Past Conference Glimpse

Ophthalmology Summit 2018 | Feb 26-27, 2018 | Berlin, Germany

With the unique feedbacks from our past conference, we would like to announce the commencement of the 28th International Conference on Insights in Ophthalmology during April 18-19, 2019 at Rome, Italy

Theme: Eye to the Future: Ophthalmology Compensation Trends
Ophthalmology, Optometry, Ophthalmology Surgery, Neuro-Ophthalmology, Pediatric Ophthalmology, Glaucoma, Retina and Retinal Disorders, Cornea Disorders and Treatment, Healthcare, Pathology, Radiology

The analysis of the conference evaluation forms shows that the event was very well received as a valuable and stimulating.

The majority of delegates who completed the conference evaluation forms rated the conference as a whole as “excellent” or “very good”.

The conference was initiated with the Honorable presence of the Keynote forum. The list includes:

Clifford D Brown, Central Alabama Veterans Health Care System, USA
Observations in a population with diffuse traumatic brain injury

Carl M Sheridan, University of Liverpool, United Kingdom
Stem cells and tissue engineering as emerging therapies in ophthalmology

Faaiq Hassan, University Hospital
Acanthamoeba keratitis: Does the increased incidence in a regional eye unit reflect a national trend?

David W Li, Sun Yat-sen University, China
The tumor suppressor p53 plays an essential role in mediating lens differentiation and heterochromatin protection of RPE cells

Shlomo Dotan, Hadassah-Hebrew University Medical Center, Israel
Neuro-ophthalmologic diagnoses you do not want to miss

Sponsorship and Exposure

Albert Jeltsch, University of Stuttgart, Germany
Setting of DNA methylation – biological and technical approaches

All the presentations were rated “excellent” by the majority, some attracted comments such as “great keynote”– really interesting and fascinating speaker”

The choice of venue was also very popular with the delegates: the majority rated the convenience of the location, its comfort and facilities and the catering as “excellent”

Of course, an enormous amount of effort goes into planning a conference such as this, and we owe thanks to all involved. First we are very grateful to the conference Exhibitor Sponsors **Promega, Porvair Sciences Limited** and **Diagenode**

A special vote thanks is due to our speakers, moderators, chairs, student rapporteurs, for their contributions on the day, as well as the hard work devoted to preparing for their roles.

Discover the Ophthalmology innovations of the future. Learn, collaborate and be inspired.

Glance at the Market

The global ophthalmic therapeutics/drugs market is expected to reach USD 35.7 billion by 2025, according to a new report by Grand View Research, Inc. Increase in funding by public and private bodies for conducting research on ocular disorders with the presence of strong emerging pipeline drugs are some of the factors responsible for the growth of ophthalmic therapeutics market. For instance, the recent approval of Zerviate (cetirizine) for the treatment of allergic conjunctivitis in 2017 and Humira (adalimumab) and Xiidra (lifitegrast) in 2016 as ophthalmic solutions for the treatment of uveitis and dry eyes are expected to boost the market growth

• Antiallergy is the largest segment owing to the increasing incidence of ocular infections, high prescription rate of antiallergy agents, and presence of a wide product portfolio

• Retinal disorders segment dominated the market in 2016 due to increasing prevalence of age-related macular degenerations and diabetic retinopathy, its subtypes

• The eye drops segment is anticipated to dominate the market in 2016. It is considered as the most preferred dosage form due to associated benefits such as easy assimilation, target-specific action, and faster recovery
