INVITATION

Dear Attendees,

Conference Series llc LTD cordially invites all participants from around the world to attend the "Summit on Pancreas, Gastroenterology, and Digestive Diseases," which brings together experts from various fields to share their knowledge and discuss the current issue of pancreatic cancer and liver disease.

Every year, Conference Series llc LTD organises 300+ conferences, 500+ workshops, and 200+ symposiums on various branches such as clinical, medicine, pharmaceutical sciences, and technologies from all over the world, including the United States, the United Kingdom, the United Arab Emirates, Singapore, Malaysia, Korea, Australia, India, and Indonesia, as well as 1000 other scientific societies, and publishes 500 open access journals with 30000 eminent personalities and reputed scientists as editorial members.

Pancreatic cancer is believed to affect around 35,000 persons in Japan each year. However, the total five-year survival rate is about 5 to 10% of all patients. Surgery is now the only treatment option for this form of cancer, however it is usually reserved for patients whose disease has not spread to blood vessels, distant lymph nodes, or other organs such as the liver or lungs. "Around 20 to 30 percent of patients," says the source, "although percentages vary by medical facility." For the past three years, it has climbed by one percentage point each year.

We are bringing together individuals from all around the world to have a fantastic conference in one spot, with delegate scientists and renowned speakers from all over the world. This is the ideal opportunity to reach the largest number of participants from various branches working on gastrointestinal and hepatology illnesses in order to minimise death rates by offering highly effective therapy to patients.

We look forward to personally welcoming you to our conference!

Sincerely,
pancreas 2022
Organizing Committee

ABOUT VENUE

AMSTERDAM,NETHERLANDS

Amsterdam is the capital and popular city of the Netherlands. Amsterdam was originated at the Amstel that was dammed to control overflow flooding, the city's name rises from the Amstel dam. Amsterdam developed as one of the most popular ports in the world during 17th century. Amsterdam's main fascinations its historic canals, the Rijksmuseum, the Van Gogh Museum, Hermitage Amsterdam, the Concertgebouw, the Anne Frank House, the Scheepvart museum, the Amsterdam Museum, the Royal Palace of Amsterdam, Natura Artis Magistra, Hortus Botanicus Amsterdam, NEMO, the red-light region and many coffee shops. The city is also well known for its nightlife and festival activity; with a number of its nightclubs among the world. Cycling is key to the city's charisma, and there are frequent bike tracks.

The Seaport of Amsterdam is the fifth largest in Europe. It lies to the east of Damrak and covers the city's famous red-light district. Amsterdam had its own type of the style.

Amsterdam is the economic and business capital of the Netherlands. Amsterdam is one of the top European cities in which to considered an international business.

The Netherlands has a tradition of cabaret, which combines music, storytelling, commentary, theatre and comedy. Cabaret dates back to the 1930s and artists like Wim Kan, Wim Sonneveld and Toon Hermans were pioneers of this form of art in the Netherlands. In Amsterdam is the Kleinkunstacademie and Nederlied Kleinkunstkoor . Amsterdam is home to the second-largest Dutch profitable TV group SBS Broadcasting Group, comprising of TV-stations SBS 6, Net 5 and Veronica. However, Amsterdam is not reflected 'the media city of the Netherlands'. Radio Netherlands, heard worldwide via shortwave radio since the 1920s, is also based there. Hilversum is home to an extensive complex of audio and television studios going to the national broadcast production company NOS, as well as to the studios and offices of all the Dutch public dissemination associations and many commercial TV production establishments.
