# 5th International Conference on Renewable and Smart Energy Resources

October 28-29, 2023

London, UK

**Theme:** Generation of Energy for Regeneration of Sustainable Future

# INVITATION

Dear Attendees,

We are glad to announce the **"5th International Conference on Renewable and Smart Energy Resources"** to be held in **London, UK** on **October 28 - 29, 2023** organized in collaboration with generous support and cooperation from enthusiastic academicians and Editorial Board Members.

**Renewable Energy 2023** aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Environmental and Energy Security. As the premier event, we have developed a program with your interests in mind.

We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

**5th International Conference on Renewable and Smart Energy Resources** amid **October 28 - 29, 2023** at **London, UK.** This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,
**Renewable Energy 2023**
Organizing Committee

## ABOUT US

### Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

### Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

### Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

### Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

## ABOUT CONFERENCES

Renewable Energy 2023 Scientific Committee is honored to welcome you all to attend **5th International Conference on Renewable and Smart Energy Resources** which will be held during **October 28-29, 2023** at **London, UK**. Bio America 2023 will raise the most dynamic and latest issues in the field of Environmental and Energy Security. The Congress will highlight the discussion around the theme **"Generation of Energy for Regeneration of Sustainable Future"** by bridging the gaps between the intellectuals from across the globe to enlighten their research and findings at Renewable Energy 2023. The highlights of the conference includes Renewable Energy & Solar & Wind Energy, Marine Energy, Bioenergy and Biotechnology, Power and Energy Engineering Engineering, Green Energy and Economy, Nano Environmental Technologies, Geothermal Energy, Advanced Materials for Energy Storage, and many more.

### Renewable Energy 2023 Salient Features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

### How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 150+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and business representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

### Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world's Business Experts to catalyze and advance mareting knowledge about International Conference on Renewable and Smart Energy Resources, present the most recent research findings, and promote and enhance business collaborations around the world.

## ABOUT CONFERENCES

### Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Medicine & Biotechnology
- Discuss and apply recent research findings related to Biomedical Engineering and Bio-Engineering.
- Reflect on the place of critical distance in Global Business.

### Who should attend?

Academicians including Professors, PhD. Scholars, Students and personnel from both industrial and academic fields which include; Directors/Managers, Head of Departmental, Presidents/Vice Presidents, CEO, Professors, Associate and Assistant professors, Research Scholars and students from the related fields.

### Renewable Energy 2023 salient features

- Renewable Energy
- Solar & Wind Energy
- Marine Energy
- Bioenergy and Biotechnology
- Sustainable Development
- Power and Energy Engineering
- Smart Grid
- Waste to Energy
- Green Energy and Economy
- Nano Environmental Technologies
- Advanced Materials for Energy Storage
- Environmental impact of electricity generation
- Geothermal Energy

### About hosting organization

Conferenceseries LLC Ltd is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ ScientificSocieties. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

# ABOUT LONDON

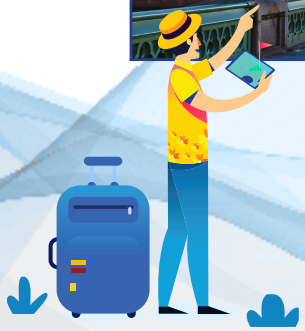

London, the capital of England and the United Kingdom, is a 21st-century city with history stretching back to Roman times. Standing on the River Thames, London has been a major settlement for two millennia, its history going back to its founding by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 2.9 km2 mediaeval boundaries and in 2011 had a resident population of 7,375; making it the smallest city in England. Since at least the 19th century, the term London has also referred to the metropolis developed around this core. The bulk of this conurbation forms the Greater London administrative area, governed by the Mayor of London and the London Assembly. London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transport. It is one of the world's leading financial centres. London is a world cultural capital. London's 43 universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to host the modern Summer Olympic Games three times. London has a diverse range of peoples and cultures, and more than 300 languages are spoken within Greater London. The region had an official population of 8,416,535 in 2013, the largest of any municipality in the European Union, and accounting for 12.5% of the UK population. London contains four World Heritage Sites: The Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich (in which the Royal Observatory, Greenwich marks the Prime Meridian, 0° longitude, and GMT). Other famous landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square, and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Tate Modern, British Library and 40 West End theatres. The London Underground is the oldest underground railway network in the world.
