- ☞ The abstract should include complete details of the contestant (e.g., abstract title, name, affiliation, abstract and biography etc). For sample template, please.
- ☞ Abstracts have to be submitted through online or by email. Shortlisted abstracts for the competition will be intimated through email and those will be displayed on the website as well.

ABOUT VENUE

Montreal (About this sound listen) MUN-tree-AWL officially Montréal, French: (About this sound listen), is the second-most populous city in Canada and most populous city in the Canadian province of Quebec. Founded in 1642 as Ville-Marie, or "City of Mary", it is named after Mount Royal, the triple-peaked hill in the heart of the city. The city is centered on the Island of Montreal, which got its name from the same origin as the city, and a few much smaller peripheral islands, the largest of which is Île Bizard. The city is situated 196 km (122 mi) east of the national capital Ottawa, and 258 km (160 mi) south-west of the provincial capital, Quebec City. Historically the commercial capital of Canada, Montreal was surpassed in population and in economic strength by Toronto in the 1970s. It remains an important centre of commerce, aerospace, transport, finance, pharmaceuticals, Teichnology, design, education, art, culture, tourism, food, fashion, video game development, film, and world affairs. Montreal has the second-highest number of consulates in North America, serves as the location of the head quarters of the International Civil Aviation Organization, and was named a UNESCO City of Design in 2006

Canada is a country in North America. Its ten provinces and three territories extend from the Atlantic to the Pacific and northward into the Arctic Ocean, covering 9.98 million square kilometers (3.85 million square miles), making it the world's second-largest country by total area. Its southern and western border with the UnitedStates, stretching 8,891 kilometers (5,525 mi), is the world's longest bi-national land border. Canada's capital is Ottawa, and its three largest metropolitan areas are Toronto, Montreal, and Vancouver.

A highly developed country, Canada has the seventeenth-highest nominal per-capita income globally and the sixteenth-highest ranking in the Human Development Index. Its advanced economy is the tenth-largest in the world, relying chiefly upon its abundant natural resources and well-developed international trade networks.

Canada is part of several major international and intergovernmental institutions or groupings including the United Nations, NATO, the G7, the Group of Ten, the G20, the United States–Mexico–Canada Agreement, the Commonwealth of Nations, the Organization international de la Francophonie, the Asia-Pacific Economic Cooperation forum, and the Organization of American States .
