INVITATION

Dear Attendees,

We are pleased to announce the 6th International Conference on Vaccine Research, scheduled to take place on September 08–09, 2025, in Paris, France. This conference is proudly organized by Conference Series with the generous collaboration and support of esteemed academicians, editorial board members, and global research partners.
Vaccine Research 2025 serves as a premier international platform where leading minds from academia, industry, healthcare, and regulatory bodies unite to explore cutting-edge developments in vaccine science. This event will feature in-depth discussions on topics including vaccine development, immunology, clinical trials, mRNA and next-generation vaccines, pandemic preparedness, public health immunization strategies, and global health security.
This year's theme, "Unifying Science for a Health-Secure Future," reflects our commitment to strengthening global collaboration in the fight against infectious diseases through scientific innovation and evidence-based policy.
We have curated a comprehensive agenda with keynote talks, focused sessions, interactive panels, and poster presentations, providing abundant opportunities to engage with peers, share insights, and form lasting partnerships. Our program also includes a dedicated Young Researchers Forum and an Innovation & Investment Meet for startups and entrepreneurs in the vaccine and biotech space.
Let this be your moment to connect, contribute, and catalyze change in vaccine research and global health. Join us in Paris and be part of the scientific momentum that aims to shape a healthier and more secure future for all.

We look forward to welcoming you to Vaccine Research 2025.

Sincerely,
VACCINE CONGRESS 2025
Organizing Committee

ABOUT VENUE

PARIS, FRANCE

The City of Light Welcomes You

Paris, the iconic capital of France, is not only a hub of culture, history, and art — it is also a global center for science, innovation, and sustainability. Known for its breathtaking architecture, world-class cuisine, and timeless elegance, Paris offers a vibrant atmosphere that perfectly complements the forward-thinking spirit of Pollution Congress 2025. From the historic Eiffel Tower and Louvre Museum to the scenic Seine River and charming Parisian streets, the city promises an unforgettable experience for every visitor.

As a venue for international collaboration, Paris blends tradition with innovation — making it the ideal backdrop for groundbreaking discussions in environmental chemistry and pollution control. Attendees will have the opportunity to explore the city's cultural treasures while engaging with experts from around the world.

Join us in Paris for a journey of scientific discovery, meaningful networking, and unforgettable memories.
