Invitation...

Dear Colleagues,

Conference Series llc Ltd. LLC extends its welcome to **Global Annual Midwifery Congress** during **February 26-27, 2019** at **Osaka, Japan** with a theme "**Novel Discoveries for Prospective Evaluation of Midwifery**". Conference Series llc Ltd through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community.

Conference Series llc Ltd Organizes 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and publishes 700+ Open access journals which contains over 100000 eminent personalities, reputed scientists as editorial board members. **Midwifery Annual Congress 2019** Conference will focus on educational research directed toward its impact on clinical outcomes, through oral and poster presentations, educational workshop sessions, and influential plenary presentations. Attendees will be provided with the tools to enhance midwifery education programs to make education more effective in midwifery practices. Conference will focus on the following topics during presentations of the Two day event, which reflect current education research, developments and innovations internationally and as evidenced in both Nurse Education and Evidence Based Practice.

- Midwifery Education
- Teaching, Assessment and Learning in University and Clinical Practice
- Technology, Simulation and Education
- Continuing Professional Development
- Continuing Education
- Patient Safety
- Innovation, Academic Leadership and Evaluation Research

Glimpses of past conference

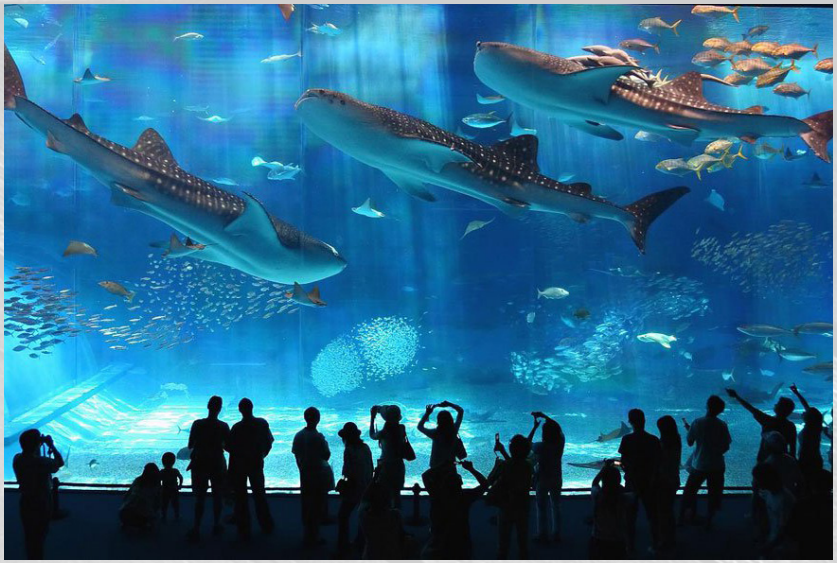

Tourist Attractions

Venue

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the “Nation’s Kitchen”. With a population of 2.5 million, Osaka is Japan’s third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. The city’s west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbor Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka’s culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre.
