ABOUT TOKYO

Tokyo is often referred to as a city, but is officially known and governed as a “metropolitan prefecture”, which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The best place to visit in Tokyo is the Disney world sea and Tokyo has Metropolitan Government administers the 23 Special Wards of Tokyo (each governed as an individual city), which cover the area that was the city of Tokyo. Tokyo has numerous outlying islands, which extend as far as 1,850 km (1,150 mi) from central Tokyo. Because of the islands’ distance from the administrative headquarters of the Tokyo Metropolitan Government in Shinjuku, local sub prefectural branch offices administer them. Tokyo is the best place to visit especially in the month of September to October. If you are thinking of spending your holidays, then Tokyo is the place you must visit. In 2019 this beautiful city will be hosting the combo of World Congress on Crop Science Management and Harvesting.
