About Philadelphia

Philadelphia is home to a modest bunch of biotechnology, pharmaceutical and medicinal gadget organizations. ALS Biopharma, Areon Biosciences, Atrin Pharmaceuticals, Digna Biotech, Enantigen Therapeutics, MB Research Laboratories, One World Biotech, Impact Biologicals are simply to give some examples of the organizations which are situated in the province of Philadelphia.

Philadelphia is the center of economic activity in Pennsylvania and is home to five Fortune 1000 companies. The Philadelphia skyline is growing, with a market of almost 81,900 commercial properties in 2016 including several nationally prominent skyscrapers. The city is known for its arts, culture, and rich history, attracting over 41 million domestic tourists alone in 2015. Philadelphia has more outdoor sculptures and murals than any other American city.

Fairmount Park, when combined with the adjacent Wissahickon Valley Park in the same watershed, is one of the largest contiguous urban park areas in the United States. The 67 National Historic Landmarks in the city helped account for the $10 billion generated by tourism. Philadelphia is the birthplace of the United States Marine Corps, and is also the home of many U.S. firsts, including the first library (1731), first hospital (1751) and medical school (1765), first Capital (1777), first stock exchange (1790), first zoo (1874), and first business school (1881). Philadelphia is the only World Heritage City in the United States.
