WORLD CONGRESS ON MYCOTOXINS

February 27-28, 2017 // Amsterdam, Netherlands

World Congress on Mycotoxins

Amsterdam, Netherlands

February 27-28, 2017

mycotoxins@microbiologyconferences.org

Mycotoxins 2017

Invitation

Dear Attendees,

We are glad to announce the **World Congress on Mycotoxins** to be held in **Amsterdam, Netherlands** from **February 27-28, 2017** organized by **Conference Series LLC, USA** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Scientists – coming together to present and discuss current topics in Microbiology, Mycology, Microbial Diversity, Phylogeny and Evolution, Fungal identification and quantification, Fungi and Ecosystem Functioning, Ecology and mycology, Mycotoxicology, Fungal Biotechnology, Industrial Mycology, Medical mycology, Veterinary Mycology, Mycobacterium, Mushrooms, Clinical Mycology, Food mycology and will be available to discuss with you the latest issues and trends in **"A voyage to explore Mycotoxins"**.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Mycotoxins Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **Amsterdam** this **February**.

Sincerely,

Mycotoxins 2017

Organizing Committee

Market Analysis Report

Mycotoxins 2017 welcomes attendees, presenters, and exhibitors from all over the world to Amsterdam, Netherland. We are delighted to invite you all to attend and register for the "World Congress on Mycotoxins and Toxigenic Fungi" which is going to be held during February 27-28, 2017 at Amsterdam, Netherland. The organizing committee is gearing up for an exciting and informative conference program including plenary lectures, symposia, workshops on a variety of topics, poster presentations and various programs for participants from all over the world. We invite you to join us at the Mycotoxin-2017, where you will be sure to have a meaningful experience with scholars from around the world. All the members of Mycotoxins 2017 organizing committee look forward to meet you at Amsterdam, Netherland.

For more details, please visit: http://mycotoxins.conferenceseries.com/

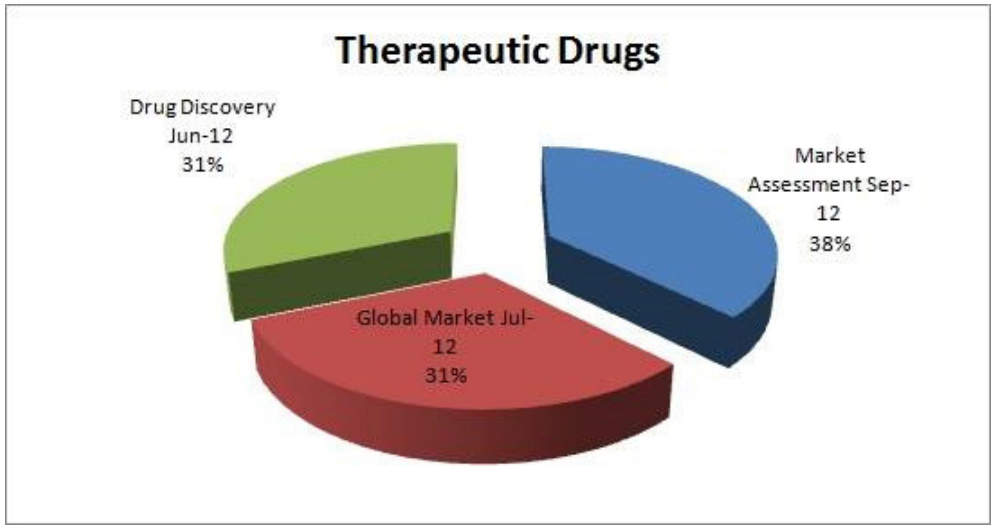

In the new bioeconomy, fungi play a very important role in addressing major global challenges, being instrumental for improved resource efficiency, making renewable substitutes for products from fossil resources, upgrading waste streams to valuable food and feed ingredients, counteracting life-style diseases and antibiotic resistance through strengthening the gut biota, making crop plants more robust to survive climate change conditions, and functioning as host organisms for production of new biological drugs.

This range of new uses of fungi all stand on the shoulders of the efforts of mycologists over generations: the scientific discipline mycology has built comprehensive understanding within fungal biodiversity, classification, evolution, genetics, physiology, ecology, pathogenesis, and nutrition. Applied mycology could not make progress without this platform. To unfold the full potentials of what fungi can do for both environment and man we need to strengthen the field of mycology on a global scale.

Market Analysis Report

Therapeutic Drugs:

The market for biologics was valued at $150 billion in 2011 and should reach $163 billion in 2012. Total market value is expected to reach $252 billion in 2017 after increasing at a five-year compound annual growth rate of 9%

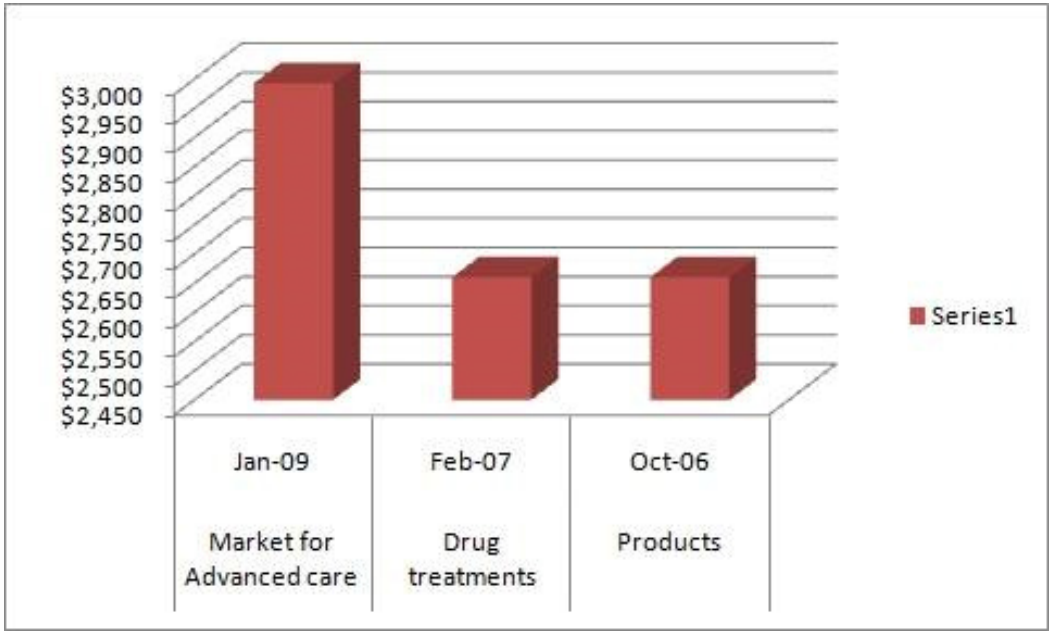

Antifungal Drugs:

The global market for human antifungal therapeutics was valued at $9.8 billion in 2009 and is expected to increase at a compound annual growth rate (CAGR) of approximately 3.8% to reach $11.3 billion in 2014.

The Latin and South American region will experience the greatest compound annual growth rate (CAGR) of 8.3%, reflecting an increase in revenues from $637 million in 2009 to $949 million in 2014.

In North America, human antifungal therapeutics were valued at $3.9 billion in 2009 and are expected to increase at a 0.7% compound annual growth rate (CAGR) to reach $4 billion in 2014

Market Analysis Report

Food Traceability:

he global food traceability market was $7 billion in 2011 and is expected to reach $11 billion in 2016 at an estimated compound annual growth rate (CAGR) of 8.9% from 2011 to 2016.

Global markets in Microbiology:

The consumables, equipment and technology markets in the microbiology industry totaled nearly $7.7 billion in 2012. This total is expected to grow from $8.5 billion in 2013 to $11.4 billion in 2018, with a compound annual growth rate (CAGR) of 6.1% for the five-year period, 2013 to 2018.

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook fans Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by crossref

About Conference

Mycotoxins 2017 Conference website is attracting **25000+** Microbiologists online visitors ranging from Mycologists, Scientists, Researcher Scholars, Academicians, Practitioners, Early Career Scholars, Students along with Industries, Organizations and other key stake holders from Microbiology, Healthcare and Medicine space who are searching to attend and present/exhibit their research/organization findings on highly acknowledged international conferences. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference..

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Mycotoxins 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

World Congress on Mycotoxins Mycotoxins, Ecology and Mycology, Medicine and Health care..

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Mycology, World Congress on MYcotoxins present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in World Congress on Mycotoxins
- Discuss and apply recent research findings related to World Congress on Mycotoxins
- Reflect on the place of critical distance in World Congress on Mycotoxins

About Conference

Who should attend

World Congress on Mycotoxins is exclusively designed for Microbiologists, Epidemiologists, Medical Directors, Research Scientists, Infectious Disease Specialists, Research Scholars, Academicians and Students of Microbiology and Biological Science Industrial Professionals, Exhibitors and others engaged in endeavors related to different Microbial Interactions and Beneficial Microbes research and business.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by crossref

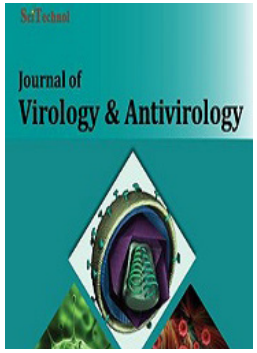

Major sessions

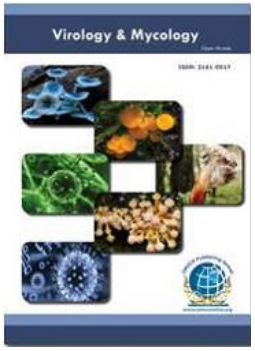

- Identification and characterization of Mycotoxins
- Detoxification/Degradation
- Toxicology
- Co-occurrence and Co-exposure
- Impact on Human Health and animal health
- Carcinogenic mycotoxins and Epidemiology
- Food contamination and control methodologies
- Mycotoxins and Phycotoxins
- Applied Mycology
- Environmental Mycology
- Food and Nutrition Toxicology
- Food Borne Diseases
- Fungal Allergy and Pathogenicity
- Chemistry of Mycotoxins
- Genetic-bio molecular controls of biosynthesis
- Entrepreneur Investments Meet: Description

About Conference

About Amsterdam

Why Amsterdam: Amsterdam is the capital and most populous municipality of the Kingdom of the Netherlands. Its status as the capital is mandated by the Constitution of the Netherlands. The city is located in the province of North Holland in the west of the country, and is also North Holland's largest city. Amsterdam's name derives from Amstelredamme, indicative of the city's origin as a dam of the river Amstel. It originated as a small fishing village in the late 12th century. It is the commercial capital of the Netherlands and one of the top financial centres in Europe. Famous Amsterdam residents included Anne Frank the diarist, the artists Rembrandt van Rijn and Vincent van Gogh, and the philosopher Baruch Spinoza.

The Amsterdam Stock Exchange, the oldest stock exchange in the world, is located in the city centre. Amsterdam's main attractions, including its historic canals, the Rijksmuseum, the Van Gogh Museum, Stedelijk Museum, Hermitage Amsterdam, Anne Frank House, Amsterdam Museum, its red-light district, and its many cannabis coffee shops draw more than 5 million international visitors annually.

There are so many things to do in Amsterdam: There is a broad spectrum of recreational and cultural sights in Amsterdam. There are Amsterdam tourist attractions you should not miss during your visit. Here is the list of the best of the best. Starting from Oude Kerk, Dam square, Begijnhof , Amsterdam's canals, Magere Brug, Jordaan, Rembrandtplein, Leidseplein, Red Light District¸ Albert Cuyp market, Albert Cuyp market, Vondelpark, Hortus Botanicus, Amsterdam parks, Squares in Amsterdam, Amsterdam windmills, Amsterdam Museums to different Landmark hotels of Amsterdam.
