Why to Attend???

Proteomics Studies give the broad info on Proteomics & Bioinformatics studies and proteins origination and their structure, along with Gene expression. While going into deep studies many investigators still view Genome Annotation as a notoriously unreliable and inaccurate process. When research requires studying how the DNA is constructed or simply we can call "DNA Sequencing or DNA Computing" these studies help us to know how genes are related to one on another or from their ancestor's. This computing is useful for studies of endangered species and their existence on earth.

This Event Promotes-2017 which promotes exchange of knowledge and research techniques with all the experts from pharmaceutical and biotech companies, academicians from leading universities, scientists from research institutions. Proteomics conference covers the major topics and recent developments in Proteomics and Bioinformatics research work.

Abstract Information: Oral / Poster Presentation Guidelines

Oral Presentations are generally split into TWO categories, as follows:

1. Plenary Lectures
   - Each Plenary lecture is 25 minutes in length and comprises one presentation. We recommend you plan to present for approximately 20 minutes with 5 minutes for questions/discussion.
   - Where Plenary Lectures are presented as debates, each of two speakers should plan to present for 20 minutes, allowing five minutes for closing questions and conclusions. We recommend that invited speakers communicate in advance of the Moderator so that presentations may be coordinated.
2. Oral Sessions
   - Each Oral Session is 60 minutes in length and comprises two presentations, of 30 minutes each. We recommend that you plan to present for approximately 15 minutes, allowing time for questions/discussion at the end of the presentation.

Please prepare you presentation in 16:9 format (screen are in format 16:9). We recommend you to save your PowerPoint presentation using PPT(X) format instead of PPS.

A technician is available in every session room to provide assistance when needed. Due to the online presentation system, all speakers are kindly requested to use provided PC onsite. Please be present in the session room 15 minutes prior the start of your session and follow the instructions from the Chairs and/or technician. During your presentation a remote control will be available for controlling your presentation. Please observe the time allotted to you as you will not be permitted to speak for longer time. At the end of the Congress, all presentations will be deleted from the presentation system and computers on-site.

Speaker Preview Room

All speakers are asked to upload their presentation at the Speaker Preview Room (located in the Registration area) at least one hour before the beginning of the session or the day before in case of a morning session.

Poster Guidelines

The poster exhibition will be an integral part of Proteomics 2017.

The poster exhibition will be located on the exhibition area of the congress centre. The area will be clearly signposted from the registration area.

Technical Instructions:

- Posters must be prepared in landscape style.
- Please DO NOT prepare a Portrait poster
- The dimensions should be 100 cm high by 70 cm wide
- Posters should be attached to the boards with stickers, which you will be supplied to the organizers.
- Poster session schedule Posters will be displayed and presented in session.

Please plan to be at your poster and available to answer questions from delegates at the time of your assigned poster session. Posters will be displayed according to the POSTER numbers given by the organizers and will be grouped by sub topic.

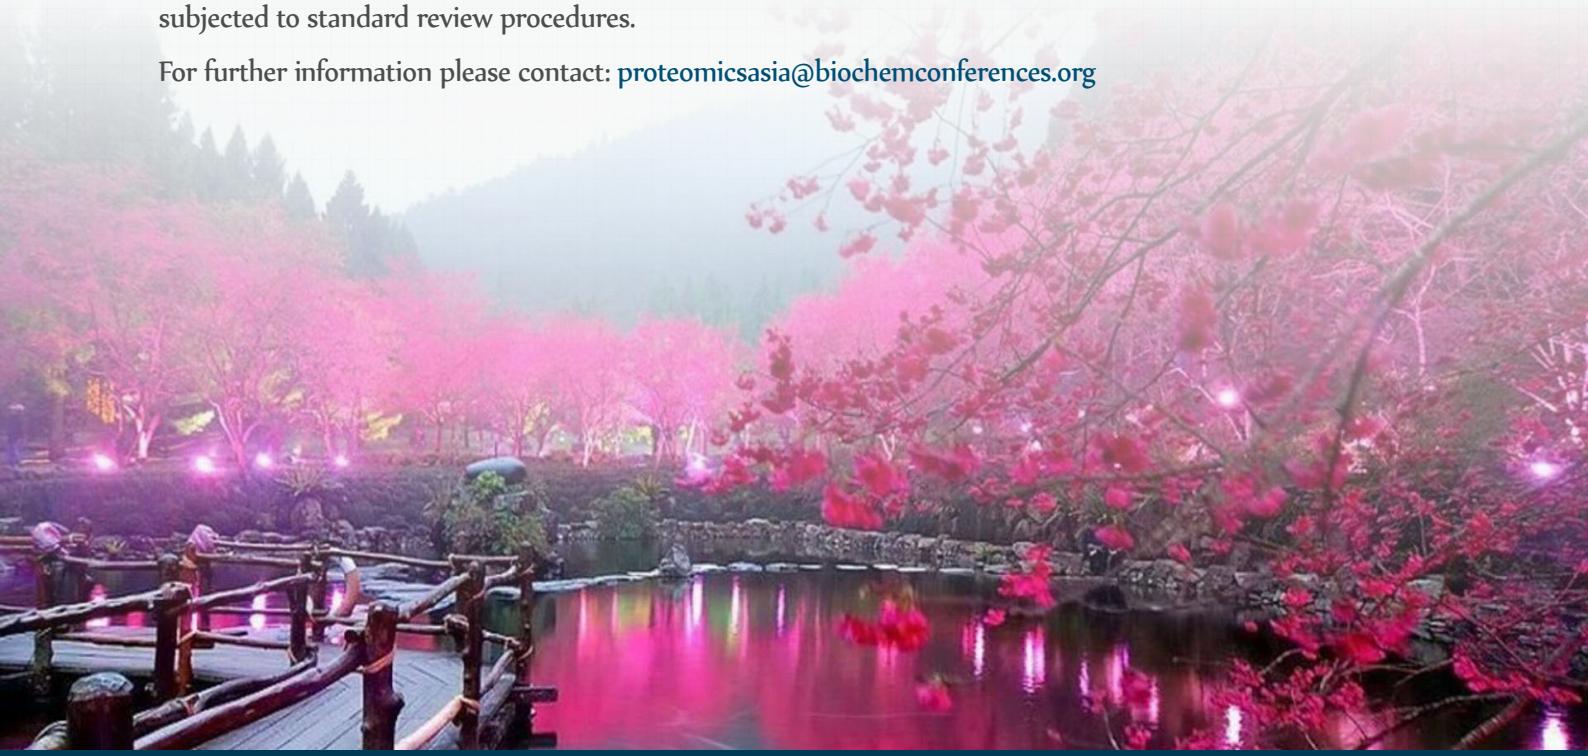

Young Researchers Forum

The Young Researchers Forum offers young researchers the possibility to meet and discuss research topics and methodologies, share and develop ideas, learn from each other and gain knowledge from senior researchers.

Young Researcher Sessions are organized at the Proteomics 2017, to provide a unique platform for Young Researchers/Investigators for presenting latest research projects with an in-depth analysis. Young Investigators (e.g. Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty) are the focus of this event. Participants should be below the age of 33 years. All submissions must be in English.

The prize winning papers will be considered for publication in the international journals once the paper is subjected to standard review procedures.

Program

Day 1: May 22, 2017

Opening Ceremony

Conference Souvenir Launch
New Perspective frontiers in the area of Proteomics and Bioinformatics
Keynote Forum (& Exhibitions Full day)
(Panel discussions and Reviews)
Coffee Break: Networking & Refreshments
Group Photo

Speaker Forum

Sessions Chair's Introduction
Sessions 1: Protein Expression & Analysis
Sessions 2: Proteome Database
Sessions 3: Mass Spectrometry Proteomics
Sessions 4: Protein Biochemistry
Sessions 5: Cardiovascular Proteomics
Panel discussions and Reviews

Lunch Break

Speaker Sessions (Cont...)
Refreshments

Day 2: May 23, 2017

Introduction

Keynote Forum (& Exhibitions Full day)
(Panel discussions and Reviews)
Coffee Break: Networking & Refreshments

Speaker Forum

Sessions Chair's Introduction
Sessions 1: Proteomics & Computational Biology
Sessions 2: Proteomics for Bioinformatics
Sessions 3: Plant Proteomics
Sessions 4: Food & Nutritional Proteomics
Sessions 5: Cancer & Clinical proteomics
Panel discussions and Reviews

Lunch Break

Young Research Forum
(Panel discussions and Reviews)
Coffee Break: Networking & Refreshments
B2B Meetings
Certificates Felicitation by the organizing Committee

Day 3: May 24, 2017

Introduction
