Invitation

Dear Friends and Colleagues,

It is our great pleasure to welcome you to the **28th World Summit on Neurology, Neuroscience & Neuropharmacology** scheduled on **September 26-27, 2018** in the breath-taking city of **Montreal, Canada**.

Neurological disease has been distinguished as a worldwide wellbeing need, as the developing burden of the disease will challenge the present medicinal services frameworks and healthcare systems. Subsequently, the disease mechanisms, prevention, early diagnosis and treatment of Neuro degenerative disease have been under intense research. Neuro Summit 2018 gives an outstanding forum to meet and learn from highly respected top-level speakers, who will spotlight the up-to-date and significant advances in research fields of Neuroscience, Neurology, Neuro degenerative disease , Dementia, Gerontology and other neurodegenerative diseases. Neuro Summit 2018 is an excellent opportunity for the attendees to collaborate, network and exchange innovative ideas for future of neurodegenerative diseases research, biomarkers, treatment and prevention.

We are glad to display our exciting scientific program, which features new and inspiring research findings related to new insights into Neuroscience and Neurology departments, diagnosis and prediction of Neurological disease and other neurodegenerative diseases, new advances in Imaging, Disease models and Translational Medicine, Technology-supported diagnosis and care, Novel approaches towards prevention and novel approaches in clinical treatment studies.

Neuro Summit 2018 is perceived globally as an important calendar event for the aged and dementia care industry. The meeting will give an International stage to share new research, experiences and evidence-based practices with Keynotes and Plenary talks and concurrent sessions with Special and Additional sessions, Poster and ePoster opportunities along with International Workshops and Symposiums for meaningful networking and engagement. We would like to hear the personal stories of people living with Various Neurodegenerative diseases those with a diagnosis and family carers – and their passion to make a difference.

During the conference, we assure you that you will experience world class facilities and hospitality at the conference.

Life is full of give and take. Make it count in your professional life. We look forward to personally welcoming you to Montreal, Canada.

Sincerely,

Neuro Summit 2018 Committee

Program at Glance

September 26, 2018 Day 1	Day 1		
	Reception/Registration	08:00-08:30	
		Time	**General Session**
		08:30-08:45 am	Inaugural Address
	Keynote Forum	08:45-09:30 am	Keynote Talk 1
		09:30-10:15 am	Keynote Talk 2
	Group Photo		
	10:20-10:35 am Morning Coffee/Tea Break (Networking)		
	10:35-11:35 am International Workshop 1		
	Plenary Sessions Forum		
	11:25 -12:55 pm	**Session on**: Neurodegenerative Disorder	
		Session on: Neurology	
		Session on: Cognitive and Behavioral Neurology	
	Panel Discussion		
	12:55-01:40 pm Afternoon Lunch Break		
	1:40-03:40 pm	**Session on**: Neuroscience	
		Session on: Neuro-imaging	
		Session on : Neuro-biology	
		Session on: Neurosurgery	
	Panel Discussion		
	3:40-3:55 pm Evening Coffee/Tea Break & Networking		
	3:55-4:45 pm International Workshop 2		
	4:45-5:45 pm		
		Session on: Nursing Interventions and Classification	
	Panel Discussions		
	Award Ceremony and Day 1 Concludes		

Program at Glance

September 27, 2018 Day 2	Day 2		
		Time	**General Session**
	Keynote Forum	08:30-09:15 am	Keynote Talk 3
		09:15-10:00 am	Keynote Talk 4
	10:00-10:15 am Morning Coffee/Tea Break (Networking)		
	10:15-11:05 am International Workshop 1		
	Plenary Sessions Forum		
	11:05-01:05 pm	**Session on**: Neural Engineering	
		Session on: Neuroimmunology	
		Session on: Neuro-radiology	
		Session on: Neurpharmacology and Clinical Neurology	
	Panel Discussion		
	1:05 -1:50 pm Afternoon Lunch Break		
	1:50 -3:50 pm	**Session on**: Neurodegenerative Disorder	
		Session on: Neuro-nursing	
		Session on: Neurological Rehabilitation	
		Session on: Pediatric Neurology	
	Panel Discussions		
	3:50-04:05 pm Evening Coffee/Tea Break & Networking		
	Poster Sessions		
	Young Research Forum		
	Video Presentations and Webinars		
	Awards and Closing Ceremony		

NOTE: Program Shedule is subject to change with final allotment of the Speaker slots

Neurological Disease Statistics and Prevalence

Up to 1 billion people, nearly one in six of the world's population, suffer from neurological disorders, from Alzheimer and Parkinson disease, strokes, multiple sclerosis and epilepsy to migraine, brain injuries and neuroinfections, with some 6.8 million dying of the maladies each year, according to a new United Nations report issued today.

The UN World Health Organization (WHO) study – Neurological disorders: Public health challenges – shows that people in all countries, irrespective of age, sex, education or income are affected, that the economic cost of such diseases in Europe reached some €139 billion in 2004, and that access to appropriate care is lacking in many parts of the world.

"Despite the fact that highly effective, low-cost treatments are available, as many as nine out of 10 people suffering from epilepsy in Africa go untreated

As the global population ages, the impact of neurological disorders will be felt both in developed and developing countries, reaching a significant proportion in countries with a growing percentage of the population over 65 years. The disorders include diseases of the central and peripheral nervous system, such as brain, spinal cord, cranial nerves, the autonomic nervous system, neuromuscular junction and muscles.

Global statistics show that 50 million people suffer from epilepsy, 62 million from cerebrovascular disease, 326 million from migraine, and 24 million from Alzheimer disease and other dementias.

Reference UN NEWS 27 February 2007

Aim and Goals:

- To improve both Quality of care and Quality of Life
- Expand Supports for People with Neuro degenerative disease and their Families
- Enhance Public Awareness and Engagement
- Ensure well-trained palliative care through workforce training, education and awareness, and enhanced research.
- Advances in Disease Monitoring, Assessment and Care
- Translational Research and Therapy to Enable Predictive Drug Development

Major Scientific sessions:

Our conference will incorporate a wide range of research, care, technology and innovation topics. This involves a broad range of scientific and multidisciplinary aspects and we do welcome new ideas and topic proposals from the presenters and include those respective sessions based on their suggestions under conference panel.

- Neurodegenerative Disorder
- Neurology
- Neuroscience
- Cognitive and Behavioral Neurology
- Neurosurgery
- Neuroimmunology
- Neuro-biology
- Neuro-imaging
- Neuro-radiology
- Neural Engineering
- Computational Neurology
- Neurpharmacology and Clinical Neurology
- Pediatric Neurology
- Neuro-nursing
- Neurological Rehabilitation
- Recent research and Case studies

The conference welcomes abstracts for Keynotes, Plenary sessions, Symposia, Workshops, Oral and Poster presentations in the fields not limited to Neuroscience and Neurology but also, **Biological and Medical Sciences | Health Sciences | Behavioural and Social Sciences | Humanities and Arts | Social Research, Policy, and Practice**

We have identified a number of key topics for which we would like presenters/participants to submit their Abstracts

Abstract Submission:

https://neurosummit.neurologyconference.com/abstract-submission.php

Registration:

https://neurosummit.neurologyconference.com/registration.php

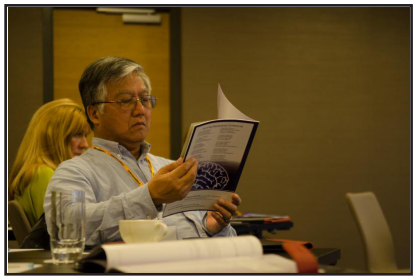

Who to Attend?

- Professors, Associate Professors, Assistant Professors from Academics
- PhD Scholars, Graduates and Post Graduates
- Neurologists
- Neuroscientists
- Neurosurgeons
- Neuroradiologists
- Neuropsychiatrists & Neuropsychologists
- Psychologists, Psychiatrists and Psychotherapists
- Interventional radiologists
- Physiatrists & Pharmacists
- Emergency Medicine Specialists
- International speakers & Researchers
- Scientists
- Students, College Faculty members
- Primary care Physicians & Hospitalists
- Nurses and Nurse practitioners
- Rehabilitation Specialists
- Occupational and Speech Therapists
- Business Entrepreneurs
- Healthcare professionals and Investigators
- Counselors and Coaches
- Social Workers
- Behavioral Health Administrators
- Primary Care providers
- Directors, CEO's of Organizations
- Association Presidents and Vice Presidents
- Noble laureates in Health Care and Medicine
- Pharmaceutical Companies
- Research Institutes and Members
- Supply Chain Companies
- Manufacturing Companies
- Training Centers and Institutes
- Industry Suppliers and Vendors
- Business Entrepreneurs

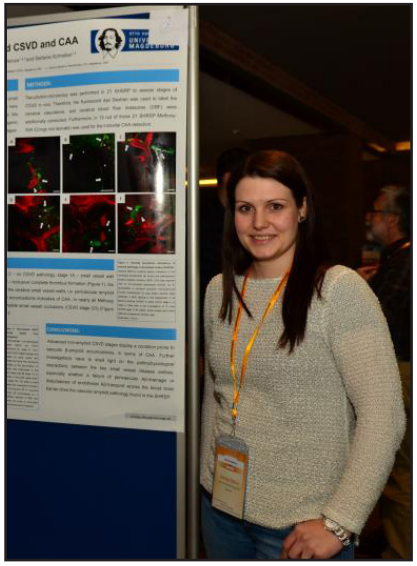

Glimpses of past conferences

Tourist Attractions

Tourism

Montreal is the most crowded district in the area of Quebec and the second-most crowded in Canada. Initially called Ville-Marie, or "City of Mary", it is named after Mount Royal,the triple-crested slope in the core of the city. The city is on the Island of Montreal, which took its name from an indistinguishable source from the city and a couple of considerably littler fringe islands, the biggest of which is Île Bizard. It has a particular four-season mainland atmosphere with warm to sweltering summers and cool cold winters.

In 2016 the city had a populace of 1,704,694.Montreal's metropolitan range had a populace of 4,098,927 and a populace of 1,942,044 in the urban agglomeration, with the majority of the regions on the Island of Montreal included.French is the city's authentic language and is the dialect talked at home by 49.8% of the number of inhabitants in the city, trailed by English at 22.8% and 18.3% different dialects (in the 2016 registration, excluding multi-dialect responses).In the bigger Montreal Census Metropolitan Area, 65.8% of the populace communicates in French at home, contrasted with 15.3% who communicate in English.The agglomeration Montreal is a standout amongst the most bilingual urban areas in Quebec and Canada with more than 59% of the populace ready to talk both English and French.Montreal is the second-biggest basically French-talking city on the planet, after Paris.

Generally the business capital of Canada, it was outperformed in populace and monetary quality by Toronto in the 1970s. It remains an essential focal point of trade, aviation, fund, pharmaceuticals, innovation, plan, training, culture, tourism, gaming, film and world affairs. Being the area of the home office of the International Civil Aviation Organization, Montreal is one of three North American urban communities home to associations of the United Nations (alongside Washington, D.C. furthermore, New York)and furthermore has the second most astounding number of offices in the continent.Montreal was additionally named an UNESCO City of Design.In 2009 Montreal was named North America's driving host city for worldwide affiliation occasions, as indicated by the 2009 preparatory rankings of the International Congress and Convention Association (ICCA).The 2017 release of QS Best Student Cities positioned Montreal as the best city on the planet to be a college student. According to the 2015 Global Liveability Ranking by the Economist Intellige
