Invitation

Dear Attendees,
The organizing committee welcomes you to attend the 24th International Conference on Neuroscience and Neurochemistry, which is going to be held during July 23-25, 2018 at Birmingham, UK.

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Neurosciences.

Neurochemistry 2018 anticipates participants around the globe with thought provoking Keynote lectures, Oral Presentations and Poster Presentations. With members from around the world focused on learning about Neuroscience and its advances; this is your best opportunity to reach the largest assemblage of participants from the Neuroscience and Neurochemistry community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new neurological study model developments, and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, developments, and the newest updates in 24th International Conference on Neuroscience and Neurochemistry are hallmarks of this conference.

This is an excellent opportunity for the researchers, scientists, young scholars, Noble laureates in neurochemistry, and neuropharma research entrepreneurs and delegates from Universities and Institutes to interact with the world class Scientists.

NEUROCHEMISTRY2018

Invitation

It is a platform to discuss various aspects of cutting edge strategies, new technologies, developments and methods to allow you to further your research, the diseases and their cures, case studies from all over the world and research experiences of eminent investigators along with latest technology/solution advancements in the field.

The main theme of the conference is “Perspectives of Neurochemistry in Neuroscience and Neurological Disorders”
Regards,

ABOUT CONFERENCE

NEUROCHEMISTRY 2018

Neurochemistry 2018 is an international conference for the researchers from interdisciplinary subjects of Neuroscience and Neurochemistry. It is an outstanding Europe event to bestow a platform for innovative neuroscience research, development and their in-depth analysis of Clinical applications.

How Conference Series llc LTD Conferences differs from others?

3000+ Conferences across the globe in 30+ countries all through the year
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
Participation by Stalwarts from various international societies
Internationally renowned speakers and scientists representation
Career guidance for early career researchers and students
Interesting scientific deliberations and discussions
Perfect platform for Global Networking

Neurochemistry 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

GOALS

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Neuroscience and Neurochemistry present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

WHO SHOULD ATTEND?

Neurochemistry 2018 is a 2 day international conference attracting researchers, scientists, young scholars, neurologists, neurosurgeons, entrepreneurs, poster communications and participants from all over the globe. It is a platform to discuss various aspects of cutting edge strategies, new technologies, developments and methods to allow you to further your research, the diseases and their cures, case studies from all over the world and research experiences of eminent investigators along with latest technology/solution advancements in the field.
