Conference Series - America

One Commerce Center-1201, Orange St. #600, Wilmington, Zip 19899, Delaware, USA
P: +1-702-508-5200, F: +1-650-618-1417

Conference Series - UK

Kemp House, 152 City Road, London EC1V 2NX, UK
Toll Free: +1-800-014-8923

Day 1 Keynote Speakers

Title: Blood-brain barrier in Alzheimer's disease induced brain pathology. Neuroprotection by Nanodelivery of Cerebrolysin

Hari Shanker Sharma, Uppsala University, Sweden

Title: Mitochondrial Lesions as an Earlier hallmark for Liver and Brain Neuronal Damage During the Chronic Ethanol Self Administration in Cynomolgus Monkeys: New Challenge for Treatment Strategy

Gjumrakch Aliev, GALLY International Biomedical Research Institute Inc., USA

Title: The impact of dementia on migrant communities: A complex challenge in a globalised world

David Truswell, Somefreshthinking ltd. UK

Title: Co-ultramicronized palmitoylethanolamide/luteolin facilitates oligodendrocyte precursor cell development and improves outcome in experimental autoimmune encephalomyelitis

Stephen D Skaper, University of Padua, Italy

Day 1 Speakers

Sessions: Neuroimmunology and Neuroinflammatio | Neurochemical Transmission | Alzheimer's Disease and Dementia | Parkinson's Disease

Session Chair: Yet to Confirm

Session Chair: Yet to Confirm

Title: Fast direct neuronal signaling via the IL-4 receptor reverses disease severity in progressive neuroinflammation

Christina Francisca Vogelaar, Johannes Gutenberg University Mainz, Germany

Title: The Impact of Brain Lesions On Basic Emotions And Emotion Regulation In Stroke Survivors

Marina Farinelli, Clinical Psychology Service "CASA DI CURA VILLA BELLOMBRA" rehabilitation hospital - Consorzio Colibrì - Bologna, Italy

Title: ApoE4- Targeted Therapeutics for AD

Varghese John, University of California, USA

Title: Intravenous Immunoglobulins for children Refractory Epilepsy

Alireza Rezayi, Shahid Beheshti University of Medical Sciences (SBMU), Iran

Title: Inhibition of Signal Transducer and Activator of Transcription 3 (STAT3) reduces neonatal hypoxic-ischemic brain damage

Mariya Hristova, University College London, UK

Title: Thalamocortical circuit in sleep control : The thalamic mGluR1-PLCb4 pathway is critical in sleep architecture

Eunji Cheong, Yonsei University, Korea

Speaker Slot Available

Title: Title: Rice bran, a Functional extract, new scientific evidences for potential health benefits in Alzheimer's disease therapy

Ola Ahmed Heikal, National Research Center, Egypt

Title: Can Tau Pathobiology be Pheno-copied in a Cellular Expression Model?

Joel B Schachter, Merck Research Laboratories, USA

Title: Nanodelivery of cerebrolysin induces neuroprotection in Parkinson's disease

Aruna Sharma, Uppsala University, Sweden

Title: Psychobiotic PS128 rescued motor deficits in MPTP-induced mice model

Ying-Chieh Tsai, National Yang-Ming University, Taiwan

Title: Addiction and Withdrawal of Dopamine Agonists Therapy for Parkinson's disease

Safa Najmi Tabrizi, Tabriz University of Medical Science, Iran

Title: A Major Early Driver Of Tauopathy And Neurodegeneration That Is Blocked By Antibody

Koorosh Shahpasand, Royan Institute for Stem Cell Biology and Technology, Iran

Title: Cognitive Functions in Patients with Parkinson's Disease: I. The Effect of Cerebral Microstructural Changes

Mona H. Tawfik, Beni suef University, Egypt

Day 2 Keynote Speakers

Title: Initial studies on Neuroimmune Biology

Istvan Berczi, University of Manitoba, Canada

Title: Novel paradigm of the development of preclinical diagnosis of Parkinson's disease

Michael V Ugrumov, Institute of Developmental Biology RAS, Russia

Title: Molecular mechanism and intervention studies of regenerative mossy fiber sprouting in hippocampus following developmental seizures

Ni Hong, Soochow University, China

Sessions: Clinical Neuropharmacology | Psychopharmacology | Behavioral and Addiction Neuropharmacology | Neurotechnology

Session Chair: Yet to Confirm

Session Chair: Yet to Confirm

Day 2 Special Session

Title: The Intuitive Rational-Choice Theory of Madness: Schizophrenia, Criminal Insanity & Neuroses The Fallen Empires of Psychoanalysis, Medical Models and Drug Companies

Yacov Rofé, Bar-Ilan University,Israel

Day 2 Speakers

Title: Deep brain stimulation for uncontrollable aggressive behavior, The benefit beyond our expectations

Oscar Bernal-Pacheco, Instituto Roosevelt, Colombia

Title: Prolonged inhibition of semaphorin3a pathway via biodegradable implant towards a better therapy for visual sensory impairments

Arieh S Solomon,Tel Aviv University, Israel

Title: The use of mTOR inhibitor for the treatment of refractory seizures in an infant with hemimegencephaly

Anita N Datta, University of British Columbia, Canada

Title: Delayed cytokine effects of 4 days of intravenous G-CSF infusion for mobilization of peripheral blood stem cells: Possible role for neuroregeneration

Young-Ho Lee, Hanyang University College of Medicine, South Korea

Title: The effects of combination treatment with PME-88 & Riluzole on the ALS Mouse model

Hyo Joon Kim, Presbyterian Medical Center, Korea

Title: Mental Health challenges among women in Dubai, What Commitments are needed? Public Health and Safety Department - Dubai Health Authority (DHA)

Kadhim Alabady, Public Health and Safety Department - Dubai Health Authority, Dubai

Title: Activated M2 phenotype microglia induce differentiation and polarization of monocyte and chemo-attraction in in vitro system

Yeonseung Han, Yonsei university college of Medicine, Korea

Title: Exploring the Cultural-Specific Challenges and Opportunities of the Autism Spectrum Disorders Populations in China and Hong Kong

Kay Chang, University of Macau, People's Republic of China

Title:Modulation of glial activation and amyloid burden by telmisartan: in vitro and in vivo studies

Sigal Fleisher-Berkovich, Ben-Gurion University of the Negev, Israel

Title: Peroxynitrite could be a critical therapeutic target for preventing hemorrhagic transformation and poor outcome in ischemia-reperfused rat brains with delayed thrombolysis

Jiangang Shen, The University of Hong Kong, China

Title: Neuroprotective activity of novel 5,6-Diaryl-1,2,4-triazine derivatives with ethyl acetate moiety against H_2O_2 and Aβ-induced neurotoxicity

Hamid Irannejad, Mazandaran University of Medical Sciences, Iran

Title:The effectiveness of oral vitamin B6 on behavioral disorders due to use of phenobarbital in children 2 to 15 years old with seizure

Farzad Ahmadabadi, Mofid Children's Hospital, Iran

Speaker Slot Available

Poster Session

Title: Can we target amino acid metabolism to affect brain tumor growth?

Eduard H. Panosyan, LABioMed/Harbor-UCLA, USA

Title: In Vitro Effects Of Newly Derivatives Of Caffeine-8-A-Methyl Thioglycolic Acid On Neuroblastoma Cell Line SH-SY5Y

Alexandra Kasabova, Medical University-Sofia, Bulgaria

Title: In vitro effects of newly caffeine derivatives on isolated rat synaptosomes

Borislav Angelov, Medical University-Sofia, Bulgaria

Title: In vitro study of newly synthesized derivatives of caffeine-thioglycolic acid – effects on contractile activity of small brain vessels

Martin Vasilev, Medical University-Sofia, Bulgaria

Title: Investigating the mechanism of action of novel Smoothened antagonists discovered by in silico screening of the homodimer interface

P Banerjee, Neuroscience Paris-Saclay Institute, France

Title: Postural stability of patients with distal symmetric diabetic polyneuropathy after combined pharmacotherapy with Alpha-lipoic acid and benfotiamin, pyridoxine and cyancobalamine

Dorina Petrova, National Transport Hospital "Tzar Boris III", Bulgaria

Title: The efficacy of the ketogenic diet on motor functions in Parkinson's disease: A rat model

Safa Najmi Tabrizi, Tabriz University of Medical Science, Iran

Title: Therapeutic effects of Beta-D-Mannuronic acid (M2000) on experimental model of Alzheimer's disease

Abbas Mirshafiey, Tehran University of Medical Science, Iran

Title: The effect of D-Aspartate in experimental model of multiple sclerosis

Parvin Ekhtiari, Tehran University of Medical Science, Iran

Title: K_{ATP} channel activation induces angiogenesis in vitro and in vivo

Bukar Umaru, University of Maiduguri, Nigeria

Title: Studying the effectiveness of venlafaxine in mice model of posttraumatic stress disorder

Natalia Malikowska, Jagiellonian University Medical College, Poland

Title: The Role of NMDAR/NO Pathway in the Neuroprotective Effects of Lithium on Cerebellum

Razieh Mohammad Jafari, Tehran University of Medical Sciences, Iran

Day 3 Speakers

Sessions: Neural Stem Cell | Neuroethics | Molecular Neuropharmacology | Future Aspects of Neuropharmacology | Case Study Reports

Session Chair: Yet to Confirm

Session Chair: Yet to Confirm

Title: Characterization of non-active site, TrkA selective kinase inhibitors and implications on obtaining kinase selectivity

Hua P Su, MSD Research Labs, USA

Title: Treatment with selenium in restless legs syndrome

Jan Ulfberg, Capio Sleep Center, Sweden

Title: Combination Brexpiprazole and Aripiprazole Long-Acting Injectable Therapy for Treatment-Resistant Schizophrenia

Mathew Nguyen, Meridian Behavioral Healthcare, USA

Title: The molecular basis of the neurotrophic action of vitamin B12 (cobalamin)

Giuseppe Scalabrino, University of Milan, Italy

Title: Association of polymorphism rs2412646 clock gene with some socio-psychological features and sleep disorders in male population 25-44 years in Russia / Siberia

Gafarov V.V, 1Collaborative laboratory of cardiovascular diseases epidemiology, Russia

Title: Mortality among long-stay patients with schizophrenia during the setting-up of community facilities under the Yuli model

Kan-Yuan Cheng, Taipei Veterans General Hospital Yuli Branch, Taiwan

Title: New sole presentation for childhood epilepsy

Maha Nada, Ain Shams University, Egypt

Title: Tanakan (EGb 761®): New therapeutic possibilities in neurorehabilitation

Saule T Turuspekova, KazNMU, Kazakhstan

Title: Neuropsychology of Frontotemporal Dementia: of alternative subcortical (a case analysis)

Juan Camilo Urazan, Universidad Manuela Beltran, Colombia

Title: Therapeutic Investigation Of Transcription Factor Cyclic Amp Response Element Binding Protein Activator In Rodent Model Of Intra-Cerebral Hemorrhage

Sidharth Mehan, Rajendra Institute of Technology & Sciences, India

Title: Assessing Autism Spectrum Disorders (ASD) Challenges among Children in Dubai – Mixed research approach – (Triangulation of data), 2016

Kadhim Alabady, Public Health and Safety Department - Dubai Health Authority, Dubai

Day 3 Young Researcher's Forum

Title: Studying the effectiveness of venlafaxine in mice model of posttraumatic stress disorder

Natalia Malikowska, Jagiellonian University Medical College, Poland

Speaker Slot Available
