INVITATION FOR CONFERENCE

DEAR
COLLEAGUES,

Welcome to the premier gathering at the crossroads of "**4th Global Conference on Neuroscience Psychiatry, and Mental Disorders**" on **August 08-09, 2024 in London, UK**. The Main theme of our conference is "Neuro-Psych Fusion & Integrating Insights for Mental Health" which is a nexus of knowledge, compassion, and progress, where experts and enthusiasts convene to explore the frontiers of brain science and mental health care. Through engaging discussions, ground-breaking research presentations, and hands-on workshops, we aim to catalyze innovation and foster collaboration in our collective mission to advance the understanding, diagnosis, and treatment of mental disorders. Join us as we unite to break down barriers, ignite change, and shape the future of mental wellness for generations to come.

London, UK

London, UK

London is the capital and largest city of England and the United Kingdom, with a population of just under 9 million. It stands on the River Thames in south-east England at the head of a 50-mile (80 km) estuary down to the North Sea, and has been a major settlement for two millennia. The City of London, its ancient core and financial centre, was founded by the Romans as Londinium and retains its medieval boundaries. The City of Westminster, to the west of the City of London, has for centuries hosted the national government and parliament. Since the 19th century, the name "London" has also referred to the metropolis around this core, historically split between the counties of Middlesex, Essex, Surrey, Kent, and Hertfordshire, which largely comprises Greater London, governed by the Greater London Authority.

As one of the world's major global cities, London exerts a strong influence on its arts, entertainment, fashion, commerce and finance, education, health care, media, science and technology, tourism, and transport and communications. Its GDP (€801.66 billion in 2017) makes it the largest urban economy in Europe, and it is one of the major financial centres in the world.
