About Dubai

Dubai is located on the Eastern coast of the Arabian Peninsula, in the south west corner of the Arabian Gulf. It is extremely well known for its warm hospitality and rich cultural heritage, and the Emirati people are welcoming and generous in their approach to visitors. With year-round sunshine, intriguing deserts, beautiful beaches, luxurious hotels and shopping malls, fascinating heritage attractions and a thriving business community, Dubai receives millions of leisure and business visitors each year from around the world. Dubai is a city in the United Arab Emirates, located within the emirate. It has the largest population in the UAE (2,262,000) and the secondlargest land territory by area (1,588.4 square miles) after Abu Dhabi. It is one of the few cities in the world that has undergone such a rapid transformation - from a humble beginning as a pearl diving centre - to one of the fastest growing cities on Earth. Dubai today is a tourism, trade and logistics hub and has earned itself the reputation of being the 'gateway between the east and the west'. It is also considered as the dynamic nucleus of the Arabian Gulf region.

Dubai is one of the leading tourist destinations in the world. Modern sky-scrapers, magnificent architectural buildings, luxurious hotels, and shopping malls invite a million of tourists to the city. Palm Islands, Jumeirah Beach, the Dragon Mart, Dubai Museum, Burj al Arab, and Burj Khalifa are some of the major attractions. The Burj Al Arab is a magnificent hotel built on an artificial island; it stands at a height of 280 meters. Dubai boasts of having the world's tallest building, the Burj Khalifa at a height of 829.84 meters.
