- Interactive Sessions
- Keynote/Plenary Lectures
- Workshops/Symposiums
- YRF/Best Poster Awards
- Exhibitors
- B2B Meetings

Program Outline			
Day-1	Registration		08:00-09:00
	Inaugural Session		09:00-09:15
	Keynote/ Plenary talks	Keynote/ Plenary talk: 1 **(Academia)**	09:15-09:45
		Keynote/ Plenary talk: 2 **(Industry)**	09:45-10:15
		Keynote/ Plenary talk: 3 **(Exhibitor/Sponsor slot)**	10:15-10:45
	Coffee break/ Networking		10:45-11:00
	Oral Presentations and Panel Discussions		11:00-13:00
	Lunch break/ Networking		13:00-14:00
	Sponsor/ Exhibitors presentations		14:00-14:30
	Oral Presentations and Panel Discussions		14:30-16:00
	Coffee break/ Networking		16:00-16:15
	Workshops/ YRF/ Posters/ Video Presentations		16:15-17:00
	Sponsor/ Exhibitors presentations		17:00-17:30
	Certificate Distribution & Day 1 conclusion Remarks		17:30-18:00

Program Outline			
Day-2	Registration		08:00-09:00
	Inaugural Session		09:00-09:15
	Keynote/ Plenary talks	Keynote/ Plenary talk: 1 **(Academia/Industry)**	09:15-09:45
		Keynote/ Plenary talk: 3 **(Exhibitor/Sponsor slot)**	09:45-10:15
	Workshops/ Symposium		10:15-10:45
	Coffee break/ Networking		10:45-11:00
	Oral Presentations and Panel Discussions		11:00-13:00
	Lunch break/ Networking		13:00-14:00
	Sponsor/ Exhibitors presentations		14:00-14:30
	Oral Presentations and Panel Discussions		14:30-16:00
	Coffee break/ Networking		16:00-16:15
	YRF/ Posters/ Video Presentations		16:15-17:00
	Certificate Distribution & Day 2 conclusion Remarks		17:00-17:15

Major Sessions

- Latest techniques and innovations in cataract surgery, including femtosecond laser cataract surgery and intraocular lens (IOL) advancements
- Current treatment options and future therapies for retinal conditions like diabetic retinopathy, age-related macular degeneration (AMD), and retinal vein occlusion.
- Advances in the diagnosis, management, and treatment of ocular cancers, including melanoma, retinoblastoma, and lymphoma.
- Addressing common pediatric eye conditions such as strabismus, amblyopia, and congenital cataracts, and exploring new approaches in pediatric eye care.
- Recent developments in glaucoma diagnosis, medical management, and surgical interventions, including minimally invasive glaucoma surgery (MIGS).
- Techniques and advancements in corneal transplantation, including DMEK, DSAEK, and innovations in corneal tissue engineering.
- Understanding dry eye disease, its pathophysiology, and the latest treatment options, including medical and surgical interventions.
- Updates on LASIK, SMILE, and other refractive surgeries, including future developments and patient selection criteria.
- Exploring the role of AI in ophthalmology, from diagnostic tools to surgical assistance and predictive models.
- Innovations in imaging technologies such as OCT, fundus photography, and retinal imaging, and their role in early disease detection.
- Discussion of new surgical techniques, technologies, and innovations in ophthalmic surgery, with an emphasis on minimally invasive approaches.
- Advances in the diagnosis and treatment of uveitis and other inflammatory eye conditions, including biologics and immunotherapy.
- Focusing on the roles of ophthalmic nurses, technicians, and allied health professionals in delivering comprehensive eye care.
- Recent developments in pharmacologic treatments for ocular diseases, including new drug delivery systems and targeted therapies.
- Exploring the link between the nervous system and the eyes, including diagnosis and management of conditions like optic neuritis and papilledema.
- Techniques and advances in oculoplastic surgery, including eyelid surgery, tear duct surgery, and aesthetic procedures around the eyes.
- Advances in genetic testing, gene therapy, and personalized treatment for inherited retinal diseases and other genetic conditions affecting the eyes
- Latest advances in OCT imaging and its expanding role in diagnosing and monitoring a variety of ocular diseases.
- Exploring the use of telemedicine for remote diagnosis, management, and patient follow-up in ophthalmology, especially in underserved areas.
- Updates on best practices for diagnosing and treating traumatic eye injuries, including surgical and non-surgical options
- New developments in contact lens technology, including therapeutic lenses for medical conditions and advancements in comfort and vision correction.
- Focus on conditions affecting aging populations, such as AMD, cataracts, and glaucoma, and the role of preventative care.
- Discussing the latest clinical trials in ophthalmology, ongoing studies, and emerging treatments on the horizon.
- Innovations in surgical approaches to improve vision in low-vision patients, including implantable devices and vision restoration techniques.
- Emphasizing the importance of patient engagement, shared decision-making, and patient education in ophthalmic practices.
- Addressing the disparities in eye care around the world and discussing strategies to improve access to care in underserved populations.
- Exploring the impact of diet and nutrition on ocular health, including the role of antioxidants, vitamins, and minerals in preventing eye disease.
- Innovations in bioengineering and tissue regeneration for the treatment of ocular diseases and eye injuries, including stem cell therapies.

Best Poster Award

•You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster

- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors
