11th International Conference and Expo on Separation Techniques

August 30, 2021| Webinar

About conference

ME Conferences is happy to invite you to the "11th International Conference and Expo on Separation Techniques", which will be broadcast as a webinar on August 30th, 2021. It will focus on "Recent Developments and Advancements in the Field of Separation Science." Separation Techniques 2021 is a global annual conference dedicated to discussing and learning about Novel Separation Techniques in Chemistry,

by providing a platform for critical analysis of new data,as well as the sharing of cutting-edge research findings and results on all aspects of Separation Techniques.

Conference Sessions

- Novel Separation Techniques in Chemistry
- Emerging Separation Technologies
- Advances in Chromatography and Mass Spectrometry
- Crystallography
- Separation techniques in food chemistry
- Clinical chemistry, Biomarkers and Diagnostics assays
- Recent Advances in Chromatography-HPLC
- Membrane technology in separation techniques
- Advance Bio-analytical Techniques
- Separation Techniques Used In Nanotechnology
- Desalination and water purification
- Separation Processes in Chemical Engineering
- Separation Techniques used in Geology / Mineralogy
- Bio separation techniques
- Fractionation & Magnetism as a Separation Techniqus

Who Attends

- Researchers
- Quality control specialist
- Pharmaceutical legislators and regulators
- Directors, CEO's of Organizations
- Medical students,
- University Professors, and Medical Colleges
- Faculty of Pharmaceutical Analysis
- Pharmaceutical Analysis background
- Researchers from Pharmaceutical Companies
- Business Developers
- Business managers
- Business professionals
- Consultants
- Pharmacy service providers
- Industrial pharmacy graduates and post graduates

REMINISCENCE OF Past Conference
