Invitation

Dear Collegues,

Conference Series LLC Ltd. is delighted to welcome you to Milan, Italy for Plasma Chemistry 2020.

The conference will focus on **"The Recent Developments and Advancements in Plasma Chemistry"**. We are confident that you will enjoy the scientific sessions of this upcoming conference.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Plasma Chemistry Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to see you in Milan, Italy this September

Sincerely,
Plasma Chemistry 2020
Organizing Committee

What is Plasma Chemistry 2020?

September 21-22, 2020 in Milan, Italy.

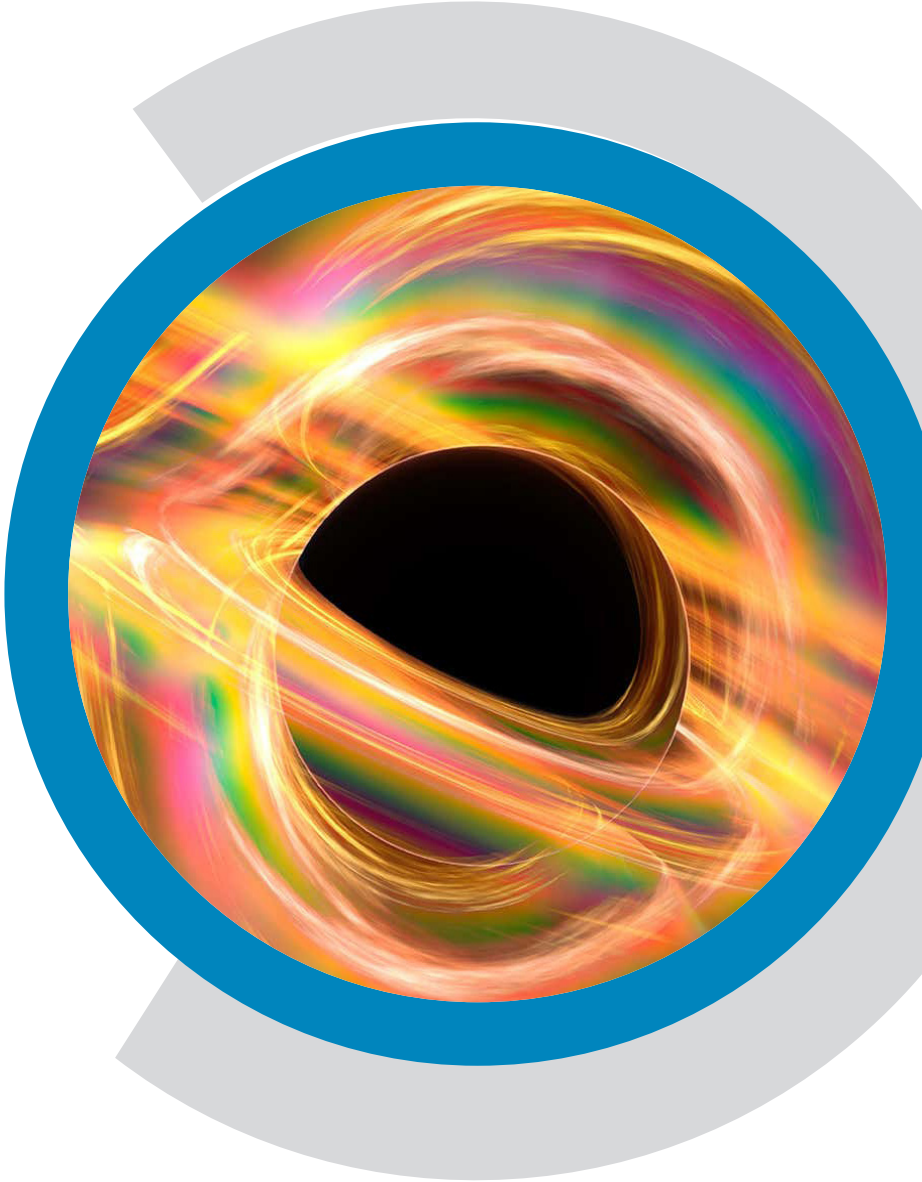

Theme of the Conference is **''The Recent Developments and Advancements in Plasma Chemistry.''**

Conference Series is esteemed to invite you to join the 11th International Conference on Chemistry which will be held September 21-22, 2020 at Milan, Italy which includes prompt keynote presentations, oral talks, poster presentations and exhibitions.

Plasma Chemistry aims at covering fundamental and applied chemistry in the broadest sense and will be hosted by the Conference series LLC Ltd. Plasma Chemistry 2020 has been organized to bring together leading researchers, scientists, engineers and industry professionals to exchange their experiences and create an environment of new ideas generation and sparking innovation. In the meantime, this event values the critical relationship between academia and industry. Both are remarkably crucial because academia and industry will be able to harmonize the knowledge and industrial requirement into the real practical solutions

The conference will be a chemistry related disciplinary event considering all the major areas of physical Chemistry & Therapeutic approaches for physical Chemistry and researchers from various areas of chemistry, pharmacy, materials science and chemical engineering by providing a platform for critical analysis of new data, and to share latest cutting-edge research findings and results about all aspects of Plasma Chemistry. The meeting will be a multidisciplinary gathering and paving way to explore issues of mutual concern as well as exchange knowledge.

On behalf of Plasma Chemistry 2020, Organizing Committee is glad to invite contributions from the enthusiastic academicians, scientists to organize International Symposiums/ Workshops that are both experimental and theoretical in exploring new dimensions of Chemistry.

- Top Industries Representation
- Thought provoking Symposia's and Workshops
- Nominations for Best Poster Award
- Outstanding Young Researcher Award
- Group Registration benefits

Major Sessions

- Plasma Chemistry
- Artificial Plasmas
- Industrial Plasmas
- Plasma Diagnostics
- Plasmas in Nature
- Terrestrial plasmas
- Inertial Confinement Fusion
- Plasma Applications
- Magnetic Fusion Energy
- Space and Astrophysical plasmas
- Plasma in Physical Mathematics
- Plasma in Food Processing
- Fundamentals and Modelling in Plasma Chemistry
- Thermal Plasma Applications
- Plasma Treatment of Biomaterials
- Plasma in Contact with Liquids
- Low Pressure in Plasmas
- High-Pressure and Multiphase in Plasmas
- Plasma in Biomedical and Agricultural Applications
- Plasmas in Energy and Environmental Applications
- Plasmas in Nano-Materials Processing
- Advanced Technologies in Plasma Chemistry
