About the conference

With the grand success of Organic Farming Series of Conferences in UK, USA and Canada in consecutive years over the last several years which met with great achievement in Business Conferencing. It's glad to announce 3rd International Conference on Agroecology and Organic farming (Organic Farming-2024) during October 29-30, 2024 Montreal, Canada with the theme "Agroecology Role in Mitigating and Adapting to Climate Change in Agriculture". 3rd International Conference on Agroecology and Organic farming emphasizes on how importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence agricultural sectors.

Theme: "Agroecology Role in Mitigating and Adapting to Climate Change in Agriculture".

Why to attend the conference

Organic Farming 2025 is a unique platform to explore the latest research and innovations in sustainable agriculture, integrated agribusiness, crop advancements, soil and plant sciences, and organic farming practices. Engage with global experts, share knowledge, and network with professionals passionate about eco-friendly farming. This event offers a valuable opportunity to learn, adopt new strategies, and enhance career opportunities within agriculture and environmental education.
