

Dear Colleagues,

It gives me the greatest pleasure and an honor to extend to you a warm invitation to attend to join us at the next 11th International Conference on Pediatric Pathology & Diagnosis to be held in London, UK from March 15 – 16, 2017. We are very excited to be hosting this important conference in London.

We have developed robust committees: an international program and local organizing.

Building on the success of preceding meetings in Chicago on May 2016, in Manchester on October 2016 and New Orleans on July 2015, the Conference will feature a highly interactive, stimulating and multidisciplinary program.

The organizing committee is planning a fabulous program ranging across pediatric pathology & diagnosis. We will have sessions on perinatal pathology, pediatric molecular pathology, pediatric clinical pathology, pediatric cellular pathology, pediatric head & neck pathology, pediatric pulmonary pathology, pediatric gastrointestinal pathology and interesting networking sessions about pediatric neuropshycology, pediatric neuropathology, pediatric toxicology... etc.

Our technical program is rich and varied with 3 keynote speeches and invited talks and 2 parallel oral sessions and panel discussions the first day. Besides, there are workshops intereactive sessions, plenary lectures, exhibitors and a keynote forum. We also expect to provide numerous opportunities for informal events. There will be an inaugural Adress, group photo, lunch, tea and coffee breaks, awards & closing ceremony.

At the end of this International Conference, we hope that attendees feel that they have garnered the most up-to-date information available pediatric pathology and diagnosis. The Conference will strive to offer plenty of networking opportunities, providing you with the opportunity to meet and interact with the leading scientists and researchers, friends and colleagues as well as sponsors and exhibitors.

The conference will provide a big opportunity for researchers and professionals from all over the world to present the latest researches and developments and to exchange useful information and experiences in the fields of pediatric pathology. We are confident that the Conference will represent for all participants an unforgettable personal and professional experience. As a conference organizing committee, I know that the success of the conference depends ultimately on the many people who have worked with us in planning and organizing both the technical program and supporting social arrangements. In particular, we thank the Program organizing committee Pathologist 2016 for their wise advice and brilliant suggestion on organizing the technical program. Recognition should go to the Organizing Committee Assistants who have all worked extremely hard for the details of important aspects of the conference programs and social activities. The members of the organizing committee are very proud to be hosting the conference and look forward to welcoming you to the city of London.

London and its environs are an amazing place to visit. This multicultural city has many diverse sites to visit: the Big Ben and parliament, the London Eye, the National Gallery, Buckingham Palace, the London Tower, the London Bridge, Trafalgar Square and Picadilly Circus and you will enjoy them.

We hope you will join us for a symphony of outstanding medical science, and take a little extra time to enjoy the spectacular and unique beauty of this region in UK. We hope you will find time to sample many of the unique features within this unique city.

With best wishes,
Dr. M.A. López-Ruiz
Professor, CEU Cardenal Herrera University
