I thoroughly enjoyed the meeting and want to thank you for giving me an opportunity to present my research"

Amanpreet Singh,
Wright State University Boonshoft School of Medicine, USA

It is my pleasure to announce that the conference was very nice opportunity to be part of this valuable meeting and I meet many researchers from different countries which learned me many aspects about different branches of my specialization. Everything was highly organized and hopes to be part in next meeting with my best regards."

Mufeed J Ewadh
Babylon University, Iraq

Genuinely one of the best conference I've attended. The Conference was inspiring and informative with relevant speakers I found it really insightful and interesting Conference really was very well organized. I wouldn't hesitate to recommend to anyone wanting to get a real understanding of how to approach of our 10th Global Summit on Toxicology and Applied Pharmacology. Thanks for the program. The Chicago City, people and the weather was very fabulous and food was delicious too. I really appreciated the insight that was provided, and the time you took following the session to provide additional feedback. Looking forward for many more opportunities in future and please kindly update me about the upcoming conference. Overall it was a great trip in my life."

K Prasuna
Kakatiya University, India

The conference was very useful. I have found two potential collaborators and had a chance to present my research to the audience that understands and is interested in the area of my expertize. Thanks to the organizers"

Alexei G. Basnakian,
University of Arkansas, USA

I really enjoined the conference"

Gunnar Boysen,
University of Arkansas for Medical Science, USA

It was really a great conference scientifically and also socially with relevant speakers and very well organized.

Alenka Franko
University Medical Centre, Slovenia

I have learned a lot of things from the conference and it contained interesting research works related to toxicology. We have got certificates for presenting the research work. Toxicology 2015 was a very good experience for everyone, especially for the young researchers. Good luck for the upcoming conference!

Baragamaarachchi R Y
University of Colombo, Sri Lanka

I should comment that the Summit was excellent. Hope to help for the organization of next summit as well.!

Marcelo L Larramendy
National University of La Plata, Argentina

Although I couldn't present my study, I could learn a lot from many talks. I hope that the conference has a certain topic and discuss about it together. And I hope to participate in the conference next time.

About City

Philadelphia is one of the oldest and most historically significant U.S. cities. It was the nation's first capital. At the time of the American Revolution, it was the second-largest English-speaking city in the world, after only London. Into the first part of the 19th century, it was the country's most populous city and eclipsed Boston and New York City in political and social importance. Benjamin Franklin played an extraordinary role in Philadelphia's rise.

The Philadelphia area's many universities and colleges make it a top study destination, as the city has evolved into an educational and economic hub. According to the Bureau of Economic Analysis, the Philadelphia area had a gross domestic product of US$431 billion in 2016, the eighth-largest metropolitan economy in the United States. Philadelphia is the center of economic activity in Pennsylvania and is home to five Fortune 1000 companies. The Philadelphia skyline is expanding, with a market of almost 81,900 commercial properties in 2016, including several nationally prominent skyscrapers. Philadelphia has more outdoor sculptures and murals than any other American city. Fairmount Park, when combined with the adjacent Wissahickon Valley Park in the same watershed, is one of the largest contiguous urban park areas in the United States. The city is known for its arts, culture, and colonial history which attracted 42 million domestic tourists in 2016 who spent $6.8 billion, generating an estimated $11 billion in total economic impact in the city and surrounding four counties of Pennsylvania. Philadelphia has also emerged as a biotechnology hub.

Philadelphia is the center of economic activity in Pennsylvania with the headquarters of five Fortune 1000 companies located within city limits. According to the Bureau of Economic Analysis, the Philadelphia area had a total gross domestic product of $431 billion in 2016, the eighth-largest metropolitan economy in the United States. Philadelphia was rated by the GaWC as a 'Beta' city in its 2016 ranking of world cities.

Philadelphia's economic sectors include financial services, health care, biotechnology, information technology, manufacturing, oil refining, food processing, and tourism. Financial activities account for the largest economic sector of the metropolitan area, which is also one of the largest health education and research centers in the United States

Philadelphia's history attracts many tourists, with the Independence National Historical Park (which includes the Liberty Bell, Independence Hall, and other historic sites) receiving over 5 million visitors in 2016. The city welcomed 42 million domestic tourists in 2016 that spent $6.8 billion—mostly on lodging and food—generating an estimated $11 billion in total economic impact in the city and surrounding four counties of Pennsylvania.
