study
Monica Umapathy, Sree Balaji Medical College and Hospital, India

Panel Discussion

Day 2 October 18, 2016

Olimpica 4

Keynote Forum

Introduction

Title: Towards a new paradigm in metabolism: The unsuspected intrinsic property of melanin to dissociate the water molecule

Arturo Solis Herrera, Human Photosynthesis, Mexico

Sessions:

Endocrine Disorders | Insulin Resistant Syndrome | Nutrition and Metabolic Responses

Session Chair: Arturo Solis Herrera, Human Photosynthesis, Mexico

Session Co-chair: Danielle Venturini, Universidade Estadual de Londrina, Brazil

Session Introduction

Title: Attitudes related to Obesity among students of Higher Teachers' Training College, University of Yaounde I

Mandob Enyegue Damaris, University of Yaounde I, Cameroon

Networking & Refreshments @ Foyer

Title: Effectiveness of a therapeutic educational program for type-2 diabetic patients on eating habits and metabolic control

Maria do Rosario Pinto, Higher School of Health, Portugal

Title: How does the birth weights are related to adolescent obesity? An analytical study

Monica Umapathy, Sree Balaji Medical College and Hospital, India

Title: Effect of exercise intervention programs on anthropometric, physiological and cardiometabolic parameters of persons with and without metabolic syndrome

Georgia Torres, University of the Witwatersrand, South Africa

Lunch Break @ Hotel Restaurant

Title: Cardiovascular risk diagnostic controversies in pediatric metabolic syndrome

Tetyana Chaychenko, Kharkiv National Medical University, Ukraine

Title: Does the caffeine intake associated with depression? A cross sectional study

Monica Umapathy, Sree Balaji Medical College and Hospital, India

Viktoria Lory, Slovak Academy of Sciences, Slovak Republic

Poster Presentations

Panel Discussion

Awards & Closing Ceremony

Registrations

Meriden Suite

conferenceseries.com

Opening Ceremony

Keynote Forum

Title: Insulin-like growth factors (IGFs) prevent diabetic peripheral neuropathy despite unabated hyperglycemia: Why hyperglycemia interventions fail in clinical trials?
Douglas N Ishii, Colorado State University, USA

Title: The role of exenatide in managing cardiovascular risks and complications in patients with type 2 diabetes
Omorogieva Ojo, University of Greenwich, UK

Group Photo

Sessions: Clinical Diabetes and Diagnostic Approaches
Diabetes and its Complications
Emerging Focus in Diabetes Research

Session Introduction

Session Chair: Rachel M Knott, Robert Gordon University, UK
Session Co-Chair: Nicolette Houreld, University of Johannesburg, South Africa

Title: The role of oxygen insufficiency in the onset and development of the vascular complications of diabetes
Rachel M Knott, Robert Gordon University, UK
Title: Diabetes abolishes ischemic post-conditioning cardioprotection by impairing adipoR1/caveolin-3/STAT3 signaling
Haobo Li, The University of Hong Kong, Hong Kong

Coffee Break @ Albany Foyer

Title: MitoPBN prevents reactive oxygen species-mediated mitochondria abnormalities and metabolic reprogram in diabetic mice
Dong-Yun Shi, Shanghai Medical College of Fudan, China
Title: A correlative relationship between chronic pain and insulin resistance in Zucker fatty rats: Role of downregulation of insulin receptors
Shuxing Wang, Guangdong Entomological Institute, China

Sessions: Diabetes and Associated Diseases
Complimentary and Alternative Medicine Therapy
Case Sudies

Session Introduction

Session Chair: Belma Turan, Ankara University, Turkey
Session Co-Chair: Omorogieva Ojo, Greenwich University, UK

Title: The use of the Problem Areas In Diabetes (PAID) scale amongst patients with type 2 diabetes
Lydiya Thomas, Aberdeen Royal Infirmary, UK
Title: Experimental models of diabetes, complications, alternative and complementary approaches
Yusuf Ozturk, Anadolu University, Turkey
Title: Photobiomodulation at 660nm alters the expression of cell adhesion molecules and extracellular matrix proteins in a diabetic wounded fibroblast cell model
Nicolette N Houreld, University of Johannesburg, South Africa

Lunch Break @ Albany Foyer

Special Session on

The Importance of testosterone in the treatment of diabetes
Malcolm Carruthers, Centre for Men's Health, UK

Keynote Forum

Evaluation of trends in diabetes milletus care in pediatric diabetes
Michael Yafi, University of Texas Health Science Center at Houston, USA

Title: Fat fight against fat, a potenital medication in treating obesity
Lixin Li, Cental Michigan University, USA

Session Continuation

Title: The heart with impaired glucose tolerance: A time bomb
Julieta Palomeque, National University of La Plata, Argentina

Coffee Break @ Albany Foyer

Title: MODY 2 diabetes in Siberia: 3 years of follow up
Alla Ovsyannikova, Federal State Budgetary of Scientific Institution, Russia
Title: The relationship between snacking and risk of individual components of metabolic syndrome in normal-weight adults aged greater than 20 years in Ahvaz, Iran
Ahmad Zare Javid, Ahvaz Jundishapur University of Medical Sciences, Iran
Title: R-CBSTIMSDS- Consumption of black soybean tofu improved metabolic syndromes of diabetic subjects
Fransiska Rungkat Zakaria, Bogor Agricultural University , Indonesia
Title: Study of metabolic and some hormonal aspects among pubertal type 1 diabetic girls
Mohsen Khalid, National Institute of Diabetes and Endocrinology, Egypt

Panel Discussion

Day 2 August 09, 2016

Meriden Suite

Keynote Forum

Title: Initial stages of diabetic nephropathy: The beginning of a catastrophe
Jose L Reyes, National Polytechnic Institute, Mexico
Title: Insulin regulatory secretory pathway: Role of thyrotropin releasing hormone
Vladimir Strbak, Slovak Academy of Sciences, Slovakia
Title: Cardiac β-adrenoceptor subtypes in diabetes: Regulation of cardiac β_3-adrenergic receptors
Belma Turan, Ankara University, Turkey

Coffee Break @ Albany Foyer

Title: Diabetes mellitus: Disorder of cellular dysfunction due to lack of entry into cell of glucose; the most efficient fuel for cellular function.
Udaya M Kabadi, University of Iowa, USA

Special Session on

The future of type 2 diabetes management- Today and what to expect tomorrow
Gaurav Sharma, DrG Wellness Private Limited, India

Sessions: Genetics and Transplantation of Diabetes
Therapy for Diabetes

Session Introduction

Session Chair: Lixin Li, Central Michigan University, USA
Session Co-Chair: Haobo Li, The University of Hong Kong, Hong Kong

Title: Proinsulin peptide immunotherapy in new-onset type 1 diabetes is well tolerated and associated with a reduced daily insulin dose
Mohammad Alhadj Ali, Cardiff University Schhol of Medicine, UK
Title: Effects of fasting glucose levels on the association between CDH13 (rs4783244) and adiponectin among Korean population
Jae Woong Sull, Eulji University, South Korea

Lunch Break @ Albany Foyer

Title: The Impact of adipose tissue hypoxia on insulin sensitivity
Hande Ozge Altunkaynak, Baskent University School of Medicine, Turkey
Title: KCNJ11 gene polymorphism E23K (rs5219): An association study in type 2 diabetes mellitus in Indian population of eastern Uttar Pradesh
Sunita Singh, Banaras Hindu University, India

Title: Combining genomic and genetic knowledge to discover the underlying mechanism of diabetic cardiac dysfunction
Zipeng Liu, The University of Hong Kong, China

Title: Association of TCF7L2 rs12255372 (G/T) and PPARγ rs1801282 (C/G) gene polymorphisms in type 2 diabetes mellitus: A case-control study in Indian population of Eastern Uttar Pradesh
Gopeshwar Narayan, Banaras Hindu University, India
Title: Obesity and the incidence of apolipoprotein E polymorphisms in an assorted population from Saudi Arabia population
Khalid K Alharbi, King Saud University, Saudi Arabia
Title: Sitagliptin as combination therapy in the treatment of inadequately controlled type 2 diabetes
Yuliia Klitsunova, Zaporizhia Medical Academy, Ukraine

Coffee Break @ Albany Foyer

Opening Ceremony

Keynote Forum

Introduction

Grant Brinkworth
Commonwealth Scientific and Industrial Research Organisation, Australia

Panel Discussion

Group Photo

Networking & Refreshments Break @ On-Quay

Session: Diabetes Nutrition
Session: Trends in Diabetes Complication
Session: Diabetes Physiology
Session: Clinical Practices in Diabetes

Session Introduction

Session Chair: Grant Brinkworth, Commonwealth Scientific and Industrial Research Organisation, Australia

Sessiom Co-chair: Dipak Mall, National Academy of Medical Science, Nepal

Title: Myeloid-specific deletion of SIRT1 impairs obesity and ageing-associated endothelial dysfunction
Ping Gu, Nanjing General Hospital of Nanjing Military Command, Nanjing University, China

Title: Role of a doctor in management and educating patients with Diabetes Mellitus in Nepal
Dipak Mall, National Academy of Medical Science, Nepal

Title: Resequencing of KLF14 gene in population based family study with Type 2 Diabetes
Ensieh Shahvazian, Shahid Sadoughi University of Medical Sciences, Iran

Panel Discussion

Lunch Break @ On-Quay

Exhibitor Presentation by Readhedditch, ARO Systems, Australia

Title: Financial burden and outreach of Diabetes clinics for patients in Nepal
Dipak Mall, National Academy of Medical Science, Nepal

Title: Treatment adherence among patients undergoing hemodialysis
Niru Khatiwada, Kathmandu University, Nepal

Title: Heritability and familiality of Type 2 Diabetes in Yazd population, Iran
Ensieh Shahvazian, Shahid Sadoughi University of Medical Sciences, Iran

Title: Effects of growth hormone secretagogue receptor agonist and antagonist in non-obese Type 2 Diabetes MKR mice
Rasha Mosa, University of Queensland, Australia

Panel Discussion

Networking & Refreshments Break @ On-Quay

Day 2 July 12, 2016

Conference Hall @ Quay 1

Keynote Forum

Introduction

Anil K Saxena
CSIR-Central Drug Research Institute, India

Cheminformatics Tools For Drug Discovery
Sequence analysis of bioinformatics
Quantitative structure activity relationship

Session Introduction

Session Chair: Anil K. Saxena, CSIR-Central Drug Research Institute, India

Sessiom Co-chair: Achintya Saha, University of Calcutta, India

Title: Development of QAAR models to explore the selectivity profile of PPAR α, δ, and γ modulators
Achintya Saha, University of Calcutta, India

Panel Discussion

Group Photo

Networking & Refreshments Break @ On-Quay

Title: Chemoinformatics in understanding the SAR's in substituted octahydropyrazinopyridoindoles class of antihistamine H
Mridula Saxena, Amity University, India

Title: Quantitative proteomic analysis of mice corneal tissues reveals angiogenesis-related proteins involved in corneal neovascularization
Minqian Shen, Fudan University, China

Title: Micro vibration energy harvesters for low frequency operation
Ahmed Haroun, National University of Singapore, Singapore

Panel Discussion

Lunch Break @ On-Quay

Title: Selective adsorption of gold ions from complex system using oxidized multi-walled carbon nanotubes
Huda Abdulaziz Shaheen, King Abdulaziz University, Saudi Arabia

Poster Presentation

Title: QSPR model development to simplify compound identification in complex matrix analysis

Elyette Martin, Philip Morris International R&D, Switzerland

Panel Discussion

Networking & Refreshments Break @ On-Quay

Introduction

Andrea Romani
Case Western Reserve University, USA

Edita Stokic
University of Novi Sad, Serbia

David Mputhi
University of South Africa, South Africa

Group Photo

Networking & Refreshments Break @ Foyer

Track 1: Obesity and Diabetes: Current Research Trends
Track 2: Endocrinology and its Effects
Track 3: Surgiacl and Non- Surgical Treatments
Track 4: New Trends in Weight Loss Management
Track 5: Childhood Obesity and its Lifelong Effects

Session Introduction

Session Chair: Andrea Romani, Case Western Reserve University, USA

Session Co-Chair: Emmanuel Mukewevho, North West University, South Africa

Title: Innovations in corporate wellness: Beyond lunch and learns
Lacey Durrance, USA

Title: High meat high protein diet: Problems of weight gain and obesity
Pearl Sawhney, Western Illinois University, United States

Title: Immune sensing of the fat tissue in obesity: The role of NK cells
Bojan Polic, University of Rijeka School of Medicine, Croatia

Title: Laparoscopic sleeve gastrectomy versus laparoscopic adjustable gastric banding - Perspective from rural australia
Ya Chu May Tsai, St Vincent's Hospital, Australia

Title: Relation of intelligence quotient and body mass index in Iranian children: A community based cross-sectional study
Amir Alishahitabriz, University of North Carolina at Chapel Hill, USA

Lunch Break @ Foyer

Title: The clinical utility of the lifestyle for weight management questionnaire
Christopher Anderson, Utah Valley University, United States

Title: Therapeutic options for treatment cardiometabolic risk in obesity: Adipose tissue
Edita Stokic, University of Novi Sad, Serbia

Title: A secondary analysis of the cross-sectional data available in the 'welsh health survey for children' to identify risk factors associated with childhood obesity in Wales
Claire Beynon, Public Health Wales and Cardiff University, UK

Title: Combating "Sarcopenic Obesity": Case study for emerging new trends to combat dual task of muscle increment and fat loss
Abhinav Yadav, Utica College, School of Physical Therapy, USA

Title: Maintaining weight loss after bariatric surgery
Lori Liebl, University of Wyoming, United States

Networking & Refreshments Break @ Foyer

Title: Exercise-induced Calmodulin dependent protein kinase (camk) II activation regulates saturated and unsaturated fatty acids in rat skeletal muscle
Emmanuel Mukewevho, North West University, South Africa
Title: Metabolism of saturated fatty acids accelerate Src-mediated prostate tumor progression
Houjian Cai, University of Georgia, USA
Title: Evaluation of the effect of low calorie diet on level of sexual ability and desire of people who are overweight, fat and obese
Javad Arian Nehzad, Arian Pooya Obesity Research Institute, Iran

Panel Discussion

Day 2 December 08, 2015

Grand Ball Room-3

Keynote Forum

Emmanuel Mukewevho
North West University, South Africa

Owen B Nene
University of South Africa, South Africa

Track 6: Clinical Research and Interventions
Track 7: Weight Management Strategies
Track 8: Basic Science of Obesity and Overweight

Session Chair: Yi Hao Yu, Greenwich Hospital, United States

Session Co-Chair: Umberto Cornelli, Loyola University School of Medicine, United States

Session Introduction

Title: Can behavioral obesity treatment outcomes be enhanced with a "booster visit" treatment model?
Jennifer Pells, Structure House, United States

Networking & Refreshments Break @ Foyer

Title: The physiological basis for metabolic obesity and hedonic obesity
Yi Hao Yu, Greenwich Hospital, United States
Title: Polyglucosamine in the treatment of overweight and obesity
Umberto Cornelli, Loyola University School of Medicine, United States
Title: Mg2+-deficient liver cells: At the Cross-road between Inflammation and Dysmetabolism
Andrea Romani, Case Western Reserve University, USA
Title: Trend and risk factors for obesity among Nigerian adults on antiretroviral therapy
Lilian Ogochukwu Ezechi, Federal College of Education, Nigeria
Title: Supplementary effects of black rice (*Oryza sativa l.*) Aleurone layer extract on body fat, serum lipid, and serum hormone levels in ovariectomized rats
Sunghyen Lee, Department of Food and Nutrition, Seoul Women's University, South Korea

Lunch Break @ Foyer

Title: Perceptions of indigenous women of obesity: South Africa
David Mphuthi, University of South Africa, South Africa
Title: Role of yoga and meditation in prevention of obesity
Bratati Banerjee, Maulana Azad Medical College, India
Title: Assessment of glycemic index of cocoyam, cowpea and plaintain composite flour meal for apparently healthy Nigerians
Jokodola Victoria Akinlotan, Nutrition and Dietetics Department, Moshood Abiola Polytechnic, Nigeria
Title: Effect of sugar on diets in first week of therapy: A clinical study
Javad Arian Nezhad, Arian Pooya Obesity Research Institute, Iran

Networking & Refreshments Break @ Foyer

Poster Presentations

Poster Judge: Claire Beynon, Public Health Wales and Cardiff University, UK

PVC101	**Title: Laparoscopic sleeve gastrectomy: Perspective from rural Australia** **Ya-Chu May Tsai,** St Vincent's Hospital Melbourne, Australia
PVC102	**Title: Oxidative stress and cardiometabolic syndrome in Algerian hypertensive subject: Impact of Copper/zinc ratio as endothelial dysfunction predictive biomarker** **Ines Gouaref,** Équipe de Bioénergétique et Métabolisme Intermédiaire, Algeria
PVC103	**Title: Accuracy in predicting personal BMI category among college students** **Ryan Roberts,** Utah Valley University, United States
PVC104	**Title: Efficacy through narrative: A sweetened beverage intervention involving 5th graders** **Roslyn Oakley,** Oakland University, William Beaumont School of Medicine, United States
PVC105	**Title: Evaluation of bank workers level of physical activity in Ibadan, Nigeria** **Toyosi Labeodan,** University College Hospital, Nigeria
PVC106	**Title: Milk consumption is associated with decreased insulin resistance in obese children and adolescents** **Zeynep Caferoglu,** Erciyes University, Turkey
PVC107	**Title: Association between exercise and nutritional behavior in children and adolescents** **Merve Capas,** Erciyes University, Turkey
PVC108	**Title: Using self-reported negative emotions to predict key health and weight measures among college students** **Ting-yi Vicky Lao,** Utah Valley University, United States
PVC109	**Title: Any correlation between BMI, plasma fibrinogen concentration and euglobulin lysis time in obese Africans?** **Adanihomwan Aigbe,** Nigeria
PVC110	**Title: Effects of allium hookeri on lipid metabolism in type ii diabetic mice** **Sunghyen Lee,** Department of Food and Nutrition, Seoul Women's University, South Korea
PVC111	**Title: Lifestyle behavior differences in weight management in american and taiwanese college students** **Christina Tsoi,** Utah Valley University, United States

Day 3 December 09, 2015

Grand Ball Room-3

Track 9: Health Risk Associated with Obesity
Track 10: Nutrition and Healthy Lifestyle

Session Introduction

Session Chair: Edita Stokic, University of Novi Sad, Serbia

Session Co-Chair: David Mphuthi, University of South Africa, South Africa

Title: Prevalence of Non Alcoholic Fatty Liver Disease (NAFLD) in obese and non-obese hypothyroid subjects
Sandeep Garg, Maulana Azad Medical College, India

Title: Nutritional status of North Indian obese young adults
Meenakshi Garg, University of Delhi, India

Title: Nutrient intakes according to eating patterns and nutritional status for older people
Jose Eduardo Corrente, University of Sao Paulo State , Brazil

Title: Causes of obesity amongst high school learners: South African perspective
Owen B Nene, University of South Africa, South Africa

Networking & Refreshments Break @ Foyer

Title: Comparison of some cardiometabolic risk factors in peri-urban adolescent school learners in mthatha, South Africa
Benedicta N Nkeh-Chungag, Walter Sisulu University, South Africa
Title: Yeast β – glucan supplementation decrease waist circumference and ameliorate hyperlipidemia in overweight subjects
Krittiya Mosikanon, Institute of Nutrition Mahidol University, Thailand
