About Dubai

Dubai is the largest and most populated city in the United Arab Emirates. Dubai emerged as a global city and business hub of the Middle East. The city of Dubai which has bold architecture, spectacular skylines and flourishing modern art scene. And it's also known for its fashion and style. Dubai does have a rich culture, though most of it is intangible, rooted in Bedouin heritage and traditions of storytelling, poetry, song and dance. Dubai is an exciting alchemy of profound traditions and ambitious futuristic vision wrapped into starkly evocative desert splendour. It is a superlative-craving society that has birthed audaciously high buildings and palm-shaped islands. It is an open society where it's easy for newcomers and visitors to connect with myriad experiences, it may be eating, dancing on the beach, shopping for local art or riding a camel in the desert. Dubai is a top trade meeting that hosts two huge annual shopping festivals. Dubai is a fertile environment which is favourable to breaking down cultural barriers and preconceptions. The UAE healthcare market is projected to reach $19.5 billion (Dh71.56 billion) by 2020, achieving an annual average growth of 12.7 per cent, marginally higher than the GCC growth average.
