Marianne de Visser
Professor
Academic Medical Center
Netherlands

Jiri Vencovsky
Professor
Institute of Rheumatology
Czech Republic

About City (Chicago)

A city, incorporated in the late 1800s, Chicago or Chicagoland, as fondly called, is now the third most populous city in the United States. Situated between the banks of the Missouri river and the Chicago Great Lakes, this place has breathtakingly beautiful locations. It has been listed at seventh position in the list of Global cities of 2014. It is an international hub for finance, commerce, industry, technology, telecommunications, and transportation. A city with strong cultural and political history, it has staged many music, theatre and art shows.

Chicago's downtown loop is covered by the Grant Park over 300 acres along Lake Michigan with beautifully landscaped green space, the Clarence Buckingham Memorial Fountain and many public art pieces. Together, the treasures of Art Institute of Chicago and Museum Campus, Petrillo Music Shell, two boat harbors and Millennium Park, makes up its northwest corner. The Jay Pritzker Pavilion sits in the Lurie Garden.

Culturally very sound, this city offers you the best of African American, Asian and Latino cultures. Since it was the home of the Great Migration of the early 20th centuary, you will get to experience the cultural revival of the Harlem Renaissance. This city has a century old history of holding the most jazz musical shows, which you can still get to hear the city's many night clubs.

City Highlights

Navy Pier

Shedd Aquarium

Field Museum of Natural History

Buckingham Fountain

Wrigley Field

Lincoln Park Zoo
