Invitation...

Dear Colleagues,

Conference Series llc LTD extends its welcome to **International Conference on Plant Tissue Culture and Plant Biotechnology** during **December 02-03, 2019** at **Madrid, Spain** with a theme **"Recent Trends and innovative approaches in Plant Biotechnology"**. Conference Series llc LTD through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community.

Conference Series llc LTD Organizes 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 100000 eminent personalities, reputed scientists as editorial board members.

Plant Biotechnology 2019 Conference will focus on educational research directed toward its impact on clinical outcomes, through oral and poster presentations, educational workshop sessions, and influential plenary presentations. Attendees will be provided with the tools to enhance Plant Biotechnology programs to make education more effective in Plant Science.

Conference will focus on the following topics during presentations of the two day event, which reflect current education research, developments and innovations internationally and as evidenced in both Nurse Education and Evidence Based Practice.

- Teaching, Assessment and Learning in University and Clinical Practice
- Technology, Simulation and Education
- Continuing Professional Development
- Continuing Education
- Innovation, Academic Leadership and Evaluation Research
- Midwifery Education

Tentative Agenda

December 02, 2019

Time	Session
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
Group Photo	
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Plant Tissue Culture | Plant Biochemistry | Plant genetics and Genomics
13:00-13:45	Lunch Break**
13:45-16:00	Plant Metabolism | Plant Nanotechnology | Plant Anatomy
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Plant virus | Plant Hormones and plant Plastics
Day Concludes	

December 03, 2019

Time	Session
09:30-11:30	Plant Cell & molecular Biology | Plant Pathology and Mycology | Plant Breeding and Molecular Breeding
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Plant Nutrition and Soil Sciences | Agronomy and Agricultural Research | Fertilizers and Pesticides
13:00-13:45	Lunch Break**
13:45-16:00	Horticulture | Phytochemicals
16:00-17:00	Poster Presentations
Award Ceremony	
Conference Concludes	

Tourist Attractions

Venue

Madrid is the capital of Spain and the largest municipality in both the Community of Madrid and Spain as a whole. It is the third-largest city in the European Union (EU), smaller than only London and Berlin, and its monocentric metropolitan area is the third-largest in the EU, smaller only than those of London and Paris. Madrid is the European city with the highest number of trees and green surface per inhabitant and it has the second highest number of aligned trees in the world, with 248,000 units, only exceeded by Tokyo. Madrid's citizens have access to a green area within a 15-minute walk. Since 1997, green areas have increased by 16%. At present, 8.2% of Madrid's grounds are green areas, meaning that there are 16 m2 (172 sq ft) of green area per inhabitant, far exceeding the 10 m2 (108 sq ft) per inhabitant recommended by the World Health Organization.

The Madrid urban agglomeration has the third-largest GDP in the European Union and its influences in politics, education, entertainment, environment, media, fashion, science, culture, and the arts all contribute to its status as one of the world's major global cities. Madrid is home to two world-famous football clubs, Real Madrid and Atlético de Madrid. Due to its economic output, high standard of living, and market size, Madrid is considered the major financial centre of Southern Europe and the Iberian Peninsula; it hosts the head offices of the vast majority of major Spanish companies, such as Telefónica, IAG or Repsol. Madrid is the 10th most liveable city in the world according to Monocle magazine, in its 2017 index.
