INVITATION FOR CONFERENCE

DEAR
COLLEAGUES,

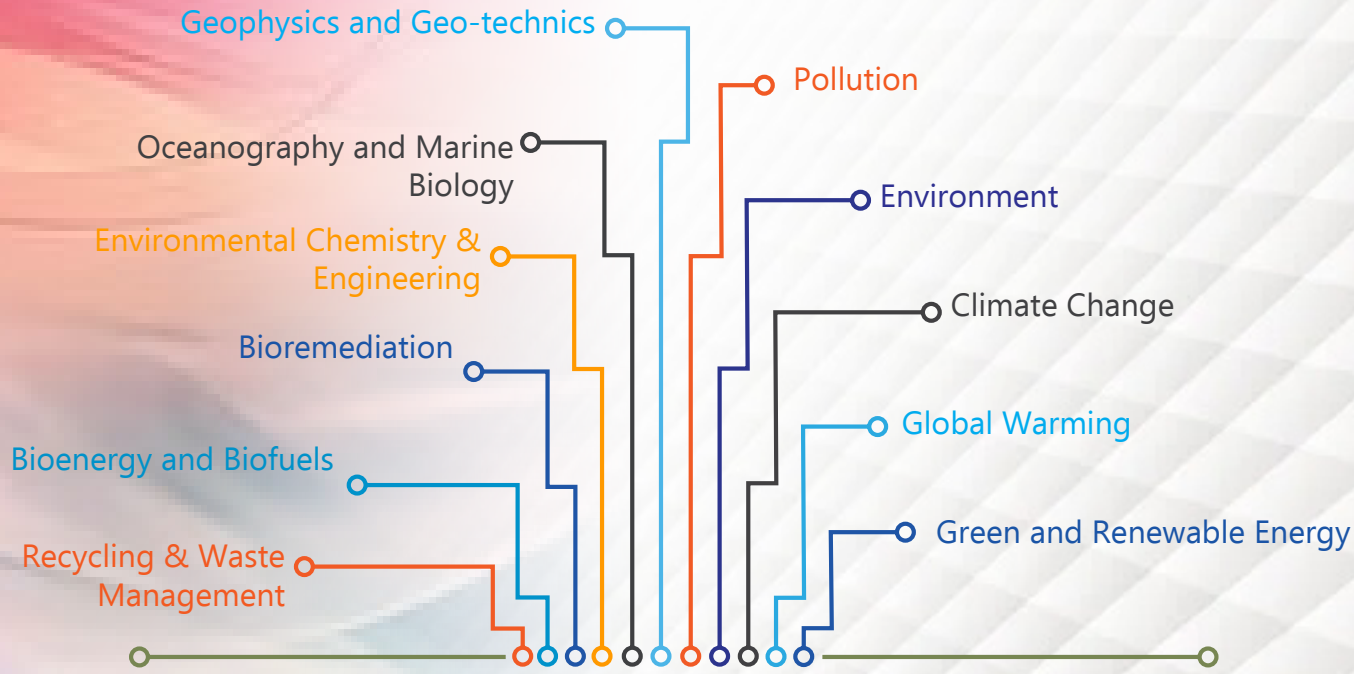

Pollution 2024 welcomes you to attend "12th Environmental Science and Pollution Control Congress" slated to hold on February 22-23, 2024 at Zurich, Switzerland with theme "Global Challenges, Local Actions: Navigating Environmental Crises". This International meet (Pollution 2024) anticipates hundreds of delegates including keynote speakers, Oral presentations by renowned speakers and poster presentations by students besides delegates around the world. This conference perhaps a giant event that creates an ideal platform to share expertise addressing current technologies involved in Pollution Control & Environmental Sciences. It will be a wonderful opportunity for all the delegates as it provides an international networking opportunity to collaborate with the world class Scientists.

Venue & Accommodation

Zurich, Switzerland

Zurich, Switzerland

Zurich is the largest city in Switzerland and the capital of the canton of Zürich. It is located in north-central Switzerland, at the northwestern tip of Lake Zürich. As of January 2023 the municipality had 443,037 inhabitants, the urban area 1.315 million (2009), and the Zürich metropolitan area 1.83 million (2011). Zürich is a hub for railways, roads, and air traffic. Both Zurich Airport and Zürich's main railway station are the largest and busiest in the country.

Permanently settled for over 2,000 years, Zürich was founded by the Romans, who called it Turicum. However, early settlements have been found dating back more than 6,400 years (although this only indicates human presence in the area and not the presence of a town that early). During the Middle Ages, Zürich gained the independent and privileged status of imperial immediacy and, in 1519, became a primary centre of the Protestant Reformation in Europe under the leadership of Huldrych Zwingli.

The official language of Zürich is German, but the main spoken language is Zürich German, the local variant of the Alemannic Swiss German dialect.
