About the conference

The 6th International Conference on Nursing, Midwifery, and Women's Health, scheduled for October 24-25, 2024, in Paris, France, is a premier event bringing together global healthcare professionals. This conference aims to foster advancements, share innovative practices, and discuss challenges in nursing, midwifery, and women's health. It provides a unique platform for practitioners, researchers, and educators to exchange knowledge, network, and explore collaborative opportunities. Through keynote speeches, workshops, and presentations, attendees will gain insights into the latest research and developments in these fields. Join us in Paris to contribute to shaping the future of women's healthcare on a global scale.

Nurses they play an integral role in the administration of antineoplastic agents and are responsible for safe drug handling; evaluation of laboratory data; calculation of drug dosages on the basis of body surface area; insertion of intravenous lines or accessing central venous devices; continuous and time intensive monitoring to address potential adverse reactions or drug interactions; and screening patients for inclusion in available research trials or protocols. In the Nursing & Midwifery arena, the nurses need to have an understanding of Nursing Care and Health Care. They are also responsible for extensive symptom management, patient education and the submission process for clinical trials or research protocols
