34th Conference on

Clinical Neuroscience and Neurogenetics

February 24-25, 2023 | Tokyo, Japan

Theme: Mobilizing Neurons to Rehabilitate

INVITATION

Dear Attendees,

We are glad to announce the **"34th Conference on Clinical Neuroscience and Neurogenetics"** to be held in **Tokyo, Japan** on **February 24-25, 2023** organized in collaboration with generous support and cooperation from enthusiastic academicians and Editorial Board Members. **Neurogenetics 2023** aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Epidemiology & Public Health and it's Research. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

34th Conference on Clinical Neuroscience and Neurogenetics amid **February 24-25, 2023** at **Tokyo, Japan.** This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,

Neurogenetics 2023

Organizing Committee

Neurogenetics 2023

ABOUT US

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Neurogenetics 2023

ABOUT CONFERENCES

Neurogenetics 2023 Scientific Committee is honored to welcome you all to attend **34th Conference on Clinical Neurogenetics and Neurogenetics** which will be held during **February 24-25, 2023** at **Tokyo, Japan**. Neurogenetics 2023 will raise the most dynamic and latest issues in the field of Neurogenetics and Neurogenetics. The Congress will highlight the discussion around the theme "Mobilizing Neurons to Rehabilitate" by bridging the gaps between the intellectuals from across the globe to enlighten their research and findings at Neurogenetics 2023. The highlights of the conference includes Neurochemistry, Neuropharmacology, Neurogenetics, Neurosurgery, Neurological & Neurosurgical Nursing, Neuro Oncology, Neuroimaging in Psychiatry, Neuro Informatics, Stroke & Neurological Disorders, Heart and Brain, Neuro Immunology, Neurological Nursing, Computational Neurology, Clinical Interventions & Case reports, Neurotransmitters and many more.

Neurogenetics 2023 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 150+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist's representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about International Conference on Neuroscience and Neurogenetics, present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services

ABOUT CONFERENCES

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Neuroscience and Neurogenetics
- Discuss and apply recent research findings related to Neuroscience and Neurogenetics.
- Reflect on the place of critical distance in Neuroscience and Neurogenetics Research.

Who should attend?

Academicians including Professors, PhD. Scholars, Students carrying out Neuroscience and Neurogenetics and field studies, General Internist Pharmaceutical companies Research Scholars Doctors & Physicians Directors / Managers Industrial Professionals Clinical Researchers Healthcare Professionals Professors and students from colleges and universities Business delegates and Intelligence experts Vice Presidents of Medical institutions and Hospitals

Neurogenetics 2023 salient features

- Neurochemistry
- Neuropharmacology
- Neurogenetics
- Neuro Surgery
- Neurological & Neurosurgical Nursing
- Neuro Oncology
- Neuroimaging in Psychiatry
- Neuro Informatics
- Stroke & Neurological Disorders
- Heart and Brain
- Neuro Immunology
- Neurological Nursing
- Computational Neurology
- Clinical Interventions & Case Reports
- Neurotransmitters
- Pediatric Neurology
- Neuro Pathology
- Nursing and Neurogenetics
- Neuro-ophthalmology
- Neuro Cardiology
- Neurology

About hosting organization

Conferenceseries LLC Ltd is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ ScientificSocieties. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

MEDIA PARTNERS

ABOUT TOKYO

The city of Tokyo is one where innovation meets tradition. Tokyo is known for its historic shrines and temples, and performing arts such as Noh, Kabuki and Rakugo, which have been enjoyed for centuries. Its major venues which celebrate Japanese cultural traditions include the Kabukiza Theatre, the National Noh Theatre and the Kokugikan Hall. Meanwhile Tokyo is renowned for new trends in fashion, music, art, technology and animation, and as a cultural centre for creators in Japan and beyond. Social media tools originating in Tokyo, such as LINE, have spread throughout Japan and the world. Niconico, Japan's largest video social website has over 50 million registered members. The Niconico Chokaigi festival, which allows members to connect in person, has been attended by over 15 million people. As well as being an international cultural hub, Tokyo's identity encompasses many local identities including neighbourhoods such as Asakusa, Akihabara, Harajuku and Shibuya which have distinctive cultural characteristics.

One of the greatest challenges facing modern Tokyo is a declining birth rate combined with an ageing population. In 2020, Tokyo will host the Olympic and Paralympic Games, and there is a need to balance leaving a legacy for future generations with addressing the growing needs of an ageing society. The Tokyo Vision, the City's long term cultural plan for the coming years, aims to use the Games to promote Japanese art and culture around the world. Many of Tokyo's cultural venues built during the economic boom of the 1980s and 1990s are now in need of renovation, and this also needs to be balanced against competing financial priorities. Multilingual signs are being prepared for the city's museums and cultural facilities, to help foreign visitors to the Olympic Games. This represents a significant logistical challenge for the City. Deciding how many languages should be included in these signs is always difficult and each cultural facility is trying to find their own solution with respect to the amount of information they want to communicate.
