7th International Conference and Exhibition on

Pain Research and Management

October 11-12, 2018 Zurich, Switzerland

Program at A Glance

Day 1

Morning Sessions	Reception/Registration	08.00-09.00	
		Time	General Session
	Least of 3 Keynote/Plenary Talks	09.00-09.15	Inaugural Address
		09.15-09.45	Keynote/Plenary Talk 1
		09.45-10.15	Keynote/Plenary Talk 2
		10.15-10.45	Keynote/Plenary Talk 3
	Panel Discussions/Group Photo		
	Coffee/Tea Break 10.45-11.00 (Networking)		
	11.00-12.40	5 Speakers (20 Mins Each)	
Evening Sessions	Lunch Break 12.40-13.30		
	13.30-15.30	6 Speakers (20 Mins Each)	
	Coffee/Tea Break 15.30-15.45 (Networking)		

Day 2

Morning Sessions	Time	Session 1	Session 2
	09.00-10.40	5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)
	Coffee/Tea Break 10.40-10.55 (Networking)		
	10.55-12.35	5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)
Evening Sessions	Lunch Break 12.35-13.25		
	13.25-15.05	5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)
	Poster Sessions		
	Coffee/Tea Break 15.05-15.20 (Networking)		
	15.20-17.00	5 Speakers (20 Mins Each)	5 Speakers (20 Mins Each)
	Awards & Closing Ceremony

PROVISIONAL PROGRAM

Tentative Speakers

Title: Evaluating chronic pain patients using methods from Johns Hopkins Hospital Physicians

Nelson Hendler, Johns Hopkins University School of Medicine, USA

Biography: Nelson Hendler, MD, MS graduated cum laude from Princeton University, where he also play varsity lacrosse. He has an MD and MS in neurophysiology from University of Maryland School of Medicine. He did his residency in psychiatry at Johns Hopkins Hospital and remained on the faculty at the medical school for 31 years.

Title: Opioid free goldilocks anesthesia… stopping pain before it begins

Barry L. Friedberg, Goldilocks Anesthesia Foundation, USA

Biography: Barry Friedberg, M.D., board certified anesthesiologist, was recently recognized as a 2017 Leading Physician of the World. In 1997, Friedberg began using the brain monitor. He was the first Orange County, CA, anesthesiologist to routinely measure propofol effect on the brain. The BIS number generated from the patients' foreheads allow them to control their anesthetic dose so neither too much, nor too little drug can be given, hence the term Goldilocks anesthesia.

Title: Paraneuraxial nerve blocks: Can they replace neuraxial nerve blocks?

Jeff L. Xu, Westchester Medical Center/New York Medical College, USA

Biography: Jeff L. Xu, MD, chief of Regional Anesthesia & Acute Pain Management, Program Director of Regional Anesthesia & Acute Pain Medicine Fellowship. As the founder of the Regional Anesthesia & Acute Pain Services at Westchester Medical Center, he initiated and developed the regional anesthesia program for the anesthesia residents. He also is the founder of the fellowship program for Regional Anesthesiology & Acute Pain Medicine at Westchester Medical Center/New York medical College, New York, USA, and served as fellowship program director.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Pain management clinic: Non-pharmacological strategies in helping those with chronic pain

Mimi My Tse, Hong Kong Academy of Nursing, Hong Kong

Biography: Mimi Tse has her expertise in pain management and improving the health and wellbeing, for older people in particular. She is a Fellow in Hong Kong Academy of Nursing in the specialty of education and research and a reviewer of international peer-reviewed journals. She has numerous publications in the field of elderly care, pain management, nutrition and health.

Title: Pain and its impact on functional performance among older adults residing in nursing homes – Findings from a longitudinal trial

Dagmar Dräger, University medical Center of Berlin, Germany

Biography: Dagmar Dragar has her expertise in interdisciplinary health service research. She has experience in managing studies with multimorbid study populations, e.g. nursing home resident

Title: Understanding the mechanism of injury: A means to provide better direction for proper diagnoses in motor vehicle collisions

Bill Gallagher, American Academy of Motor Vehicle Injuries, USA

Biography: Bill Gallagher has practiced chiropractic in Arizona and California for the past 30 years. As someone who is five and several motor vehicle collisions this is an area of particular concern to him. In order to learn and teach about motor vehicle injuries he created the American Academy of motor vehicle injuries.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Pain and its impact on functional performance among older adults residing in nursing homes – Findings from a longitudinal trial

Andrea Budnick, University Medical Center of Berlin, Germany

Biography: Andrea Budnick has her expertise in interdisciplinary health service research. She has experience in managing studies with multimorbid study populations, e.g. nursing home residents. Moreover, my interests are novel care models, interdisciplinary research using mixed-method designs aimed at gathering the benefits of natural and social sciences.

Title: Clinical Assessment of Patients with Orofacial Pain

Dr. Jimmy Kayastha, Dental Health Solutions, Inc., USA

Biography: Jimmy Kayastha, is a Consultant in Oral and Maxillofacial Medicine and Surgery at Dental Health Solutions Inc., San Francisco, California. He served as the Director for Advanced Education in General Dentistry Residency program at the Marshfield Clinic, Wisconsin. He was appointed Adjunct Clinical Faculty at Case Western Reserve University and Miami Valley Hospital, Ohio. He earned his doctorate from Nova Southeastern University, Florida. He completed his General Practice Residency at Miami Valley Hospital and Oral Medicine Residency at Carolinas Medical Center.

Title: Pain and its impact on functional performance among older adults residing in nursing homes – Findings from a longitudinal trial

Andrea Budnick, University Medical Center of Berlin, Germany

Biography: Andrea Budnick has her expertise in interdisciplinary health service research. She has experience in managing studies with multimorbid study populations, e.g. nursing home residents. Moreover, my interests are novel care models, interdisciplinary research using mixed-method designs aimed at gathering the benefits of natural and social sciences, and adaptation of assessment-instruments for older adults.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Pharmacologically Controlling Pain Without Opioids

Nelson Hendler, Johns Hopkins University School of Medicine, USA

Biography: Nelson Hendler, MD, MS graduated cum laude from Princeton University, where he also play varsity lacrosse. He has an MD and MS in neurophysiology from University of Maryland School of Medicine. He did his residency in psychiatry at Johns Hopkins Hospital, and remained on the faculty at the medical school for 31 years. He has published 4 books, 33 medical text book chapter, and 65 articles.

Title: Systematic review: The quality of life in kidney transplantation

Dalamagka Maria, General Hospital of Larissa, Greece

Biography: Dalamagka Maria works in Anaesthesiology Department, General Hospital of Larissa, Larissa, Greece.

Title: Bi- or multifunctional opioid analgesics

Peter W. Schiller, Université de Montréal, Canada

Biography: Peter W. Scihiller is a medicinal chemist and pharmacologist. He is a research professor in the Department of Pharmacology and Physiology of the University of Montreal and at the Montreal Clinical Research Institute (Canadian Pacific Chair in Pain Research). His research in the opioid field resulted in the discovery of highly receptor-specific agonists and antagonists and of opioids with novel bi-or multifunctional activity profiles. Some of his compounds are widely used as pharmacological tools or are being pursued as analgesic drug candidates.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Approaches to treatment of pain without the toxicities of current treatments

Victor J. Hruby, University of Arizona, USA

Biography: Professor Victor J. Hruby is Regents Professor in the Department of Chemistry and Biochemistry, University of Arizona. His major research interests are in the chemistry and biology of peptide hormones and neurotransmitters and their receptors. He has made contributions to three-dimensional design considerations, asymmetric synthesis, conformational analysis, combinatorial chemistry, biophysics, biochemistry, molecular pharmacology, mechanism of action of bioactive peptides, drug development of peptides and peptidomimetic ligands. He collaborates extensively with chemists and biologists world-wide and has received numerous awards for his scientific work.

Title: Conventional (simplicity III) and cooled (sInergy) radiofrequency for sacroiliac joint denervation: One-year retrospective study comparing two devices

Andrea Tinnirello, Intensive care and Pain Management, ASST Franciacorta, Italy

Biography: Andrea Tinnirello works in Department of Anesthesiology,Intensive care and Pain Management ASST Franciacorta, Chiari (BS), Italy

Title: Use of a spinal cord stimulation lead for electromagnetic spectral analysis in 6 radiculopathy suffering patients versus control

Damien Haton-Pietrin, Neuromodulation Fundamental Physics Laboratory, France

Biography: Damien Haton-Pietrin is experienced Pain Physician, Mathematician and Physicist. He worked at Interventional Pain Center near Paris before he began a new career as biophysicist of the central nervous system working especially on the spinal cord diseases.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Peripheral nerve trauma in the pig, A model for neuropathic pain: Evaluation of the evoked and spontaneous pain

Sigal Meilin, Bioscieneces, Israel

Biography: Sigal Meilin's work over 20 years has been focused on the understanding of neuro-degeneration and pain processes. Her research focus has been on exploring and creating models of pain including translational models in pigs which closely mimic and forecast drug activity in humans. The MD Biosciences Innovalora laboratories, under the scientific leadership of Sigal Meilin, have become leaders in the discovery and validation of novel pathways and new candidate drugs.

Title: Chronic pain and comorbidity: How to increase the sexual excitation in spinal cord stimulation relief patients over 40 years old?

Damien Haton-Pietrin, Neuromodulation Fundamental Physics Laboratory, France

Biography: Damien HATON-PIETRIN is Experienced Pain Physician, Mathematician and Physicist. He worked at Interventional Pain Center near Paris before he began a new career as biophysicist of the central nervous system working especially on the spinal cord diseases.

Title: Complex Regional Pain Syndrome (CRPS): Rehabilitation and interdisciplinary treatment– seen from a rehabilitation based therapy approach

Lene Moller Schear Mikkelsen, National University Hospital, Copenhagen, Denmark

Biography: Lene Moller Schear Mikkelsen, National University Hospital, Copenhagen, Denmark

PROVISIONAL PROGRAM

Tentative Speakers

Title: Improving pain management knowledge

Lucia Amendano, Chamberlain College of Nursing, USA

Biography: Lucia Amendano is a Nurse Practitioner with 14 years of Emergency Department, Occupational Health, Telephone Triage, and Management experience. She earned a Bachelor's in Nursing from SUNY New Paltz and a Masters in Nursing from Pace University. Her certifications include Board Certified Family Nurse Practitioner, Board Certified Emergency Nurse, Advanced Cardiac Life Support, Basic Cardiac Life Support, Pediatric Advanced Life Support, Advance Trauma Life Support, and Advanced Burn Life Support.

Title: How to deal with patients addicted to pain-relieving opioids

Fred Nyberg, Uppsala University, Sweden

Biography: Fred Nyberg is Professor in Biological Research on Drug Addiction at the Department of Pharmaceutical Biosciences Uppsala University. Since 2011 he has been Head and Coordinator of Uppsala University Center for Interdisciplinary Research on Drug Addiction (U-FOLD). During 2002-2007 he was employed part time by the Swedish Government as Head of Research Issues at The National Drug Policy Coordinator and in 2008 he joined the Advisory Board at The ANDT unit at The Social Ministry dealing with questions relating to drugs and drug addiction.

Title: The role of vestibular information beyond control of posture

Sayyed Hamed Fazeli, Iran University of Medical Sciences, Iran

Biography: Sayyed Hamed Fazeli studied Physiotherapy (BSc) in semnan university of medical sciences and MSc at Iran University of Medical Sciences and graduated in 2011. He currently is Ph.D candidate of Physiotherapy (IUMS) and works on chronic neck pain.

PROVISIONAL PROGRAM

Tentative Speakers

Title: The integrative model of adjustment to chronic conditions; Towards clinical testing and impact in chronic pain

Lis D. Hammond, Teesside University, UK

Biography: Lis Hammond is a Counselling Psychologist specialising in psychosocial adjustment to chronic conditions. She gained years of clinical experience in brain injury rehabilitation and pain management before going into academia with the aim of focusing on adjustment research. She is currently the appointed representative of the British Psychological Society on the NHS England Clinical Reference Board for Specialized Pain.

Title: Efficacy of repetitive transcranial magnetic stimulation for the treatment of fibromyalgia

Nilson N. Mendes Neto, University of California, Brazil

Biography: Nilson N. Mendes Neto, MD, Extension Center, University of California, Davis, Davis, CA; Family Medicine, HUOL, Natal - RN, Brazil; Pain Modulation, Centro Clinico da Dor Natal - RN Brazil.

Title: A critically ill child with respiratory failure: How can we manage the pain and anxiety pre and post intubation

Nasser A. A. Haidar, Pediatric Critical Care and Pediatric Emergency Medicine, Qatar

Biography: Nasser A. A. Haidar, Sr. Consultant Pediatric Critical Care and Pediatric Emergency Medicine, HMC, Doha, Qatar, Assoc. Prof. Of Pediatrics, UST, Sanaa, Yemen

PROVISIONAL PROGRAM

Tentative Speakers

Title: Effects of warmed carrier fluid on nefopam injection-induced pain

Hyung Rae Cho, Myongji hospital, South Korea

Biography: Hyung Rae Cho is an expert in pain management. He served as a military anesthesiologist for three years in South Korea, the last division on the planet. He has been a professor of medical school and now he is engaged in education, research and clinical care at myongji hospital in South Korea.

Title: Empatho-Technique for Patients with Phantom Limb Pain

Vera A. Ishinova, Federal Scientific Center of Rehabilitation of the Disables, Russian Federation

Biography: Vera A. Ishinova, Ph.D., is a medical psychologist at the Federal Research Center for Rehabilitation of the Disables. Her educational background comprises three complementary research areas: medicine (Medical School, St. Petersburg), physiology (State University, Kalinin), and psychology (Institute of Psychoanalysis, St. Petersburg). Dr. Ishinova has had an expertise in investigation and cure of chronic pain of various origin.

Title: Phantom limb pain: The human biofield and the role of psychological trauma

Eric Leskowitz, Harvard Medical School, USA

Biography: Eric Leskowitz MD was a consultant psychiatrist to the Pain Management Program at Spaulding Rehabilitation Hospital in Boston for over 25 years, and was also the Director of the hospital's Integrative Medicine Task Force. A board-certified psychiatrist, he held an appointment with the Department of Psychiatry at Harvard Medical School for over 20 years. He has studied energy healing, meditation and hypnosis for almost 40 years, and has written widely and presented workshops internationally on the integration of subtle energy techniques with the allopathic medical model.

PROVISIONAL PROGRAM

Tentative Speakers

Title: CBD oil for future prospect of pain management

Elizabeth Clamon, Naturopath, USA

Biography: Elizabeth who is living proof that natural healing works, is a Naturopath. She earned her Bachelors' Degree in Holistic Nutrition and a Masters' Degree in Naturopathic Medicine from Clayton College of Health. She also studied psychology at Louisiana Baptist University. She is a business owner, professional speaker, health and wellness coach, and consultant who works with client's to heal physically, emotionally, and spiritually. She brings a unique perspective to audiences by not only sharing her twenty-two years of experience in the health and wellness field, but also her experience as a chronic pain patient, and survivor of childhood trauma.

Title: Mirror therapy in neuropathic pain and disability treatment in patients with complex regional pain syndrome developed after the distal radius fractures

Viktor Kotiuk, Institute of Traumatology and Orthopedics of the Academy of Medical Sciences of Ukraine, Ukraine

Biography: Viktor Kotiuk, MD, PhD, Institute of Traumatology and Orthopedics of the Academy of Medical Sciences of Ukraine

Title: Ten development tendencies and trategies of TCM & acupuncture in the 21st century

Bin Jiang Wu, Ontario College of Traditional Chinese Medicine, Canada

Biography: President, Ontario College of Traditional Chinese Medicine(Canada); Vice President, World Federation of Chinese Medicine Societies (WFCMS); Vice President, The World Federation of Acupuncture and Moxibustion Societies (WFAS)

PROVISIONAL PROGRAM

Tentative Speakers

Title: Does intra-articular PRP injection improve function, pain and quality of life in patients with OA of knee –Study of 50 patients

Manjiri Ranade, Pain Clinic of India, India

Biography: Manjiri Ranade is an Interventional Pain Consultant practicing Pain Medicine & Interventions and a part of Pain Clinic of India, Mumbai since 2010. She has been a faculty in several national and international Pain Conferences organized under ISSP recognition. As a part of Pain Clinic of India, she has been a part of organizing committee for annual CIPM events and conducted several workshops on interventional techniques in Pain Management. In March 2018 she delivered a lecture on the same topic at 3rd International Pain Conference held at Aswan, Egypt.

Title: The complete breast block, an approach to prevent the postmastectomy chronic pain progression

Juan Bernardo Schuitemaker R., Hospital Universitari General de Catalunya, Spain

Biography: Juan Bernardo Schuitemaker is a passionate anesthesiologist with special interest in regional anesthesia. Have experience also in obstetric anesthesia. Mostly work with interfascial blocks, with special interest in chest blocks.

Title: Assessment of analgesic activity of nelumbo nucifera fruit

Muhammad Ali Rajput, Multan Medical & Dental College, Pakistan

Biography: Muhammad Ali is the youngest PhD (Pharmacology) degree holder medical doctor in Pakistan and also a certified academician (Master Trainer) of HEC, Pakistan. He is well oriented with scientific writing and has so far published 8 articles in Journals of International repute. Many are under peer review process. He has a teaching experience of more than10 years and currently serving in Multan Medical & Dental College as Associate Professor in the department of Pharmacology.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Abdominal acupuncture: Instant painless way to kill pain cause by tissue injury

Chan Miu Ha, The Hong Kong Polytechnic University, Hong Kong

Biography: Miu Ha Chan is a Registered Chinese Medicine Practitioner working in University Health Service of The Hong Kong Polytechnic University. Her specialty in Acupuncture and TCM Gynecology. She is good at using acupuncture to treat acute and chronic pain caused by muscular skeletal injuries and neuralgia, children developmental retardation.

Title: Opioid therapy for chronic non-cancer pain: Barriers in Egypt

Maher Fawzy, Cairo University, Egypt

Biography: Maher Fawzy, MD Head of Pain Unit, Cairo University, Ex-Head of Department of Anesthesia, ICU and Pain Management, Faculty of Medicine, Cairo University, Secretary General of Egyptian Society for Management of Pain, Secretary General of Egyptian Society of Regional Anesthesia and Pain Medicine.

Title: Knowledge and attitudes of pediatric nurses regarding pain management in Palestinian hospitals in West Bank

Ahmad Bajjali, Al Quds University, Palestine

Biography: Bajjali recently has submitted a research paper for his MSc in pediatric nursing from Al Quds University School of nursing. He had 3 years' experience in pediatric field, currently he works as registered nurse at pediatric cardiac surgery ICU at Al Makassed Hospital in Jerusalem. He is interested in research field and this is first study that will be published.

PROVISIONAL PROGRAM

Tentative Speakers

Title: The computerization of pain management in line with pain scoring system.

Rahali Lawali, Usmanu Danfodiyo University Teaching Hospital, Sokoto

Biography: Rahali Lawali, Usmanu Danfodiyo University Teaching Hospital, Sokoto.

Title: A multi-parameter approach for objective measurement of pain

Kuldeep Singh Rajput, Biofourmis Singapore Pte Ltd, Singapore

Biography: Kuldeep Singh Rajput, Biofourmis Singapore Pte Ltd, Singapore.

Title: Chronic musculoskeletal pain: Connecting the dots

Suparna Damany, Damany Center for Chronic Pain, USA

Biography: Suparna Damany, Damany Center for Chronic Pain, USA.

PROVISIONAL PROGRAM

Tentative Speakers

Title: Omega-3 fatty acids: A novel approach for pain treatment

Carlos H Laino, Biotechnology Institute, National University of La Rioja, Argentina

Biography: Carlos Laino is currently leading a project to discover and develop novel therapeutic strategies to treat of pain. In collaboration with CEQUINOR (Centre for Inorganic Chemistry- CONICET, National University of La Plata, Argentina).This position implies the design and synthesis of chemical libraries and planning of biological and physico-chemical assays.

Title: Comparison of clinical effectiveness of laser acupuncture and amitriptyline in diabetic peripheral neuropathy (DPN): a sham controlled randomized clinical trial.

Dr. Shahzad Anwar, Director, Anwar Shahs Trust for CP and Paralysis, Pakistan

Biography: Shahzad is medical doctor also trained in acupuncture, low level laser therapy and prolotherapy. He is working as family physician since 1999. His areas of expertise include neuro-developmental disorders especially Cerebral Palsy (CP), and pain management. He combines his medical background with his experience as complementary and alternative medicine practitioner.

Keynote Forum

Introduction

Tinnitus: A pain syndrome in search for good therapy

Henk M Koning, Pain Clinic De Bilt, The Netherlands

Multidisciplinary approach in management of fibromyalgia

Agaezi Sonya, Sonya Health Mart & Chiropractic Inc, USA

Group Photo

Networking and Refreshments Break

Sessions: Interventional Pain Management | Pain Medication and Primary Care | Pharmacological Approaches for Pain | Pain Assessment Tools

Session Chair: Feng Tao, Texas A&M University, USA

Session Co-chair: Marie N Hanna, Johns Hopkins University, USA

Session Introduction

Title: Mechanisms underlying alcohol withdrawal-induced pain chronification after surgery

Feng Tao, Texas A&M University, USA

Title: Effect of depth of neuromuscular block on intraoperative surgical conditions and pain in morbidly obese patients undergoing laparoscopic bariatric surgery: A double blind randomized controlled trial

Bart Torensma, Leiden University Medical Center, Netherlands

Title: Reboot Online is an online multidisciplinary pain management program effective in chronic pain - A randomised control trial

Steven Faux, St. Vincent's Hospital, Australia

Title: COX2/PGE2/EP4 signaling is involved in repeated restraint stress predisposed transition from acute to chronic pain

Weiya Ma, Douglas Mental Health University Institute, Canada

Lunch Break

Title: Complex regional pain syndrome in children and adolescents

Ludmyla Kachko, Schneider Children's Medical Center, Israel

Title: A novel multidisciplinary perioperative pain medicine program: Redefining the scope of the acute pain service to minimize perioperative opioid utilization

Marie N Hanna, Johns Hopkins University, USA

Title: Effectiveness of Kinesio taping to reduce swelling in acute medial ankle sprain

Sajid Rashid, Multan College of Physiotherapy, Pakistan

Networking and Refreshments Break

Title: Pain analysis in musicians using digital pain drawings

Cinzia Cruder, University of Applied Sciences and Arts of Southern Switzerland, Switzerland

Video Presentations

Title: Chronic post-thoracotomy pain (CPTP): Do current analgesic techniques affect outcomes?

Fang Gao, University of Birmingham, UK

Title: Spine Center - An evolving paradigm in comprehensive treatment of spinally mediated pain

Hazmer Cassim, Eisenhower Medical Center, USA

Panel Discussion

Day 2 October 06, 2017

Johnson

Keynote Forum

Pain sensitivity and pain scoring in patients with severe obesity

Bart Torensma, Leiden University Medical Center, Netherlands

Sessions: Non Pharmacological Approaches for Pain | Pain Management Nursing | Chronic Pain Syndrome | Neuropathic Pain & Neuro Orthopedics

Session Chair: Agaezi Sonya, Sonya Health Mart & Chiropractic Inc, USA

Session Introduction

Title: Trigeminal neuralgia: Radiofrequency treatment, glycerol rhyzolysis or surgery?

Henk M Koning, Pain Clinic De Bilt, The Netherlands

Networking and Refreshments Break

Title: Does acupuncture alter pain-related functional connectivity of the central nervous system? A systematic review

María Villarreal Santiago, Centre for Health, Activity and Rehabilitation Research-University of Otago, New Zealand

Title: Modulation of heat pain threshold during virtual body ownership

Matteo Martini, University of East London, UK

Title: Chronic post-surgical pain (CPSP) in patients with no pre-surgery pain or pain history

Bell Almog, Kaplan Medical Center, Israel

Title: A case study: Management of fibromyalgia with manual therapy and exercise therapy

Agaezi Sonya, Sonya Health Mart & Chiropractic Inc, USA

Lunch Break

Title: A multidisciplinary approach in managing lower limb diabetic foot ulcerations

Bahle Nteleki, University of Johannesburg, South Africa

Title: Immediate effect of energy alignment and mantra on stress related pain in adolescents: Stomach aches, musculoskeletal pains and headaches

Naveen Meghwal, NMP Medical Research Institute, India

Title: Acupuncture and topiramate in treatment of migraine

Lazgeen Zerki, Rapareen Teaching Hospital, Iraq

Networking and Refreshments Break

Video Presentation

Title: Antinociceptive activity of ethnomedicinal plant *Hydrocotyle javanica*

Krithika N, Quaid-e-Millath Government College for Women, India

Introduction

Title: An approach to diagnosis and treatment of mild traumatic brain injury

Joseph P. Leahy, Chiropractic Health & Sports Enhancement, USA

Title: Invasive and non-invasive radiofrequency for the treatment of chronic pain

Ernesto Delgado Cidranes, Advanced Pain Management Center, Spain

Panel Discussion

Group Photo, Networking & Refreshment Break

Title: Advances in photobiomodulation therapy – A new paradigm in pain management

Richard K Williams, LightMD & Applied BioPhotonics, USA

Sessions: Pain Management and Rehabilitation | NSAIDs & Analgesics | Physical and Physiological Approaches in Pain Medicine | Anesthesia as Pain Drug | Pain Syndrome | Pharmacological Approaches for Pain | Pain Management Specialist | Chronic Pain and Prevention | Pain Medications | Orofacial Pain

Session Chair: Ernesto Delgado Cidranes, Advanced Pain Management Center, Spain

Session Co-chair: Rachel G. Huveldt, EMR Consulting Solutions, USA

Session Introduction

Title: The effects of radial extracorporeal shockwave therapy and dry needling on the pressure pain threshold of latent trigger points in the quadriceps

Richie Walsh, Institute of Technology, Ireland

Title: Novel approach: Ultrasound 3D/4D-guided procedures in interventional pain management

Ernesto Delgado Cidranes, Advanced Pain Management Center, Spain

Title: Probing the mechanism of sciatica pain with novel imaging approaches

Yi Zhang, Harvard Medical School, USA

Panel Discussion

Lunch Break

Title: How to report statistics in medicine

Michelle Secic, Secic Statistical Consulting, Inc., USA

Title: Applications on graded motor imagery

Lincoln Nguyen, Karuna Labs Inc, USA

Title: The effectiveness of using Hynposis Combined Therapy (HCT) for the treatment of chronic pain (CRPS, fibromyalgia, neuropathic pain, etc.)

Traci Patterson, Advanced Pathways Hypnosis, USA

Video Presentation

Title: Chronic Pain, Function and Renewing of Hope

Henk van der Veen, Chronic Pain Science Foundation, Netherlands

Panel Discussion

Networking & Refreshment Break

Day 2 October 20, 2017

Hall-Meeting Room 3

Keynote Forum

Title: How to unleash the power of the internet for your pain practice
Anthony Sarandrea, Clinic Marketers, USA

Title: Restoration of nerve ultrastructure and recovery from motor neuropathy in mice by electromagnetic field
Jerry I Jacobson, Institute of Theoretical Physics and Advanced Studies for Biophysical Research, USA

Panel Discussion

Networking & Refreshment Break

Workshop on

Title: A new vision: Understand pain and pain coaching to overcome pain and live a meaningful life
Richmond Stace, King's College London, UK

Keynote Forum

Introduction

Title: Posturology: a new Discipline Involving art, well- being, physiology, Pain Management and Prevention of Musculoskeletal Disorders

Marco Romoli, University of Florence, Italy

Group Photo

Networking & Refreshment Break

Title: Current status of intrathecal therapy for cancer pain

Hossam El Beheiry, University of Toronto, Canada

Session:

Pain assessment tools | Non Pharmacological methods to treat Pain | Preventive measures for Pain | Pain control techniques

Session Chair: Marco Romoli, University of Florence, Italy

Session Co-chair: Agaezi Ikwugwalu, Charmony Healthcare Center, Canada

Session Introduction

Title: Low back pain Multidisciplinary approach in low back pain assessment

Agaezi Ikwugwalu, Charmony Healthcare Center, Canada

Title: Design of novel multivalent ligands for the treatment of prolonged and neuropathic pain without toxicities or development of tolerance or addiction

Victor J Hruby, University of Arizona, USA

Panel Discussion

Lunch Break

Title: Effect of psychosocial stress on acute-to-chronic pain transition after surgery

Feng Tao, Texas University, USA

Title: Fascia iliaca compartment block: A nurse-led initiative for preoperative pain management in patients with a fractured neck of femur

Adrianne Randall, Luton and Dunstable University Hospital, UK

Title: Long-term results of therapeutic local anesthesia (neural therapy) in patients with chronic pain, disability and postural misalignment

Marco Romoli, University of Florence, Italy

Panel Discussion

Networking & Refreshment Break

Title: A posterior approach to cervical nerve root block and pulsed radiofrequency treatment for cervical radicular pain: A retrospective study

Lizu Xiao, Guangdong Medical College, China

Title: Uses and abuses of opioids for chronic non-cancer pain

Hossam El Beheiry, University of Toronto, Canada

Title: Unique Pain Interventions Combining Ablation and Mechanical Augmentation of Painful, Bony Tumors

Edgar Underwood & April Crunk, University of Alabama, USA

Title: Symptom prevalence among patients admitted under the supportive and palliative care program in Qatar: A single institution experience

Azza Adel Hassan, National Center for Cancer Care and Research, Qatar

Title: Detecting facial action units for analyzing facial expressions caused due to pain

Neeru Rathee, Guru Gobind Singh Indraprastha University, India

Panel Discussion

Day 2 October 04, 2016

Fraser South

Keynote Forum

Title: Pain management and assessment for healthcare practitioners

Agaezi Ikwugwalu, Charmony Healthcare Center, Canada

Panel Discussion

Title: The differences of chronic pain management between eastern and western medicine

Lizu Xiao, Guangdong Medical College, China

Networking and Refreshments

Sessions:

Pain Medication | Negative effects of Pain | Assessment of Pain management | Documenting Pain

Session Chair: Ali El Deeb, Tanta University, Egypt

Session Co-chair: Hichem Khenioui, Lille Catholic University, France

Session Introduction

Title: Evaluation of using botulinum toxin (A) in the treatment of myofascial pain syndrome

Ali El Deeb, Tanta University, Egypt

Title: The use of phototherapy and podiatric intervention to manage chronic lower limb ulcerations in patients with type II diabetes mellitus: A pilot study

Nteleki Bahle, University of Johannesburg, South Africa

Title: Usefulness of intra-articular botulinum toxin injections: A literature review

Hichem Khenioui, Practitioner Hospitals, France

Panel Discussion

Lunch Break

Title: Views on a brief mindfulness intervention among patients with long-term illness

Anastassia Howarth, St. George's University of London, UK

Title: Management of nursing and midwifery

Mansoreh Sadeghi Mojarrad, Modarres Hospital, Iran

Title: Update on prevalence of pain in patients with cancer: Systematic review and meta-analysis

Marieke H J van den Beuken-van Everdingen, Maastricht University, Netherlands

Panel Discussion

Poster Presentations

PPPM01 **Title: Adolescent's experiences of undergoing scoliosis surgery: Psychological aspects and patterns of pain**

Anna-Clara Rullander, Umeå University, Sweden

PPPM02 **Title: The impact of chronic musculoskeletal pain on male reproductive hormones and sperm quality**

Fereshteh Dardmeh, Aalborg University, Denmark

PPPM03 **Title: ADX-102, a novel aldehyde trap, reduces nociceptive behavior in mouse models of carrageenan- and CFA-induced pain**

Susan Macdonald, Aldeyra Therapeutics, USA

Opening Ceremony

Keynote Forum

Introduction

Title: Astroglial NF-kB activation in chronic knee osteoarthritic pain
Hee-Jeong Im Sampen, Rush University Medical Center, USA

Keynote Presentation by
Donna Urquhart, Monash University, Australia

Panel Discussion

Group Photo

Networking and Refreshment

Track 1: Basics of Pain Management and Rehabilitation
Track 3: Physical and Physiological Approaches in Pain Management
Track 5: Pain Syndrome
Track 7: Pharmacological Approaches for Pain

Session Chair: Donna Urquhart, Monash University, Melbourne, Australia
Session Co-Chair: Hee-Jeong Im Sampen, Rush University Medical Center, USA

Session Introduction

Title: OCD in animal models using quinpirole as dopaminergic inductor of perseverative behaviour
Abraham Flores Vargas, Hospital General de México, Mexico
Title: No pharmacological therapies for pain treatment
Marucia Chacur, University of Sao Paulo, Brasil
Title: Body composition is associated with multisite lower body musculoskeletal pain in a community-based study
Donna Urquhart, Monash University, Australia
Title: Osteoarthritis – why it hurts?
Hee-Jeong Im Sampen, Rush University Medical Center, USA

Panel Discussion

Lunch Break

Title: Predicting venous insufficiency in flaps raised on the deep inferior epigastric system using ct angiography
Rachael Pillay, Mater Misericordiae Hospital, Australia
Title: High levels of endogenous PPAR-α activating lipids in woman with chronic widespread pain during acute tissue trauma
Niclas Stensson, Linköping University, Sweden
Title: The efficacy of TENS ACUPUNCTURE in management of trigeminal neuralgia as a sole or adjuvant therapy
Husham A.R. Hasan, Al Hussein Teaching Hospital, Iraq

Video Presentation

Title: The cultural adaptation of the michigan hand outcomes questionnaire in patients with carpal tunnel syndrome: A turkish version study
Ilker Ilhanli, Giresun University School of Medicine, Turkey

Panel Discussion

Networking & Refreshment

Day 2 August 05, 2016

Mississippi Amph

Keynote Forum

Title: The effectiveness of using Hynposis Combined Therapy (HCT) for the treatment of chronic pain (CRPS, fibromyalgia, neuropathic pain, etc.)
Traci Patterson, Advanced Pathways Hypnosis, USA

Title: Opioid Addiction and Treatment
Rose Berkun, Jacobs School of Medicine and Biomedical Sciences, USA

Networking & Refreshment

Track 8: Chronic Pain Medication
Track 9: Pain Medication
Track 11: Pain Management Nursing
Track 12: Orofacial pain

Session Chair: Amit Mirchandani, Metropolitan Anesthesia Consultants, USA
Session Co-Chair: Salaheldin Halasa, Nitromedicine CEO, USA

Session Introduction

Title: Should patients walk from the postanesthesia care unit to the general ward after a lumbar discectomy? A randomized study
Pernilla Qvarfordh, Rigshospitalet Glostrup, Denmark
Title: Should patients walk from the postanesthesia care unit to the general ward after a lumbar discectomy? A randomized study
Karsten Skovgaard Olsen, Rigshospitalet Glostrup, Denmark
Title: Therapeutic physical exercise for lower limb overpronation in young athletes
Blanca de la Cruz, University of Seville, Spain
Title: Indirect costs of back pain internationally
Agnieszka Tymecka-Woszczerowicz, Medical University of Warsaw, Poland

Panel Discussion

Lunch Break

Title: Effectiveness of three types of interventions in patients with fibromyalgia in a region of southern catalonia
Pilar Montesó Curto, Rovira i Virgili University, Spain
Title: Nitromedicine is a new medical specialty, focused on modulating nitro-redox sensitive biochemical pathways to managing oxidative stress related diseases (osrds) and enhance stem cell therapy
Salaheldin Halasa, Nitromedicine CEO, USA
Title: Bell's palsy: Medical and surgical treatment
Kalpesh Vakharia, University of Maryland School of Medicine, USA
Title: Postoperative analgesia for caesarean section patients
Samina Ismail, Aga Khan University Karachi, Pakistan

Panel Discussion

Award Ceremony & Closing ceremony
