

58th International Conference on Molecular Medicine and Diagnostics

July 13-14, 2023 Dubai, UAE

About Conference

The "8th International Conference on Molecular Medicine and Diagnostics" will take place in Dubai, United Arab Emirates, on July 13–14, 2023, and is proudly presented by Conference Series. The objective of Molecular Medicine 2023 is the exchange of knowledge and expertise in all areas relevant to molecular medicine, diagnostics, and related scientific subjects. It provides a forum for scientists, researchers, and educators to discuss the most recent advancements, issues, trends, real-world difficulties faced, and solutions chosen in the domains of molecular medicine and diagnostics.

Target Audience

- Molecular Diagnostic Companies
- Molecular Biologists
- Molecular Geneticists
- Biotechnologists
- Molecular Pathologists
- Molecular Oncologists
- Clinicians
- Pharmacogenetist
- Genome surgeons
- Bioinformaticians
- Clinical Chemists
- Immunologists
- Geneticists
- Stem cell Developers & Researchers

Session & Tracks

- Molecular Medicine
- Molecular Diagnostics
- Molecular Genetics and Genomics
- Molecular Oncology
- Molecular Biomarkers and opinion
- Molecular Pathology
- Molecular Virology
- Advances in Molecular Diagnostics
- Precision Medicine
- Molecular Evolution
- Cellular and Molecular Biology
- Medical Biotechnology
- Metagenomics
- Molecular Pathological Epidemiology
- Diagnostic in Nano Medicine
- Stem Cell & rejuvenescence
- Integrative Molecular Medicine
- DNA sequencing
- Cell and gene remedyNuclear drug and Molecular Imaging

CITY ATTRACTIONS

REMINISCENCE OF PREVIOUS YEARS
