Proteomics 2017

Invitation

Conference Series LLC welcomes you to attend the ***8th International Conference on Proteomics and Bioinformatics*** *during* ***May 22-24, 2017 Osaka, Japan****.*

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Proteomics and Bioinformatics.

Proteomics 2017 anticipates more than 200 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations. The attending delegates include Editorial Board Members of related International Journals.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

The main theme of the conference is ***"Proteomics & Bioinformatics: Solving Problems in Health and Life Sciences"***

Regards,
Proteomics 2017
Operating Committee

Proteomics 2017

Proteomics Reminisce

Conference Highlights

- Protein Expression & Analysis
- Proteome Database
- Mass Spectrometry Proteomics
- Proteomics Discovery & Function
- Analytical Proteomics & Genomics
- Protein Biochemistry
- Personalized Medicine In Proteomics
- Cardiovascular Proteomics
- Computational & Biology Proteomic
- Proteomics for Bioinformatics
- Plant Proteomics
- Food & Nutritional Proteomics
- Cancer & Clinical proteomics
- Immunoproteomics
- Protein Engineering & Molecular Design
- Neuroproteomics & Neurometabolomics
- Integrating Transcriptomics & Proteomics
- Proteomics Technologies
- Biomedical Sciences In Proteomics
- Proteomics Case Study
- Business Trends In Proteomics
- Machine Learning in Bioinformatics

This year, we'll host the event in beautiful city Osaka at the Hyatt Regency Osaka, Japan.

About Us

International Journals

- *900 Open Access Journals*
- *21 Day rapid review process*
- *30000 Editorial team, 35000 Reviewers team*
- *3.5 Million readers and high visibility*
- *More than 100000* facebook fans
- *Publication immediately after acceptance*
- *Quality and quick editorial, review processing*

Key features

- *User friendly/feasible website translation of your paper to 50 world's leading languages*
- *Enhanced feature: Audio version of published paper*
- *Digital articles to share and explore*
- *Sharing option: Social networking enabled*
- *Authors, reviewers and editors are provided with scientific credits*

Conference Series LLC Conferences

- *300 Conferences all over the World every year*
- *Well organized scientific program*
- *Renowned speakers and scientists across the globe*
- *Poster presentations and world class exhibits*
- *Panel discussions and interactive sessions*
- *B2B meetings*
- *Perfect platform for Global Networking*

Key features

- *Presentation by renowned speakers from all over the world*
- *Poster presentations and world class exhibits*
- *Interactive Sessions*
- *Platform for global networking*
- *Connecting scientific community*

Special Issues

All accepted abstracts will be published in respective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by crossref

Proteomics 2017

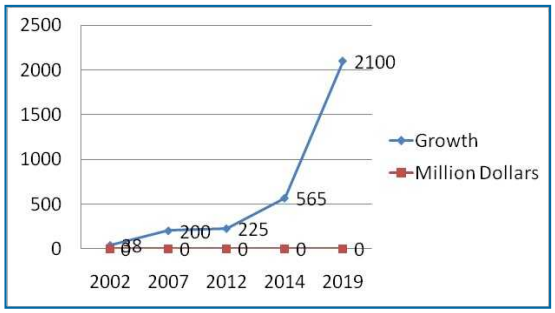

Market Analysis:

Glance at Market of Proteomics:

The Global Proteomics business sector to develop at a CAGR of 8.39% over the period 2014-2019. Propels in mass spectrometry have turned into a noteworthy pattern for the development of the business sector as the information gave by these instruments are exceedingly exact and widely utilized for information examination.

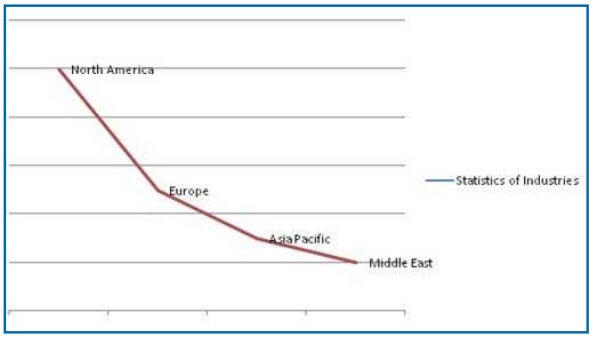

Increment popular for customized medications is one of the significant benefactors to the development of the business sector. Customized drugs are created by hereditary make-up of an individual, and today are broadly utilized for treatment of diabetes and diseases, for example, lung tumor.

Statistics which shows growth in importance of Proteomics:

Proteomics Market Worth of $2,100 Million by 2019: New Report by Markets & Markets

Statistics of Industries Associated with Proteomics:

North America was the business sector pioneer with an offer of ~42% of the worldwide business sector, trailed by Europe with an offer of ~38%. The vicinity of an expansive number of expository hardware producers has contributed altogether toward the North American and European proteomics market. Be that as it may, the Asia-Pacific area speaks to a huge development open door for the proteomics market amid the figure time of 2014 to 2019. The APAC business sector is relied upon to develop at a CAGR of 23% amid the gauge period. The development in this business sector is driven by the developing pharmaceutical and biotechnology commercial ventures.

The significant players in the proteomics market incorporate Thermo Fisher Scientific (U.S.), Metabolon, Inc., Danaher Corporation, Shimadzu Corporation (Japan), Waters Corporation (U.S.), Agilent Technologies, & Bruker Corporation.

Registrations

Academic

Only Registration: USD 799

Package A (Registration + 3 nights' Accommodation): USD 1299

Package B (Registration + 4 nights' Accommodation): USD 1399

Business

Only Registration: USD 899

Package A (Registration + 3 nights' Accommodation): USD 1399

Package B (Registration + 4 nights' Accommodation): USD 1499

Student

Student Oral: USD 300

Student Poster: USD 400(USD300+USD 100 For Poster)

Student Delegate: USD 149

E-poster: USD 100

About Conference

The field of Proteomics along with Bioinformatics is growing rapidly and its development is making tremendous impacts in cancer proteomics, integrated OMICS, cardiovascular and haematological proteomics, pharmaceutical industry, biomarkers and Neurological Disorders. The importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

Proteomics 2017

- *Opportunity to attend the presentations delivered by eminent scientists from all over the world*
- *Selected contributions will be published in following International Journals*
    - *Journal of Proteomics & Bioinformatics*
    - *Journal of Pharmacogenomics & Pharmacoproteomics*
    - *Journal of Data Mining in Genomics & Proteomics*
    - *Journal of Biomedical Data Mining*
- *Participation in sessions on specific topics on which the conference is expected to achieve progress*
- *Global networking: In transferring and exchanging Ideas*
- *Share your excitement in promoting Health care, Clinical R & D*
- *Conference brings together Scientific Researchers, Business Entrepreneurs and Pharma, Healthcare, Industry Developers*

Proteomics 2017

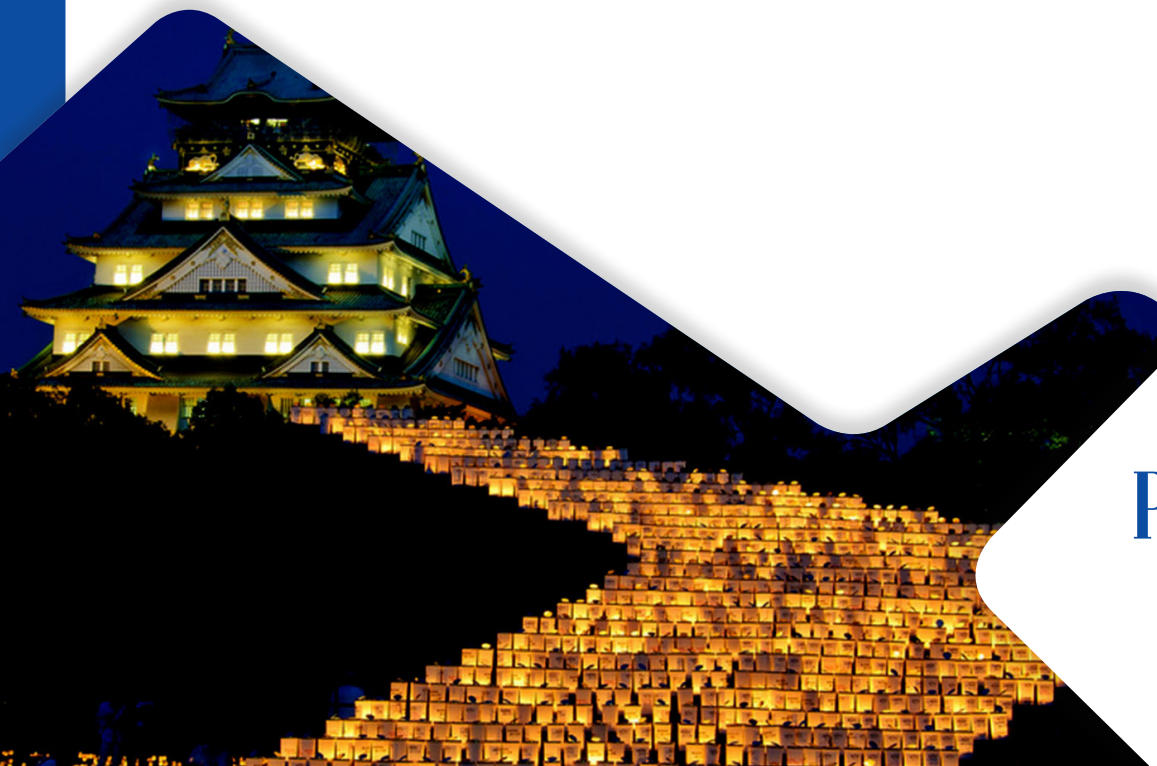

About Osaka, Japan

Japan is a world apart – a cultural Galápagos where a unique civilization blossomed, and today thrives in contrasts of traditional and modern. The Japanese spirit is strong, warm and incredibly welcoming. Japan is a leading nation in scientific research, particularly technology, machinery and biomedical research. Japan leads the world in robotics production and use.

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries.

The city's west side is interested in Osaka Bay, and is overall totally encompassed by more than ten satellite urban communities, every one of them in Osaka Prefecture, with one exemption: the city of Amagasaki, fitting in with Hyōgo Prefecture, in the northwest. The city involves a bigger zone than whatever other city or town inside Osaka Prefecture. Osaka's sprawling cityscape has been depicted as "just surpassed by Tokyo as a showcase of the Japanese urban marvel".

The Osaka City Council is the city's neighborhood government framed under the Local Autonomy Law. The Council chooses its President and Vice President. Osaka is known for its nourishment, both in Japan and abroad. Osaka is home to the National Bunraku Theater, where customary manikin plays, bunraku, are performed. Open rudimentary and middle schools in Osaka are worked by the city of Osaka. Its supervisory association on instructive matters is Osaka City Board of Education. Osaka city once had a substantial number of colleges and secondary school.
