B2B Meetings

Dear Attendees,

Conference Series llc LTD welcomes you to attend the **27th Global Experts Meeting on Neuropharmacology**, which is going to be held during **November 18 -19, 2019 at Rome, Italy.**

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Neuropharmacology.

Neuropharmacology 2019 anticipates participants around the globe with thought provoking Keynote lectures, Oral Presentations and Poster Presentations. With members from around the world focused on learning about neuropharmacology and its advances; this is your best opportunity to reach the largest assemblage of participants from the Neuropharmacology community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new drug developments, and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, developments, and the newest updates in Neuropharmacology are hallmarks of this conference. The attending delegates include Editorial Board Members of related Conference Series LLC Journals.

This is an excellent opportunity for the researchers, scientists, young scholars, neurologists, neurosurgeons, entrepreneurs and delegates from Universities and Institutes to interact with the world class Scientists.

It is a platform to discuss various aspects of cutting edge strategies, new technologies, developments and methods to allow you to further your research, the diseases and their cures, case studies from all over the world and research experiences of eminent investigators along with latest technology/solution advancements in the field.

The main theme of the conference is “Gearing up for the Futuristic Innovations and Emerging Concepts in Neuropharmacology”.

Regards,
Neuropharmacology 2019

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be
published inrespective Conference Series LLC Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Neuropharmacology 2019 Conference will be extremely helpful for future research and clinical practices in general and in neurological diseases in particular. Neurological diseases affecting Worldwide e.g. Huntington's Disease, Stroke, Dementia, Brain and spinal cord trauma and related psychosomatic diseases affecting central and peripheral nervous system require urgent attention for researchers and clinicians for developing suitable drugs for therapy. Neuro congress is just a novel addition in this field. This neuropharmacology Conference in co-ordinance of pharmacology Conferences, healthcare Conferences will be of utmost importance in future for achieving a better health and effective diagnostics & therapeutics.

Neuropharmacology 2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Neuropharmacology present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

About Conference

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Pharmacology, Neurology and Psychology
- Discuss and apply recent research findings related to Pharmacology, Neurology and Psychology
- Reflect on the place of critical distance in Pharmacology, Neurology and Psychology

Who should attend

9th Global Experts Meeting on Neuropharmacology is a 2 day international conference attracting researchers, scientists, young scholars, neurologists, neurosurgeons, entrepreneurs, poster communications and participants from all over the globe. It is a platform to discuss various aspects of cutting edge strategies, new technologies, developments and methods to allow you to further your research, the diseases and their cures, case studies from all over the world and research experiences of eminent investigators along with latest technology/solution advancements in the field.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Neuroimmunology and Neuroinflammation
- Neural Stem Cell
- Neuroethics
- Clinical Neuropharmacology
- Psychopharmacology
- Neurochemical Transmission
- BehavioralandAddictionNeuropharmacology
- Neurotechnology
- Neuroendocrinology
- Alzheimer's Disease and Dementia
- Parkinson's Disease
- Molecular Neuropharmacology
- Future Aspects of Neuropharmacology
- Case Study Reports

About Rome

Rome is a city and special commune in Italy. Rome is the capital of Italy and also of the homonymous province and of the region of Lazio. With 2.7 million residents in 1,285.3 km2 (496.3 sq mi), it is also the country's largest and most populated commune and fourth-most populous city in the European Union by population within city limits. The urban area of Rome extends beyond the administrative city limits with a population of around 3.8 million. Between 3.2 and 4.2 million people live in Rome metropolitan area. The city is located in the central-western portion of the Italian Peninsula, on the Tiber within Lazio (Latium). Rome is the only city in the world to contain in its interior a whole state; the enclave of Vatican City. Rome has a status of theglobal city. Rome was the 11th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. The city is one of Europe's and the world's most successful city "brands", both in terms of reputation and assets.

Its historic centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year. Rome hosted the 1960 Summer Olympics. Although associated today only with Latin, ancient Rome was in fact multilingual. In highest antiquity Sabine tribes shared the area of what is today Rome with Latin tribes. The Sabine language was one of the Italic group of ancient Italian languages, along with Etruscan, which would have been the main language of the last three kings who ruled the city till the founding of the Republic in 509 BC. Urganilla, or Plautia Urgulanilla, wife of Emperor Claudius, is thought to have been a speaker of Etruscan many centuries after this date, according to Suetonius' entry on Claudius. However Latin, in various evolving forms, was the main language of classical Rome, but as the city had immigrants, slaves, residents, ambassadors from many parts of the world it was also multilingual..
