Proteomics 2018

Invitation

Conference Series Ltd welcomes you to attend the ***10th International Conference on Proteomics and Bioinformatics,*** *which is going to be held in* ***Singapore*** *during* ***May 17-18, 2018.***

We cordially invite all the participants who are interested in sharing their knowledge and research in the field of Proteomics.

Proteomics 2018 anticipates more than 300 participants across the globe with thought provoking Keynote lectures, Oral Presentations and Poster Presentations Exhibition, Symposia and Workshops. The attending delegates include Editorial Board Members of related International Journals.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

The main theme of the conference is ***"Recent innovations and solutions adopted in the fields of Proteomics".***

Regards,
Proteomics 2018

About Us

International Journals

- *900 Open Access Journals*
- *21 Day rapid review process*
- *30000 Editorial team, 35000 Reviewers team*
- *3.5 Million readers and high visibility*
- *More than 100000* facebook fans
- *Publication immediately after acceptance*
- *Quality and quick editorial, review processing*

Key features

- *User friendly/feasible website translation of your paper to 50 world's leading languages*
- *Enhanced feature: Audio version of published paper*
- *Digital articles to share and explore*
- *Sharing option: Social networking enabled*
- *Authors, reviewers and editors are provided with scientific credits*

Conference Series Ltd Conferences

- *1000 Conferences all over the World every year*
- *Well organized scientific program*
- *Renowned speakers and scientists across the globe*
- *Poster presentations and world class exhibits*
- *Panel discussions and interactive sessions*
- *B2B meetings*
- *Perfect platform for Global Networking*

Key features

- *Presentation by renowned speakers from all over the world*
- *Poster presentations and world class exhibits*
- *Interactive Sessions*
- *Platform for global networking*
- *Connecting scientific community*

Special Issues

All accepted abstracts will be published in respective Supporting International Journals

Each abstract will be provided with digital Object Identifier by crossref

Proteomics 2018

About Conference

The field of Clinical Case Reports is growing rapidly and its development is making tremendous impacts in the field of Medicine. The importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

Proteomics 2018

- *Opportunity to attend the presentations delivered by eminent scientists from all over the world*
- *Selected contributions will be published in following Conference Series Ltd Journals*
    - *Journal of Proteomics & Bioinformatics*
    - *Journal of Pharmacogenomics & Pharmacoproteomics*
    - *Journal of Data Mining in Genomics & Proteomics*
    - *Journal of Biomedical Data Mining*
    - *Journal of Proteomics & Enzymology*
- *Participation in sessions on specific topics on which the conference is expected to achieve progress*
- *Global networking: In transferring and exchanging Ideas*
- *Share your excitement in promoting your skills in the field of designing*
- *Conference brings together Scientific Researchers, Business Entrepreneurs and Industry Developers*

Proteomics 2018

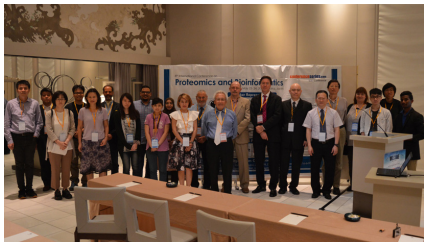

About Singapore

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. The country's territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulau Ujong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation. Singapore's progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change. Singapore is both an island and a country, but perhaps its best description is that of city-state. Like the great city-states of the past, it offers civilization and order in the highest degree. Its combination of Western-style development and Eastern-style calm seems to present the best of both hemispheres: It's a modern metropolis where you feel safe walking the streets, and it's an Asian business center that's a model of efficiency. Singapore is also a multicultural city, and close to one-quarter of its population are expatriates or foreign workers from all over the world. Known for its desire to become the technology hub of Asia, Singapore is the most wired country in the region.

Though physically small, Singapore is an economic giant. It has been Southeast Asia's most modern city for over a century. The city blends Malay, Chinese, Arab, Indian and English cultures and religions. Its unique ethnic tapestry affords visitors a wide array of sightseeing and culinary opportunities from which to choose. A full calendar of traditional festivals and holidays celebrated throughout the year adds to its cultural appeal.
