Nutritional Science 2018

November 26-27, 2018

Venue

Barcelona, Spain

Title: Physical Observation for Nutritional Deficiencies - Therapeutic Assessment of Sub-Clinical Symptoms and Organ Health

Keri Brown
Bastyr University
Seattle

Keri Brown Received her doctorate (ND) Degree in Naturopathic Medicine from Bastyr University in Seattle, WA in 1998 and has successfully integrated nutritional, emotional, and structural therapeutics into a unique health approach. She is a founding member of Sojourns Non-Profit Community Clinic in Vermont, owner of Tallas Heath in Colorado, author, speaker, and entrepreneur. She focuses on utilizing holistic health information, cutting edge techniques, and common sense to support and inspire transitions in health. For over 30 years.

Title: Evaluating The Bioactive Potential and Functional Properties of Eggshell Membrane Protein Hydrolysates

Surangna Jain
Mahidol University
Thailand

Surangna Jain has completed her PhD at the age of 27 years from Asian Institute of Technology, Thailand and currently doing her postdoctoral studies from Mahidol Univeristy, Thailand.

Title: Relation of Bone mass to Vitamin D Receptor Gene Polymorphism and Lifestyle Factors (nutrition and exercise) in Japanese Female College Students

Yoichi Tachi
Tokyo Kasei University
Japan

Yoichi Tachi has completed his PhD at the age of 30 years from University of Tsukuba in Japan. He is Associate Professor at Laboratory of Nutritional Physiology, Tokyo Kasei University. He has published more than 35 papers in reputed journals.

SPEAKER SLOTS AVAILABLE

Biography

Title: Sustainable Food Production in Greenhouses and its Relations to the Environment

Abdeen Mustafa Omer
Energy Research Institute
Egypt

Abdeen Mustafa Omer (BSc, MSc, PhD) is an Associate Researcher at Energy Research Institute (ERI). He obtained both his PhD degree in the Built Environment and Master of Philosophy degree in Renewable Energy Technologies from the University of Nottingham. He is qualified Mechanical Engineer with a proven track record within the water industry and renewable energy technologies. He has been graduated from University of El Menoufia, Egypt, BSc in Mechanical Engineering.

Title: Hyper cobalaminemia: What lies beneath

Abdou Deyab
Alexandria University
Egypt

Abdou Deyab is belongs to Egypt. He has his expertise in evaluation and passion in improving the health and wellbeing. He comes with over 12 years of experience in the practice and research work of general paediatrics and paediatric haematology oncology in Egypt, Kuwait and Oman. He held the position of specialist paediatrician.

Title: Assessment of energy and macronutrients intake of children attending kindergartens in Kosovo (full day program-8 hours)

Agim Rysha
University of Pejë
Kosovo

Agim Rysha has completed his PhD at Kassel University in Germany. Currently he works as a Ass.Prof., at the Department of Food Technology, Peja University, Kosovo. Agim does research in Food Technology and Nutrition Sciences. Their most recent publication is 'Dietary habits and food frequency intake of preschool children.

SPEAKER SLOTS AVAILABLE

Title: Dietary supplementation with low fat, low sugar fruit yogurt enriched with vitamins B facilitates body weight management and glycemic control in type 2 diabetic patients

Amalia Yanni
Harokopio University
Greece

Amalia Yanni has her expertise in health promoting effects of foods, nutrition and metabolism and research interest in the design of functional foods which can advance the quality of life of patients with metabolic diseases. For years she is organizing, supervising and participating in clinical studies in humans and studies in animal models which support the synergy and complementarity of food and nutrition with health and wellbeing of patients and apparently healthy individuals. Research studies include dietary interventions which investigate the effects of nutrients, bioactive compounds and functional foods on atherosclerosis, hypercholesterolemia and diabetes and administration in university and research centers.

Title: MILK AND DAIRY PRODUCT CONSUMPTION AND THE RISK OF DEVELOPING BLADDER CANCER

Anke Wesselius
Maastricht University
Netherlands

Anke Wesselius has a PhD in Genetic Epidemiology and a doctoral degree in Biomedical science with two majors: ‘Epidemiology’ and ‘Pathobiology’. Currently Anke is working as an assistant professor at the department of Complex Genetics at Maastricht University. Here, she leads the research line “Nutritional and Cancer Epidemiology”.

Title: The role of marine omega-3 in Autism Spectrum Disorders and Attention-Deficit/Hyperactivity Disorder - a review focused on mothers'

Bárbara Pinto Martins
University of Porto
Portugal

Bárbara Pinto Martins is now completing her master’s degree in Medicine at the Faculty of Medicine of the University of Porto. She is doing her Master's thesis in the area of Clinical Neurosciences and Mental Health, under the supervision of Professor Margarida Figueiredo-Braga, researcher associated with I3S - Institute of Research and Innovation in Health. This work was also supported by Dr. Narcisa Bandarra, researcher of the Department of Sea and Marine Resources in the Portuguese Institute for the Sea and Atmosphere (IPMA, IP.

SPEAKER SLOTS AVAILABLE

Title: A comparative study of oxidative stress, antioxidant status , Paroxonase enzyme activity and possible modulation in type 2 diabetes and obesity

Grace George
Walter Sisulu University
India

Grace George is a biochemist who obtained her PhD from Central Food Technological Research Institute, Mysore, one of the premier research institutions of CSIR (India). She is a professor of medical biochemistry in the Faculty of Health Sciences at Walter Sisulu University, Mthatha, South Africa. She has published over 40 papers in reputed journals and actively involved in postgraduate training.

Title: Maternal high-fat diet during gestation increases leptin receptor Expression in hippocampus and causes impairs spatial learning and memory in rat offspring.

Nadia Yanet Cortés-Alvarez
University of Colima
Mexico

NadiaYanet Cortés-Alvarez was completed master's in medical science and is currently studying the doctorate. She has investigated the effects of high fat-diet intake on different cognitive processes in addition to the influence of biomarkers. She is co-authored the chapter "How maternal high-fat diets during gestation affect the neurodevelopment of Offspring" in the book entitled Horizons in Neuroscience Research.

Title: A performance of ELISA and a quality of milk in Algeria

Ould Yerou Karima
University of Mascara
Algeria

Ould Yerou Karima working at Laboratory of Bioconversion; Microbiological engineering and safety, Faculty of Science Department of Biology; University of Mascara -Algeria Doctor in University de mascara.

SPEAKER SLOTS AVAILABLE

Title: Antioxidant and Reno protective profiles of catechin, quercetin and taxifolin in rotenone-administered rats

Akindahunsi Afolabi
The Federal University of Technology
Nigeria

Akindahunsi Afolabi Akindahunsi has completed his PhD at the age of 35 years from Obafemi Awolowo University, Ile Ife, Nigeria. He is Currently the Director of Advancement Center of The Federal University of Technology, Akure, Nigeria. He has published more than 50 papers in reputed journals and has been serving as an editorial board member of repute.

Title: Metabolic Parameters and Relationship with Physical Activity in Adult HIV Patients Receiving ART

Anderson Marliere Navarro
University of Sao Paulo
Brazil

Anderson Marliere Navarro is Nutritionist graduated from the Federal University of Viçosa - Professor of Nutrition and Metabolism at the Medical School of Ribeirão Preto; University of São Paulo since 2008. Currently works with energy metabolism, body composition and metabolism of micronutrients in health and various clinical conditions such as HIV lip dystrophy, bone metabolism, diabetes and adipose tissue.

Title: Prevalence of Metabolic Syndrome in Adult Men of the Dschang Health District in Western-Cameroon

Marc Bertrand Dandji Saah
University of Dschang
Dschang

Marc Bertrand Dandji Saah is professional in Biochemistry of physical activity, the field of metabolic diseases related to nutrition remains his field of study since his years of Master in Biochemistry at the University of Dschang. He has published more than 05 papers in reputed journals and has been serving as a member of Cameroon Forum of Biological Sciences. He has a proven expertise in biochemical techniques and epidemiology of no communicable diseases (overweight, obesity, diabetes, high blood pressure ...) which have been the subject of his recent research, particularly on the metabolic syndrome in the Dschang Health District, to inform, educate and train our people about lifestyle risks.

SPEAKER SLOTS AVAILABLE

Biography

Title: Controllable Preparation and Application of Squaraine Containing Nanometer Hybrids with Broad Band Absorption to Near Infrared by one step

Nahla Omer
Donghua University
China

Nahla Omer is Phd student in the field of Material Science and Engineering & State Key Laboratory for Modification of Chemical Fibers and Polymer Materials Researcher Assistant, Pharmaceutical Industries Section, Chemical Industries Department, Industrial Research and Consultancy Centre, Khartoum, Sudan.

Title: Cruciferous vegetables and palmitoylcarnitine, a pro-inflammatory mediator in prostate cancer

Ala'a Al-Bakheit
Al-Balqa Applied University
Jordan

Ala'a Al-Bakheit is Assistant Professor in Nutrition at the Department of Nutrition and Food Processing at Al-Balqa Applied University. She received her Bachelor's and Master degrees in Nutrition and Food Technology from University of Jordan in 2005 and 2007, respectively. She completed her PhD in Nutrition in 2014 from University of East Anglia, UK. Her research interests focus on cancer and nutrients effects on human health. She is member of the Agricultural Engineers Association and hold a professional certificate in Nutrition from the Ministry of Health in Jordan. She has published several peer-reviewed papers in reputed journals.

Title: Vitamin D_3 modulates polycystic ovary syndrome prognosis by improving anthropometric and body composition parameters of overweight Jordanian

Nahla Al-Bayyari
Al-Huson University
Jordan

Nahla Al-Bayyari is Assistant professor in human nutrition and dietetics at Al-Balqa Applied University, faculty of Al-Huson University college, department of Nutrition and Food Technology. Graduated from the University of Jordan with a Ph.D in human nutrition and dietetics and a Master in Public Health (Maternal and Child Health Care) and Bachelor degree in Public Health Nutrition from Jordan University of Science and Technology (JUST). After graduation from JUST she worked as a research assistant at JUST.

SPEAKER SLOTS AVAILABLE

Title: MILK YDRINK HYPOCHOLESTEROLEMIC WITH SPIRULINA AND A PROBIOTIC

Amel DOUMANDJI
University of Blida
Algeria

Amel Doumandji working as professor at Nature and Life Sciences, Agro -food Department, University of Blida, Algeria.

Title: STIMULATORY ABILITY OF ANIMAL MANURES AND CHEMICAL FERTILIZER ON THE LEVEL OF PHYTOCHEMICAL COMPOUNDS IN TOMATO FRUIT

Olawole Emmanuel
Sefako Makgatho Health Sciences University
South Africa

Olawole Emmanuel working as assistant professor at Sefako Makgatho Health Sciences University, Department of Biology South Africa.

Title: Short-term growth performance and toxicological evaluation of Neocarya macrophylla seed oil-based diets in albino rats

Ibironke A. Ajayi
University of Ibadan
Nigeria

Ibironke A. Ajayi obtained her Phd in Industrial Chemistry from University of Ibadan, Ibadan, Nigeria in 2002. She is presently a Senior Lecturer in the same university. She has published more than 60 papers in reputed journals and has been serving as reviewer of repute journals.

SPEAKER SLOTS AVAILABLE

Biography

Title: PROXIMATE AND FUNCTIONAL PROPERTIES OF STARCHES OBTAIINED FROM TWO CULTIVARS OF COCOYAM

AJAYI ADEBOLA
University of Ibadan
Nigeria

Adebola Ajayi, Food Technologist with focus on Food Eniginering. He had his undergraduate degree in Food Technology from the University of Ibadan, Ibadan in 1984 and master's in food technology in the same University in 1990. Over the years he has been engaged in meaningful research and teaching. He has conducted researches in Food Engineering with special interest in Food Dehydration, Rheology and Fluid Mechanics. He has mentored a good number of students both at the National and Higher National Diploma levels.

Title: EFFECT OF PRETREATMENT ON THE NUTRITIONAL VALUES AND FUNCTIONAL PROPERTIES OF TOMATO POWDER

Makajuola Olakunle Moses
School of Pure and Applied Sciences
Nigeria

Makanjuola, Olakunle Moses is a product of two most valuable systems of education I. e Polytechnic and University. He has Master's Degree (MSc) in Food Science & Technology form the Federal University of Technology, Akure Ondo State, Nigeria,He has over 25 years' experience as an academic staff at the Federal Polytechnic Ilaro, Ogun State. He is the Zonal Coordinator (Ogun Zone) of the Prestigious Nigerian Institute of Food Science and Technology (NIFST).
