4th International Conference on

Parasitology

Prague, Czech Republic

September 01-02, 2017

parasitology@immunologyconferences.org

Invitation

Dear Attendees,

Parasitology-2017 welcomes you to attend the 4th International Conference on Parasitology which is going to be held in Prague, Czech Republic during September 01-02, 2017.

Parasitology-2017 anticipates more than 500 participants around the globe with thought provoking Keynote lectures, Oral Presentations and Poster Presentations. The attending delegates include Editorial Board Members of related Conference Series LLC Journals. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The intending participants can confirm their participation by registering for the conference along with your colleagues.

Issues in Parasitology.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Parasitology Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level. We look forward to personally welcoming you to Prague, Czech Republic this September.

The main theme of the conference is "Addressing New Challenges and Emerging Issues in Parasitology".

Sincerely,
Parasitology 2017
Organizing Committee

Global Parasitology Market Report

Performs basic research here parasite of humans and animals at the level of molecules, cells and whole organisms. The mission is to acquire, enhance and distribute knowledge about the biology and ecology of parasitic protozoa and eukaryotic microorganisms, helminths and arthropods. The Institutes in Czech Republic carries out not only research but also education on a national and international level. The main research areas encompass parasitology, helminthology, and medical entomology, including studies on the causative agents of the infections transmitted by arthropods.

Parasitic infections affect millions of people every year:

- More than 300,000 persons living are infected with Trypanosoma cruzi, the cause of Chagas disease.
- At least 1,000 people are hospitalized with neurocysticercosis every year.
- Each year at least 70 people, most of them children, are blinded by the parasite that causes Toxocariasis.
- More than 60 million persons are chronically infected with Toxoplasma gondii.
- Each year 1.1 million people are newly infected with Trichomonas.

WHO estimates that about 655,000 people die from malaria every year, though a recent systematic analysis suggested the true annual mortality is closer to 1.24 million (Murray et al., 2012). Inexpensive oral drugs—chloroquine and sulfadoxine-pyrimethamine—were once common treatment for malaria, but resistance to these treatments is widespread (WHO, 2012c). Since 2001, the WHO has recommended treating malaria with artemisinin combination therapies (WWARN, 2012c). The use of artemisinin combination drugs as first-line therapy is essential to malaria control. As of 2006, however, there is evidence of artemisinin resistance in Southeast Asia (WWARN, 2012c).

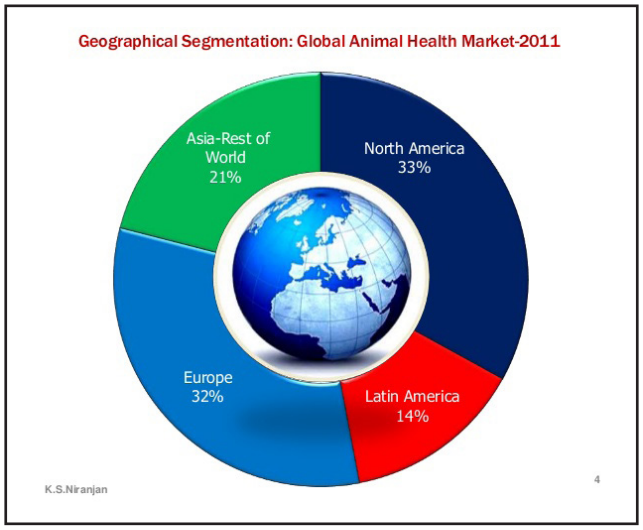

Market Value for Antimalarial Drugs

Two hundred and eighteen antimalarial drugs were in circulation in Kenya in 2002. These included 65 “sulfur”-pyrimethamine (sulfadoxine-pyrimethamine and sulfalene-pyrimethamine (SP), the first-line recommended drug in 2002) and 33 amodiaquine (AQ,

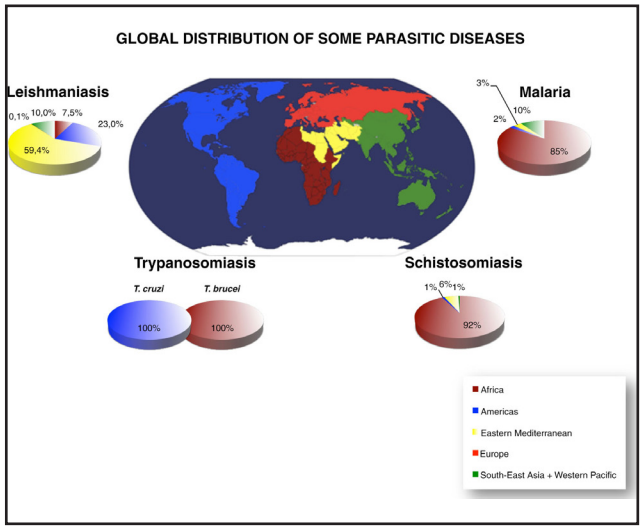

Con.....

the second-line recommended drug) preparations. Only half of SP and AQ products were registered with the Pharmacy and Poisons Board. Of SP and AQ brands at district level, 40% and 44% were officially within legal registration requirements. 29% of retailers at district level stocked SP and 95% stocked AQ. The retail price of adult doses of SP and AQ were on average 0.38 and 0.76 US dollars, 100% and 347% higher than trade prices from manufacturers and importers. Artemether-lumefantrine, the newly announced first-line recommended antimalarial drug in 2004, was found in less than 1% of all retail outlets at a median cost of 7.6 US dollars.

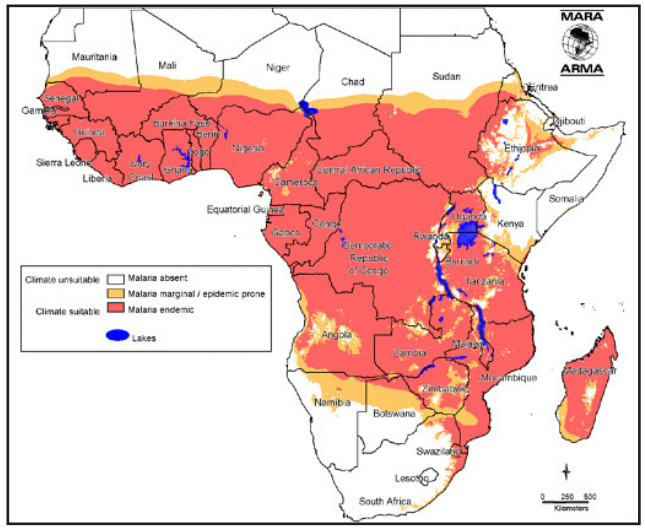

Market Growth of Parasitic Drugs Manufacturers Worldwide

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Parasitology 2017 Conference website is attracting **25000+ Parasitologist's, Veterinary Physicians** online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Parasitology 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

Conference Goals and Objectives

Purpose

4th International Conference on Parasitology is an arena for interdisciplinary exchange among professionals in the fields of during September 01-02, 2017 in Prague, Czech Republic which includes prompt keynote presentations, Oral talks, Poster presentations and Exhibitions.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Parasitology present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Parasitology
- Discuss and apply recent research findings related to Parasitology
- Reflect on the place of critical distance in Parasitology

About Conference

Who should attend

4th International Conference on Parasitology is exclusively designed for Parasitology Students, Scientists, Parasitology Researchers, Parasitology Faculty, Medical Colleges, Parasitology Associations and Societies, Business Entrepreneurs, Training Institutes, Manufacturing Medical Devices Companies.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by Crossref

Major sessions

- General Parasitology
- Medical Protozology
- Medical Helminthology
- Medical Parasitology
- Medical Entomology
- Veterinary Parasitology
- Fish Parasites & risks to Public Health
- Experimental Immunoparasitology
- Structural Parasitology
- Molecular and Biochemical Parasitology
- Tropical Parasitology
- Vector-borne Diseases
- Ticks and Tick-borne Diseases
- The Health Policy Environment
- Approaches to Control Parasitic Diseases

Supporting Journals

- Journal of Bacteriology & Parasitology
- Journal of Medical Microbiology & Diagnosis
- Journal of Tropical Diseases & Public Health

Media partners/Sponsors

About Prague

Why Prague: Prague is the capital and largest city of the Czech Republic. It is the 14th largest city in the European Union. It is also the historical capital of Bohemia. Situated in the north-west of the country on the Vltava River, the city is home to about 1.26 million people, while its larger urban zone is estimated to have a population of nearly 2 million. The city has a temperate climate, with warm summers and chilly winters.

The city boasts more than ten major museums, along with numerous theatres, galleries, cinemas, and other historical exhibits. An extensive modern public transportation system connects the city. Prague is the fifth most visited European city after London, Paris, Istanbul and Rome. Prague's low cost of living makes it a popular destination for expats relocating to Europe. The city of Prague lies between oceanic climate and humid continental climate.

The region city of Prague is an important centre of research. Some well-known multinational companies have established research and development facilities in Prague, among them Siemens, Honeywell and Sun Microsystems.

We look forward to seeing you in Prague!
