Metabolomics 2017

Invitation

Dear Attendees,

We are glad to announce the **10th International Conference and Exhibition on Metabolomics** to be held in **Baltimore, USA** from **October 19-20, 2017** organized by **Conference Series LLC** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Metabolomic Profiling, Metabolomic Database, Metabolomic Analysis, Human Metabolomics, Single Cell Metabolomics, Mass Spectrometry based Metabolomics, Urine Metabolomics, Clinical Metabolomics & Lipidomics, Cancer Therapeutic Approaches, Plant & Environmental Metabolomics, Metabolic Syndrome, Metabolism of drugs, Tweets Box in Personalized Medicine.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Metabolomics Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **Baltimore this October**.

Sincerely,

Metabolomics 2017

Organizing Committee

Market Analysis Report of Metabolomics 2017

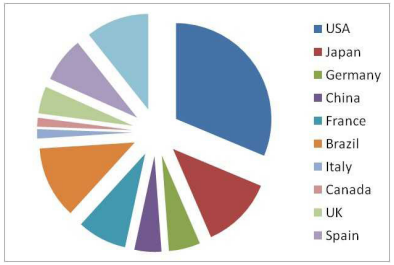

Metabolomics is an emerging field which combines strategies to identify and quantify cellular metabolites using sophisticated analytical technologies with the application of statistical and multi-variant methods for information extraction and data interpretation. Metabolomics is the study of small metabolites. Metabolomics Conference deals with topics like Bioinformatics, proteomics, systems biology, Analytical Techniques like NMR, GC-MS, LC-MS and CE-MS, Lipidomics, Metabolic Modelling, Metabolic profiling, clinical metabolomics, Translational sciences, Mass spectrometry, Metabolomics Syndrome, HPLC and CE based metabolomics and more. Metabolomics - the new "omics" - is a dynamic and developing field, joining genomics, transcriptomics and proteomics in empowering an integrative frameworks science methodology to drug discovery and development. In spite of the fact that metabolomics is still at an early evolutionary stage it is conjecture that throughout the following decade the biopharma business will apply this innovation all the more generally in drug development and information.

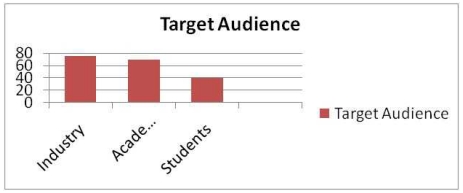

'The Future of Metabolomics' gives fully fledged understanding into the compelling utilization of metabolomics all through drug discovery, preclinical development and clinical trials. The report also highlights the use of metabolomics in maximizing and sustaining revenues post-marketing and in the development of clinical diagnostics.

Importance & Scope:

Metabolomics is now being extensively used in pharmaceutical and biotechnology industries for biomarker and drug discovery; pharmaceutical and biotechnology industries are expected to grow at a high rate in coming years, which is expected to boost the growth of the market.

The National Institutes of Health said that they are to invest $14.3 million for metabolomics research, potentially investing more than $51.4 million over five years, to accelerate an emerging field of biomedical research known as metabolomics. As per National Center for Biotechnology Information. Metabolomics has matured over the past 10 years. Over 300 studies have been completed over the past 5 years.

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook fans Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by crossref

About Conference

- The 10th International Conference and Exhibition on Metabolomics & Systems Biology during October 19-20, 2017 Baltimore, USA. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The main theme of the conference is "Metabolomics, a promising approach to Cancer, Cardiovascular disease and immunology". Metabolomics Meeting 2017 Conference will be an exploration of New research Innovation of Metabolomics and cover the latest developments and trends in Metabolomics modeling, Proteomics, Systems Biology, Genomics, Precision Medicine, Lipidomics, LC-MS and GC-MS Techniques, Bioinformatics, Plant Metabolomics, Clinical metabolomics, cancer and metabolism, computational biology, metabolomics syndrome, Nutritional Metabolomics, Therapeutic Metabolomics and more. Metabolomics is of interest to physicians because it may lead to improvements in the diagnosis and treatments of human diseases. Conference Series LLC Organizes 1000+ Global Events Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 100000 eminent personalities, reputed scientists as editorial board and organizing committee members. The conference series website will provide you list and details about the conference organize worldwide. The global metabolomics market is expected to grow at a strong CAGR during the forecast period of 2014 to 2019 and is estimated to be worth $2,100 million by 2019. The market is mainly driven by the increasing research funding for metabolomics from governments and private investors, growing demand for personalized medicine in the U.S. and Europe, and the increasing need for toxicology testing.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Metabolomics 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

10th International Conference and Exhibition on Metabolomics is an arena for interdisciplinary exchange among professionals in the fields of Geriatrics, Geriatric Medicine and Gerontological Nursing.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through “Glycobiology: Simple construction of sweet glycoprobes”.

- Bringing together the world’s scientific experts to catalyze and advance scientific knowledge about Glycobiology, Biochemistry and Molecular Biology present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Metabolomics
- Discuss and apply recent research findings related to Metabolomics
- Reflect on the place of critical distance in Metabolomics

About Conference

Who should attend

10th International Conference and Exhibition on Metabolomics is exclusively designed for Geriatricians, Physicians, Geriatric Physicians, Medical Directors, Cardiologists, Geriatric Nurses, Pharmacists, Geriatric care Organizations, Palliative care specialists, attorneys, philosophers and others engaged in endeavors related to Geriatric Medicine and Gerontological Nursing research and business.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by crossref

Major sessions

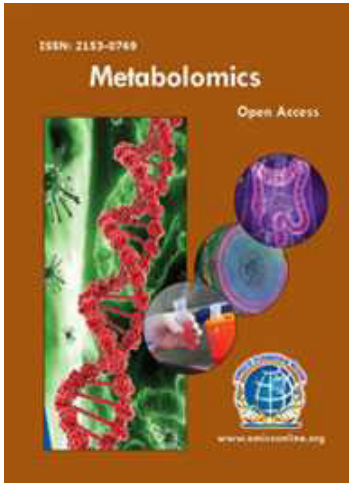

- Metabolomic Profiling
- Metabolomic Database
- Metabolomic Analysis
- Human Metabolomics
- Single Cell Metabolomics
- Mass Spectrometry based Metabolomics
- Urine Metabolomics
- Clinical Metabolomics & Lipidomics
- Cancer Therapeutic Approaches
- Plant & Environmental Metabolomics
- Metabolic Syndrome
- Metabolism of drugs
- Tweets Box

About Conference

Supporting Journals

- Journal of Metabolomics:Open Access
- Journal of Computer Science & Systems Biology

About Baltimore

Baltimore is the largest independent city in the United States and the largest city and cultural center of the U.S. state of Maryland. The city is located in central Maryland along the tidal portion of the Patapsco River, an arm of the Chesapeake Bay. Baltimore is sometimes referred to as Baltimore City in order to distinguish it from surrounding Baltimore County. Founded in 1729, Baltimore is a major U.S seaport and is situated closer to major Midwestern markets than any other major seaport on the East Coast. Baltimore's Inner Harbor was once the second leading port of entry for immigrants to the United States and a major manufacturing center. The harbor is now home to Harbor place, a shopping, entertainment, and tourist center, and the National Aquarium in Baltimore. After a decline in manu-facturing, Baltimore shifted to a service-oriented economy. Johns Hopkins University and Johns Hopkins Hospital are now the city's largest employers.

Baltimore is divided officially into nine geographical regions: Northern, Northwestern, Northeastern, Western, Central, Eastern, Southern, Southwestern, and Southeastern, with each patrolled by a respective Baltimore Police Department district. However, it is common for locals to divide the city simply by East or West Baltimore, using Charles Street as a dividing line, and/or into North and South using Baltimore Street as a dividing line.

The major attractions in Baltimore are the casinos and the hotels. The most famous hotel casinos are located on Maryland on the portion of that road known as the Maryland Strip. These larger casinos are located outside of the city. Many of these hotels are massive, providing thousands of rooms, with their large adjoining casino areas. There are many hotel casinos in the city's downtown area as well, which was the focal point of the city's gaming industry in its early days. Several large hotels and casinos are also located somewhat off the Strip, as well as in the county around the city.off the Strip, as well as in the county around the city.
