

4th International Conference on Pharmaceutical Chemistry

July 13-14, 2023 | Dubai, UAE

ABOUT CONFERENCE

Welcome to the 4th International Conference on Pharmaceutical Chemistry, taking place during July 13-14, 2023, in the one of the most beautiful cities in the world, Dubai, UAE. Aiming to provide new research prospects, PHARAMACEUTICAL CONF 2023 is an international scientific conference that focuses on Pharmaceutical Chemistry. The event's theme is "Collaborative strategies Pharmaceutical Chemistry" and the organising committee cordially invites all top researchers, doctors, Chemists, Analysts, Pharmacists, Drug Development, Registered healthcare Professionals, and business owners to attend.

Conference Sessions

- Pharmaceutical Chemistry
- Novel Aspects in Pharmaceutical Chemistry
- Biochemistry of Pharmaceuticals
- Prospects of Medicinal Chemistry
- Heterocyclic Chemistry
- Challenges & Approaches in Drug Discovery
- Pharmaceutical Industry Overview
- Pharmaceutical Analysis
- Biopharmaceuticals and Biologics
- Molecular and Cellular Pharmacology

Who Attends

- Eminent Scientific Professionals in Pharma and Chemistry
- Faculty (Professors, Associate Professors, Asst. Professors)
- Pharma and Chemistry Colleges & Training Institutes
- Pharmaceutical and Chemistry Associations and Societies
- Pharmaceutical Business Entrepreneurs
- Manufacturing Pharmaceutical products Companies
- Manufacturing Medical Devices Companies
- Pharma and Chemistry Students
- PhD Scholars, Graduates and Post Graduates
- Directors, CEO's of Organizations
- Association, Association presidents and professionals
- Noble laureates in Health Care and Medicine
- Bio instruments Professionals
- Bio-informatics Professionals
- Research Institutes and members

ReminiScence OF Previous Years

Be a Part & Join us in this conference to Design a better & sustainable Bioeconomy
