WELCOME ADDRESS

Dear Attendees,

The Neurology 2024 Organizing Committee is absolutely delighted to welcome you to the **33rd World Congress on Neurology and Therapeutics** which will be held on **February 01-02, 2024** at **Dubai, UAE,** where we will be shining a spotlight on *"Investigating the Connection Between Mind and Matter"*.

We are looking forward to providing you with a superb environment in which to present, discuss and advance your Neurology research. The world class scientific programme will consolidate existing knowledge while at the same time increase your awareness of leading edge and forward looking advances in the field.

The congress is to be held in one of the world's most important global cities Dubai, the most populous city in the United Arab Emirates and the capital of the Emirate of Dubai, the most populated of the country's seven emirates. Established in the 19th century as a small fishing village, Dubai grew into a regional trading hub from the early 20th century and grew rapidly in the late 20th and early 21st centuries with a focus on tourism and luxury. It is second-most in five-star hotels in the world and boasts the tallest building in the world, the Burj Khalifa, which is 828 metres tall.

We look forward to seeing/welcoming you in 2024 for an experience of a lifetime.

With Regards
Neurology 2024

ABOUT DUBAI

Dubai is the most populous city in the United Arab Emirates (UAE) and the capital of the Emirate of Dubai, the most populated of the country's seven emirates. Established in the 19th century as a small fishing village, Dubai grew into a regional trading hub from the early 20th century and grew rapidly in the late 20th and early 21st centuries with a focus on tourism and luxury. It is second-most in five-star hotels in the world and boasts the tallest building in the world, the Burj Khalifa, which is 828 metres tall.

In the eastern Arabian Peninsula on the coast of the Persian Gulf, it is a major global transport hub for passengers and cargo. Oil revenue helped accelerate the development of the city, which was already a major mercantile hub.

A centre for regional and international trade since the early 20th century, Dubai's economy relies on revenues from trade, tourism, aviation, real estate and financial service. Oil production contributed less than 1 percent of the emirate's GDP in 2018. The city has a population of around 3.49 million.
