ABOUT DUBAI

Montreal, French Montréal, city, Quebec province, southeastern Canada. Montreal is the second most-populous city in Canada and the principal metropolis of the province of Quebec. The city of Montreal occupies about three-fourths of Montreal Island (Île de Montréal), the largest of the 234 islands of the Hochelaga Archipelago, one of three archipelagoes near the confluence of the Ottawa and St. Lawrence rivers.

Montreal is a city with considerable French colonial history dating back to the 16th century. It began as a missionary settlement but soon became a fur-trading centre, a role that was enhanced after the conquest of New France by the British in 1763. Montreal's location on the St. Lawrence proved to be a major advantage in its development as a transportation, manufacturing, and financial centre. From the time of the confederation of Canada, Montreal was the largest metropolitan centre in the country until it was overtaken by Toronto in the 1970s. French Canadians are the majority population in Montreal, which is often said to be the second largest French-speaking city in the world (after Paris), though the accuracy of that statement is sometimes questioned (principally by those who make the same claim for Kinshasa and Algiers). Montreal's economy, however, was long dominated by an Anglophone minority. The city has been a destination for many immigrants and is widely considered to be one of North America's most cosmopolitan cities. Montreal remains a city of great charm, vivacity, and gaiety, as well as one of unquestioned modernity.
