Dear Attendees,

We are glad to announce the 3rd International Conference on Power and Energy Engineering to be held in Rome, Italy from June 18-19, 2018 organized by Conference Series LLC, USA. This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators are coming together to present and discuss current topics on Power Engineering, Power Systems, Power Generation Technologies, Power Transmission and Distribution, Smart Grid Technologies, Renewable and Non Renewable Energy Sources, Energy Storage System and Technologies, Energy Economics and Energy Policy, Sustainability, Battery, Fuel Cells and Combustion Technologies, Advanced Energy Technologies, Solar Energy and Wind Power and will be available to discuss with you the latest issues and trends. As it is a premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions and livelier interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the Power Engineering Conference to network with your peers, exchange expertise and experiences and arm yourself with the latest information to take your department to the next level.

We are looking forward to personally welcome you in Rome, Italy.

Sincerely,
Power Engineering 2018
Organizing Committee

Power Engineering 2018

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscript in our Open Access Journals

Special Issues : All accepted abstracts will be
published in respective Conference Series LLC Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Power Engineering 2018 Conference website is attracting 25000+ Professors, Market Leaders, Experts, Students and Online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members are getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Power Engineering 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all throughout the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Power and Energy generation and application the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

About Conference

Advantages of Attending the Conference

- To meet experts in the field of Power Engineering, Energy Engineering & Environment
- To discuss and share the knowledge with Professors, Scientists, Engineers, Researchers and Business Intelligences
- An opportunity to meet World's Eminent Speakers.
- To pick up & advance knowledge in the field of Engineering & Technology
- All accepted abstracts will be published in the particular OMICS International Journals after the conference as conference proceeding
- Each abstract will receive a Digital Object Identification Number (DOI).

Who should attend

3rd International Conference on Power and Energy Engineering is exclusively designed for Directors, HOD's of Power Engineering and Energy Engineering, Professors, Professionals, CEO's, Presidents, Vice-presidents, Business Delegates, Market Leaders from allied industries and companies, Students from Academia and Researchers in the field of Power Engineering, Energy Engineering, Electrical Engineering, Mechanical Engineering, Chemistry, Physics and Environmental Engineering research and business.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific & Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members and 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

MajorSessions

- Power Engineering
- Power Systems
- Electric Power Transmission and Distribution
- Power Electronics
- Power and Energy Market
- Battery, Fuel Cells and Combustion Technologies
- Smart Grid Technologies
- Alternative Energy Technologies
- Energy Storage
- Sustainable Energy Technologies
- Solar Power and Wind Energy
- Advanced Energy Technologies
- Energy Economics and Energy Policy
- Bio Energy
- Hydropower Technology
- Green Energy
- Photovoltaic System
- Energy Materials
- Cosmic Energy
- Clean Energy
- Nuclear Energy
- Renewable and Non Renewable Energy Sources
- Power Generation Technologies
- Sustainability

About Rome

Rome is the capital of Italy, also the country's largest and most populated comune and fourth-most populous city in the European Union. The Metropolitan City of Rome has a population of 4.3 million residents. The city is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of Tiber River. Vatican City is an independent country within the city boundaries of Rome, the only existing example of a country within a city, for this reason Rome has been often defined as capital of two states. It is referred to as "Roma Aeterna" (The Eternal City) and "Caput Mundi" (Capital of the World), two central nations in ancient Roman culture. One of the most important city, Rome, was founded in 753 B.C. by Romulus.

The Apennine Mountains form its "backbone" and stretch from north to south, with the Tiber River cutting through them in central Italy. Along the northern border, the Alps serve as a natural boundary. The three major bodies of water surrounding Italy are the Adriatic Sea, the Ionian Sea, and The Mediterranean Sea. Ancient Rome is characterized by the seven hills and the Tiber River, which flows from the Apennine Mountain to the Tyrrhenian Sea.

Rome is a sprawling, cosmopolitan city with nearly 3,000 years of globally influential art, architecture and culture on display. In 2005, the city received 19.5 million global visitors, up of 22.1% from 2001. Its historic center is listed by UNESCO as a World Heritage Site. Monuments and museums such as The Vatican Museum and The Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year.

The weather is fantastic in Rome in October, when the average temperature starts off at around 20°C and gradually climbs up to 18°C-23°C as the month progresses.

Italy has a huge international network of public and state affiliated universities and schools offering degrees in higher education. State-run universities of Italy constitute the main percentage of tertiary education in Italy and are managed under the supervision of Italian's Ministry of Education. Italian universities are among the oldest universities in the world.
