Invitation…

Dear Attendees,

We are glad to announce the 14th Asia Pacific Pathology Congress to be held in Osaka, Japan from November 13-14, 2017 organized by Conference Series in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Molecular Pathology, Clinical Pathology, Diagnostic Pathology, Cancer Cytopathology, Breast pathology, Dermatopathology, Renal Pathology, Oral and Maxillofacial Pathology, Pathobiotechnology, Digital Pathology, Anatomical Pathology, Surgical Pathology, HematoPathology, Pulmonary Pathology, Gastrointestinal and Liver pathology, Neuropathology, Comparative Pathology and will be available to discuss with you the latest issues and trends in Pathology: From Evidence to Excellence.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Pathology Congress 2017 to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Osaka, Japan this November.

Glimpses of past conference

Tourist Attractions

Venue

Osaka is the second largest metropolitan area in Japan and serves a major economic hub.Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. Thecity's west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the TempozanHarbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre.

You'll fall in love with Japan
