City Attractions

Venue

Kyoto, located in the Kansai region of Japan, is the country's seventh largest city, with a population of 1.4 million people. Steeped in history, Kyoto is home to roughly one quarter of Japan's national treasures, countless shrines and temples, and seventeen sites recognized by UNESCO as World Heritage Sites.

Travellers to Kyoto can easily spend a week visiting the city's historical attractions such as the Kinkakuji (Golden Pavilion), Kyoto Imperial Palace, and Sanjusangendo temple. All sections of the city contain more than one locale well worth a thorough visit, notably, some of Japan's oldest traditions, such as the tea ceremony, flower arranging, and geisha schooling originated in the city. These ancient customs, while still practiced throughout Japan, can only be observed in their original setting in Kyoto.
