Invitation...

Dear Colleagues,

Conference Series Ltd extends its welcome to **9th Molecular Immunology & Immunogenetics Congress** during March 08-09, 2018 at London, UK with the theme of "*Trends in Traditional and Novel Immunological Approaches*". Conference Series Ltd through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community.

Conference Series Ltd Organizes 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 100000 eminent personalities, reputed scientists as editorial board members.

This Molecular Immunology Conference will focus on educational research directed toward its impact on clinical outcomes, through oral and poster presentations, educational workshop sessions, and influential plenary presentations. This would be a great opportunity for attendees enhance and display their work at an international platform.

Molecular Immunology 2018 Conference will focus on the following topics during presentations of the two day event, which reflect current education research, developments and innovations internationally and as evidenced in Immunology, Molecular Biology and other fields.

- Molecular Immunology
- Cellular Immunology
- ImmunoGenetics & Histocompatibility
- Auto Immune Diseases
- Tumor Immunology
- Vaccinology
- Microbial Immunology
- Biochemistry and Molecular Biology
- Molecular & Cellular Oncology
- Immunodermatology
- Immunological Techniques
- Molecular Microbiology
- Transplantation Immunology
- Molecular Biomarker
- Molecular Medicine
- Computational Immunology
- Immunohaematology
- Industrial Immunology
- Innate Immunity and Inflammation
- Mucosal Immunology
- Allergy and Infectious Diseases
- Molecular Neuroscience

One of the world's most visited cities, London has something for everyone: from history and culture to fine food and good times.

London is as much about wide-open spaces and leafy escapes as it is high-density, sight-packed exploration. Central London is where you will find the major museums, galleries and most iconic sights, but visit Hampstead Heath or the new Queen Elizabeth Olympic Park to escape the crowds and view the city's greener hues up close. Or venture even further out to Kew Gardens, Richmond or Hampton Court Palace for excellent panoramas of riverside London.

The United Kingdom of Great Britain and Northern Ireland, commonly known as the United Kingdom (United Kingdom) or Britain is a sovereign state located off the north-western coast of continental Europe. The country includes the island of Great Britain (a term sometimes loosely applied to the whole state), the north-eastern part of the island of Ireland, and many smaller islands.

The total area of the United Kingdom is approximately 243,610 square kilometres (94,060 sq mi). The country occupies the major part of the British Isles archipelago and includes the island of Great Britain, the north-eastern one-sixth of the island of Ireland and some smaller surrounding islands. The United Kingdom has a temperate climate, with plentiful rainfall all year round.
