Dear Attendees,

We are glad to announce the **"6th International Conference on Synthetic Organic Chemistry"** to be held in **Vancouver, Canada** during **October 16-17, 2023** organized by Conference Series llc LTD, Europe in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. Organic Chemistry 2023 is centered with the theme "Recent Discoveries and Future Challenges in the World of Organic Chemistry".

Organic Chemistry 2023 is welcoming all the Speakers and Delegates from every corner of the World to join us at Synthetic Organic Chemistry 2023. Organic Chemistry 2023 is going to offer scientific talks by Keynote Speakers, Oral talks, Symposiums, Poster Presentation, Exhibitions and many more.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions and livelier interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the **Organic Chemistry 2023** to network with your peers, exchange expertise and experiences and arm yourself with the latest information to take your field to the next level.

We look forward to personally welcoming you to Canada, this October.

Sincerely
Organic Chemistry 2023
Organizing Committee

About Us

About Conference

Organic Chemistry 2023 Conference will offer an International platform where Scholars and experts belonging to the Synthetic Organic Chemistry Background and working in that field can showcase their scientific work, research based on the following topics such as new compounds and its structures, bonding, reactivity in field of chemistry and in organometallic chemistry, organic chemical science, biogeochemistry, marine chemical science, petroleum chemical science, bioorganic and medicinal chemistry, advancements in the fields of modern experimental chemistry, modern analytical chemistry, modern theoretical chemistry, combinatorial chemistry, flow chemistry, microwave chemistry, green chemistry, spectroscopy, new synthetic ways and advances in catalysis

Organic Chemistry 2023 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Special Issues : All accepted abstracts will be published inrespective Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref

B2B Meetings

Goals

- The Euro Organic Chemistry 2023 aims to bring together leading world's scientific experts, academic professionals, scientists, specialists, researchers, scholars, business delegates and students to exchange and share their experiences and research results on all aspects of Organic and Medicinal Chemistry.
- It also provides an interdisciplinary platform for policy makers, community leaders, business activists, scientists and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of

Objectives

- We aim to bring the research and innovations happening across the parts of the globe to facilitate interaction, knowledge sharing and exchange. We also aim to inspire university professors, students, researchers, clinicians and entrepreneurs

Who Should Attend?

Organic Chemistry 2023 Conference website is attracting 56000+ physicians, public health experts, Pharmacists , Bio instruments Professionals, Bioinformatics Professionals, Supply Chain companies, Manufacturing Companies, CRO and DATA management Companies, Business Entrepreneurs, Investment Analysts, R&D Researchers from Pharma Industries, Chief Scientific Officers, PhD Scholars, professionals, speakers, professors, business delegates and students

About Conference

About hosting organization

Conference Series llc LTD is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Organic Chemistry
- Bioorganic Chemistry
- Organic Synthesis and Chemical Bonding
- Inorganic and Bioinorganic Chemistry
- Medicinal Chemistry
- Industrial Chemistry
- Pharmaceutical Chemistry
- Organic Photochemistry
- Fluorescent Molecules and Dyes
- Natural Products and Heterocyclic Chemistry
- Analytical Techniques in Organic Chemistry
- Organometallic Polymers
- Biochemical Interactions
- Biochemistry and Agricultural Chemistry
- Green and Environmental Chemistry
- Stereochemistry
- Catalysis of Organic Compounds
- Electro Organic Chemistry
- Structure and Reactivity of Organic Compounds

12+
Interactive Sessions

5+
Keynote Lectures

50+
Plenary Lectures

About Vancouver

In the Lower Mainland of British Columbia, Vancouver is a significant city in western Canada. The city has 662,248 residents according to the 2021 Canadian census, an increase from 631,486 in 2016. It was the province's most populous city. The Greater Vancouver region was the third-largest metropolitan area in Canada in 2021 with a population of 2.6 million. The Lower Mainland, which includes Greater Vancouver and the Fraser Valley, has a population of more than 3 million people. With more than 5,700 inhabitants per square kilometre, Vancouver has the fourth-highest population density in North America and the highest in Canada.

One of the most linguistically and ethnically diverse cities in Canada is Vancouver, where 54.5 percent of citizens identify as members of visible minorities and 49.3 percent of residents do not use English as a first language. It consistently ranks as one among the world's and Canada's most livable cities. Vancouver is one of the most expensive cities in both Canada and the globe in terms of housing affordability. Vancouver wants to become the world's greenest city. Vancouverism is the city's approach to urban design and development.
