Organizing Committee Members

Benmansour
University Of Es Senia
Algeria

Khaled Barakat
University of Alberta
Canada

Jan Kyselovic
Comenius University
Slovakia

Ranendra Narayan Saha
Bits Pilani Dubai Campus
Dubai

Yasser Saber
University of Vienna
Austria

G. Seghal Kiran
Pondicherry University
India

Hafeez Antar Makeen
Jazan University
UAE

Abdullah Saud Al-Humaidan
Campbell University
KSA

Abdulmohsen H. Alrohaimi
Shaqra University
KSA

S.Duraviel
SGT University
India

Alaa Bagalagel
King Abdulaziz University
KSA

Glimpses of Pharmaceutical Sciences 2016 Series conferences

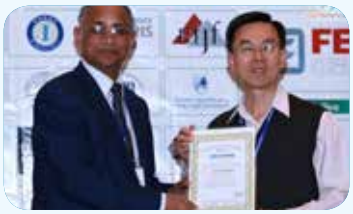

Glimpses of Pharmaceutical Sciences 2016 Series conferences

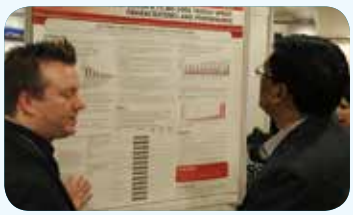

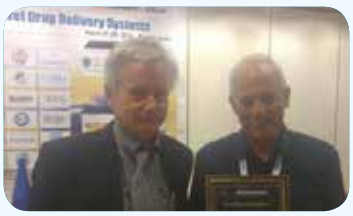

Tourist Attractions

Burj Al Arab

Burj Al Arab is a hotel located in Dubai, United Arab Emirates. It is the third tallest hotel in the world; however, 39% of its total height is made up of non-occupiable space. Burj Al Arab stands on an artificial island 280 m (920 ft) from Jumeirah beach and is connected to the mainland by a private curving bridge. The shape of the structure is designed to mimic the sail of a ship. It has a helipad near the roof at a height of 210 m (689 ft) above ground.

Dubai Dolphinarium

Dubai Dolphinarium is the first fully air-conditioned indoor dolphinarium in the Middle East, providing habitat to dolphins and seals, allowing the public to watch and interact with them through live shows and photo sessions. It is located in the creek side park at Bur Dubai near the Children's City. Dubai Dolphinarium was opened on May 21, 2008 by Dubai Municipality, and is sponsored and supported by Dubai government to provide the general public with entertainment and also educate them regarding dolphins, seals and other marine organisms.

Palm Jumeirah

The Palm Jumeirah is an artificial archipelago in United Arab Emirates, created using land reclamation by Nakheel, a company owned by the Dubai government, and designed and developed by Helman Hurley Charvat Peacock/Architects, Inc. It is one of three planned islands called the Palm Islands (Palm Jumeirah, Palm Jebel Ali and Palm Deira) which would have extended into the Persian Gulf, increasing Dubai's shoreline by a total of 520 kilometres (320 mi).

Burj Khalifa

Burj Khalifa , known as Burj Dubai before its inauguration, is a megatall skyscraper in Dubai, United Arab Emirates. It is the tallest artificial structure in the world, standing at 829.8 m (2,722 ft). Construction of Burj Khalifa began in 2004, with the exterior completed in 2009. The primary structure is reinforced concrete. The building opened in 2010, as part of the new development called Downtown Dubai. It is designed to be the centerpiece of large-scale, mixed-use development.

Dubai Grand Mosque

Sheikh Zayed Grand Mosque is located in Abu Dhabi, the capital city of the United Arab Emirates[1] and is considered to be the key for worship in the country. Sheikh Zayed Grand Mosque was initiated by the late president of the United Arab Emirates (UAE), His Highness Sheikh Zayed bin Sultan Al Nahyan, who wanted to establish a structure which unites the cultural diversity of Islamic world, the historical and modern values of architecture and art. His final resting place is located on the grounds beside the same mosque. The mosque was constructed from 1996 to 2007.

The Dubai Fountain

The Dubai Fountain is the world's largest choreographed fountain system set on the 30-acre manmade Burj Khalifa Lake, at the center of the Downtown Dubai development inDubai, United Arab Emirates. It was designed by WET Design, the California-based company responsible for the fountains at the Bellagio Hotel Lake in Las Vegas. Illuminated by 6,600 lights and 25 colored projectors, it is 275 m (902 ft) long and shoots water up to 500 ft (152.4 m) into the air accompanied by a range of classical to contemporary Arabic and world music.
