7th Annual Summit on
Microbiology: Education, R&D and Market

September 28-29, 2018, San Antonio, Texas, USA

Program at A Glance

Keynote Talks

Li Zhang, The University of Texas at Dallas, USA

Title: Molecular mechanisms governing heme regulation of JmjC domain-containing proteins in yeasts.

Salina Parveen, University of Maryland Eastern Shore, USA

Title: Salmonella: An Enemy for Poultry Industry.

Xhavit Zogaj, University of Texas at San Antonio, USA

Title: Construction of a live vaccine strain against Tularemia.

Rick Falkenberg, Nestle Nutrition Research and Development, USA

Title: Evaluation of the AirPHX Advance Oxidation System in Controlling Healthcare-Associated Infections on Various Surfaces.

Keynote Slots Available

Mail us to book your slot@ microbiologyconferences.smith@gmail.com

Oral Talks

Zhu-Nan Li, NCIRD, USA

Title: Identification of hemagglutinin subtype-specific influenza virus exposures in influenza outbreak investigations by a high throughput 43-plexed MAGPIX platform.

Raewyn Mai, Griffith University, Australia

Title: Zero to Hero – When there is no Escherichia coli showing on a comprehensive stool analysis, to thriving gut health and reversing symptoms.

Maria King, Texas A&M University, USA

Title: Dynamic Monitoring and Air Flow Model Based Tracking of Aerosolized Bacteria in Meat Facilities.

Glory I, Baysah, Adventist University of West Africa, Liberia

Title: Mutagenic and Genotoxic evaluation of Liberia industrial wastewater using the bacteria reverse mutation and rat bone marrow chromosome aberration bioassay.

Osuji Emmanuel Chinaka, Biomedical Scientist, South Africa

Title: The Prevalence of Helicobacter pylori infection and treatment among the OPD Patient attending hospitals in Johannesburg South Africa.

Bamidele Juliet Akinyele, Federal University of Technology, Nigeria

Title: Toward Potential Utilization of Wild and Edible Medicinal Macrofungi Indigenous to Nigeria as a Source of Anticancer Agents.

Ferruh AŞÇI, Afyon Kocatepe University, Turkey

Title: Decolorization of Textile Azo-metal Complex Dyes by a Bacterium Isolated from of ceramic industry.

Prakash Kinthada, JNTU University, India

Title: Transition metal complexes/organometallic compounds as anticancer/anti HIV drugs or in pharmaceutical industry.

Yosra Modafer, Tennessee State University, USA

Title: In Vitro Induction of Bacterial Resistance to Ceftazidime- Avibactam and Investigation of the Resistance Mechanisms.

Abiodun Oluwatoba, Texas Southern University, USA

Title: Antimicrobial activities of lime on pathogenic bacteria.

Shyam Prasad Majumder, Bidhan Chandra Krishi Viswavidyalaya, India

Title: Do Organophosphate Insecticides Influence Nitrogen (N2) Transformation in Soil?

Sheila Peña-Corona, National Autonomous University of Mexico, Mexico

Title: Effects of a single application of coumestrol on serum sex hormones levels and vaginal citology of bitches.

Amechi S. Nwankwegu, Hohai University, China

Title: Microbial degradation of glyphosate: Integrating first order rate in estimation of process kinetics.

Malick S. Bah, National Pingtung University of Science and Technology, Taiwan

Title: Extraction, Isolation, Purification, Structural Elucidation of Garlic (Allium sativum) Derived Compounds and Evaluation for Prebiotic Function.

Apoorva T Raju, Vardhman Mahavir Medical College, India

Title: Clinical spectrum and outcome of lower respiratory tract infections due to viruses in children (<5years)

Sumaira Maqsood, University of Punjab, Pakistan

Title: Synergistic contact of Beauveria bassiana and Bacillus thuringiensis for the control of Spodoptera litura.

Farhat abouzkhar, Institute Medical Technology, Libya

Title: Isolation and Identification Microbial Contamination of Currency Notes & Study Sensitivity of Pathogenic Bacteria to antibiotics and Plant Extracts In Libya.

Gabriel-Ajobiewe, Ruth Adefolakemi O., Federal University Oye-Ekiti, Nigeria

Title: Phytochemical and Antibacterial Properties of Fermented Chrysophyllum albidum Cotyledons on Methicillin Resistant Staphylococcus aureus and Pseudomonas aeruginosa.

Bijayata Shrestha, HAMS Hospital, Nepal

Title: Antibiotic Susceptibility Pattern of Salmonella Isolated from Enteric Fever Suspected Patients .

Speaker Slots Available

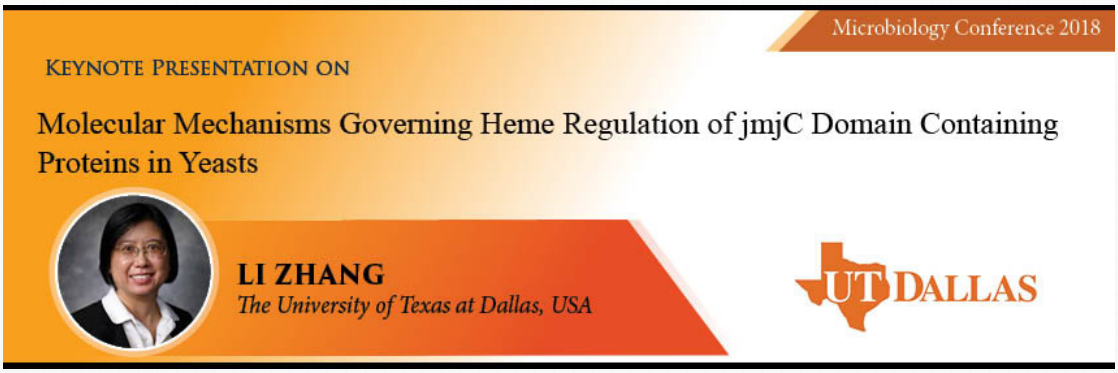

Mail us to book your slot@ microbiologyconferences.smith@gmail.com

Awards & Closing Ceremony

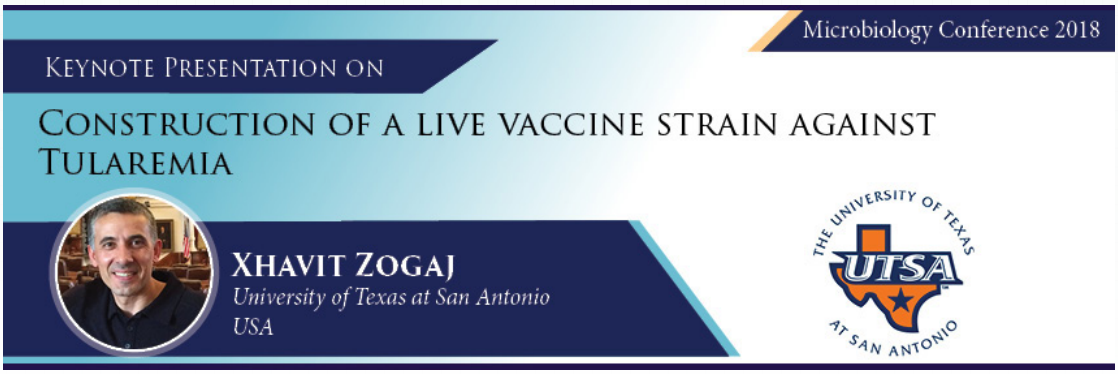

NOTE: Program Shedule is subject to change with final allotment of the speaker slots*

Keynote Speakers @ Microbiology Conference 2018

Glimpses of Microbiology Conferences

OFFERING 15% DISCOUNT TO WOMEN PARTICIPANTS AS A SPECIAL APPRECIATION TO WOMEN IN SCIENCE & TECHNOLOGY

Major Scientific Sessions

- Antimicrobials
- Microbial Immunology
- Bacteriology
- Virology
- Mycology and Phycology
- Intestinal Microbiology
- Clinical Microbiology
- Metabolic Microbiology
- Microbial Ecology
- Microbial Biotechnology
- Microbial Infections
- Microbial Interactions
- Microbiology and Cell Science
- Microbiology in Cancer Therapy
- Microbiology in Oral Health
- Role of Microbiology in Agriculture
- Role of Microbiology in Nursing

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

San Antonio River Walk

Sea world San Antonio

Six Flags Fiesta Texas

About San Antonio

San Antonio is the third largest city in the state of Texas. It is the 7th largest city in the United States of America with a population of 1.33 million. The city was named after San Antonio de Padua, whose feast day is on June 13, when a Spanish expedition stopped in the area in 1691. Famous for Spanish missions, the Alamo, the River Walk, the Tower of the Americas, the Alamo Bowl, Marriage Island and host to SeaWorld and Six Flags Fiesta Texas theme parks, the city is visited by approximately 26 million tourists per year according to the San Antonio Convention and Visitors Bureau. The city is home to the four-time NBA champion San Antonio Spurs and the annual San Antonio Stock Show & Rodeo, one of the largest in the country. San Antonio has a strong military presence. It is home to Fort Sam Houston, Lack Land Air Force Base, Randolph Air Force Base, and Brooks City-Base, with Camp Bullis and Camp Stanley outside the city. Kelly Air Force Base was operated out of San Antonio until 2001, when the airfield was transferred over to Lakeland AFB and the remaining portions of the base became Port San Antonio, an industrial/business park. San Antonio is home to five Fortune 500 companies and the South Texas Medical Center, the only medical research and care provider in the South Texas region.

The jewel of the city is the River Walk, which meanders through the downtown area. The Alamo, located nearby, is Texas' top tourist attraction, while the River Walk is the second most visited attraction. Sea World, located 16 miles (26 km) west of downtown, is the 3rd attraction. San Antonio is home to the first museum of modern art in Texas, the McNay Art Museum. Other places of interest include the San Antonio Zoo, the Japanese Tea Garden, Brackenridge Park, the missions of the San Antonio Missions National Historical Park, San Antonio Museum of Art, San Antonio Botanical Garden and the Witte Museum. San Antonio serves as the seat of Bexar County. The city has characteristics of other western urban centers in which there are sparsely populated areas and a low density rate outside of the city limits. The city is the anchor municipality of the San Antonio-New Braunfels metropolitan area; the other principal city is its largest suburb, New Braunfels. Commonly referred to as Greater San Antonio, the metropolitan area has a population of just under 2.2 million based on the 2011 U.S. Census estimate, making it the 24th largest metropolitan area in the United States and 3rd largest in the state of Texas.
