B2B Meetings

Dear Attendees,

We are glad to announce the **"4th International Conference on Nano Chemistry & Nano Medicine"** to be held in **Chicago, USA** during **June 06-07, 2024** organized by Conference Series llc LTD, Europe in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. Nanochemistry 2024 is centered with the theme "Nanomaterials and Nanomedicine: Synthesis, Characterization, and Applications".

Nanochemistry 2024 is welcoming all the Speakers and Delegates from every corner of the World to join us at Nanochemistry 2024

Nanochemistry 2024 is going to offer scientific talks by Keynote Speakers, Oral talks, Symposiums, Poster Presentation, Exhibitions and many more.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions and livelier interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the **Nanochemistry 2024** to network with your peers, exchange expertise and experiences and arm yourself with the latest information to take your field to the next level.

We look forward to personally welcoming you to Chicago.

Sincerely
Nanochemistry 2024
Organizing Committee

Nanochemistry 2024

About Conference

Nanochemistry 2024 is an international platform where world-wide professors, researchers, doctors, students are about to share their research work in our conference. The conference is mainly focusing on Nanoparticles, Nano Medicine, Nanochemistry, Nanotechnology, Drug delivery, Photolithography, Electron-beam lithography, X-ray lithography, Extreme ultraviolet lithography.

Nanochemistry 2024 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Special Issues : All accepted abstracts will be published in respective Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goal of the conference is to provide a transformative professional development experience.

- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Nanochemistry 2024
- Present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations
- to more effectively address Impact of COVID-19 Challenges for Nanotechnology.

Objectives

After participating in this meeting, attendees should be able to

- COVID-19 Challenges for Nanomedicine
- Discuss emerging issues in about Nanomedicine
- Discuss and apply recent research findings related to Nanochemistry and Nanotechnology

Who Should Attend?

4th International Conference on Nano Chemistry & Nano Medicine is among the World's leading Scientific Conference. The two day event on Nanotechnology 2024 will host 60+ Scientific and technical sessions and sub-sessions on cutting edge researchand latest research innovations in the field of Nanochemistry & its related issues. This year will comprises of 17 major sessions designed to offer comprehensive sessions that address current issues in various fields of Nanochemistry. The attendees can find- Exclusive Sessions and Panel discussions on Impact of COVID-19 Challenges for Nanomedicine. By participating in the conference, attendees will be able to get desired knowledge over future challenges in varied sorts of Nanotechnology & its related issues. Nanochemistry 2024 provides an opportunity to meet Experts, professionals, academicians and researchers from all over the world. Execute new methods or revise existing methods based on best presented facts asPresented at Nanochemistry 2024.

About Conference

About hosting organization

Conference Series llc LTD is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Advances in Nanomaterials Synthesis and Characterization
- Nanoparticles for Drug Delivery: Targeting and Controlled Release
- Nanomedicine for Cancer Therapy: Challenges and Opportunities
- Nanotechnology in Vaccine Development and Immunotherapy
- Nano-Bio Interfaces: Interaction and Compatibility
- Quantum Dots and Nanocrystals: Applications in Biomedicine
- Nanoscale Sensors and Diagnostics for Early Disease Detection
- Nanozymes: Enzyme-Mimicking Nanomaterials in Medicine
- Nanotechnology in Tissue Engineering and Regenerative Medicine
- Nanocarriers for Gene Delivery and Gene Editing
- Nanotoxicology and Safety Assessment of Nanomedicine
- Nanophotonics and Plasmonics in Biomedical Applications
- Nanomaterials for Neural Interfaces and Brain Therapeutics
- Nanotechnology for Infectious Disease Diagnosis and Treatment
- Emerging Trends in Nano Chemistry and Nano Medicine

About Chicago

Chicago is the most populous city in the U.S. state of Illinois and the third-most populous in the United States. With a population of 2,746,388 in the 2020 census, it is also the most populous city in the Midwest. As the seat of Cook County, the second-most populous county in the U.S., Chicago is the centre of the Chicago metropolitan area. On the shore of Lake Michigan, Chicago was incorporated as a city in 1837 near a portage between the Great Lakes and the Mississippi River watershed. It grew rapidly in the mid-19th century. The Great Chicago Fire in 1871 destroyed several square miles and left more than 100,000 homeless, but Chicago's population continued to grow. Chicago made noted contributions to urban planning and architecture, such as the Chicago School, the development of the City Beautiful Movement, and the steel-framed skyscraper Chicago is an international hub for finance, culture, commerce, industry, education, technology, telecommunications, and transportation. It has the largest and most diverse derivatives market in the world, generating 20% of all volume in commodities and financial futures alone.
