About Conference

ME Conferences is happy to invite you to the "11th International Conference and Expo on Separation Techniques", which will be broadcast as a webinar on october 11th, 2021. It will focus on "Recent Developments and Advancements in the Field of Separation Science."

Separation Techniques 2021 is a global annual conference dedicated to discussing and learning about Novel Separation Techniques in Chemistry, Hyphenated Separation Techniques, Emerging Separation Technologies, Advances in Sample Preparation Techniques, High-Performance Liquid Chromatography, and Advances in Chromatography Techniques, Spectroscopy, Basic Separation Techniques, and research in these fields.

11th International Conference and Expo on Separation Techniques

October 11 ,2021
Webinar

Sessions/Tracks

- Novel Separation Techniques in Chemistry
- Emerging Separation Technologies
- Basic Separation Techniques
- Desalination and water purification
- Separation Processes in Chemical Engineering
- Advancements in Sample Preparation Techniques
- Crystallography
- Separation techniques in food chemistry
- Clinical chemistry, Biomarkers and Diagnostics assays
- Recent Advances in Chromatography-HPLC
- Membrane technology in separation techniques
- Advance Bio-analytical Techniques

Target Audience

- Directors of analytical chemistry department in various Universities and institutions
- Research laboratories Scientist, Research scholars
- Professor and Associate professor of analytical chemistry
- Analytical instrument manufacturing company
- Analytical experts in chromatography
- Leads from Pharmacy and Chemical Industries
- Leads from Pharmacy and Chemical Industries
- Marketing teams of Industries with novel products to show case at the conference
- Directors of Association and Societies

REMINISCENCE OF PREVIOUS CONFERENCE

Be a part and join us in webinar to create awareness on separation techniques
