SPINE 2018

Spine 2018 Conference website is attracting 25000+ Spine Researchers, Spine specialists, Business delegates, Industrial Leaders and R&D Heads from Industries, Directors, Neurologists, Neurosurgeons, Chiropractors, Head of Department, Professors and Students from academia in the research of Spine, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Salient Attributes

Meet Academia and Industry visionaries to get inspired

Expand your knowledge and find solutions to problems

Knowledge, Benchmarking and Networking offered at one place

Forge connections and for global networking

Highly Organized and Structured Scientific programs

Poster presentations and world class exhibitions

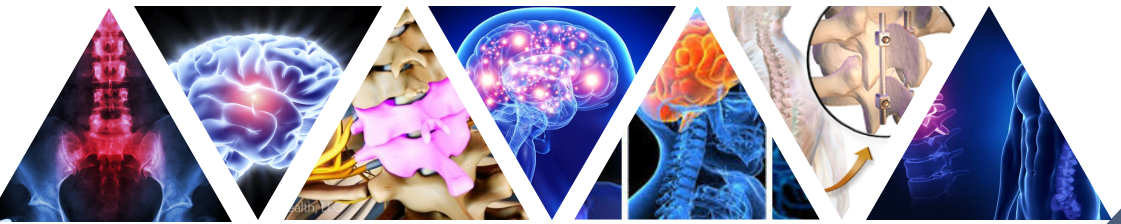

Meet with new vendors and suppliers

https://spine.conferenceseries.com

Conference Highlights:

- Spine and Spinal cord
- Spinal cord injury
- Spina Bifida
- Spine Fracture
- Spine Infection
- Myelopathy
- Spine Surgery
- Spine Therapy
- Spinal cord tumours
- Cervical Spondylosis
- Spine and spinal stenosis
- Myelitis
- Spine and Backpain
- Spinal Fusion
- Lumbar spine
- Spinal deformity

https://spine.conferenceseries.com

How our Conferences differs from others ?

3000+ Conferences across the globe in 30+ countries all through the year

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

Participation by Stalwarts from various international societies

Internationally renowned speakers and scientist's representation

Career guidance for early career researchers and students

Interesting scientific deliberations and discussions

Perfect platform for Global Networking

"Divulging Advances For Better Comprehension of Spine Health"

Accelerate the development and application of new technologies to produce dynamic pictures of the spine health that shows how the Spinal surgery can be made effective with minimal health issues.

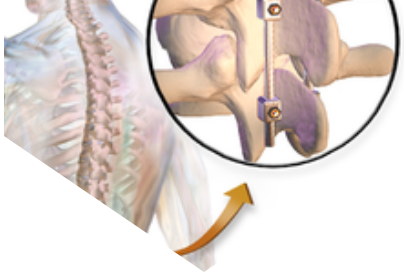

Promoting technologies will open new doors to explore the Spinal Disorders and Diseases Treatment.

Emerging insights about the human spine have implications for all aspects of human endeavor. This subject matter can capture the imagination of academic thinkers and the general public as well.

Conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Spine and Spinal Disorders that is present abundantly and to scrutinize its incredible findings from all over the world.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration

Goals of the conference is to provide a trans-formative professional development experience through bringing together the world's scientific experts to catalyze and advance scientific knowledge about Spine and Spinal Disorders

Present the most recent research findings, and promote and enhance scientific collaborations around the world.

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses

to the world and overcome barriers that limit access to cure

Objectives

After participating in this meeting, attendees should be able to discuss emerging issues in Spine and Spinal Disorders

Discuss and apply recent research findings related to Spine and Spinal Disorders

Reflect on the place of critical distance in Spine and Spinal Disorders

Who should attend ?

Spine Specialists, Spine surgeons, Neuro-Spine Specialists, Neurosurgeons, Pharmacists, Research Scientists, Spine Organizations & societies, Pharmaceutical companies, Spine surgical instruments and Spine implants Industries, Spine associations & foundations, Professors and Students.

Past Conference Report

Conference series LLC takes a great honour based on the past conference report of **1st** and **2nd** International Conference on **Spine and Spinal Disorders** organized on **2016 Valencia, Spain** and **2017 Rome, Italy** respectively. Spine 2016 and 2017 has received a benevolent response from all over the world. This has been organized with the sight and the categorical intent of facilitating the developments of new perceptions and ideas for exploring the high level of awareness reached by the scientific community on Spine along which it has received CME Accreditation credits.

The event embedded a firm alliance of imminent strategies in the field of Spine with the scientific community which were organized around the theme "Tearing down the veil to a better Spine health". This annual conference, escorted eminent scientists, doctors, researchers, health care professionals, University professors, Spine surgery professionals in which many issues in spine health were explored in depth to provide up-to-date information to the world. On besides, the meeting provided an opportunity for an open and animated sharing of visions, ideas and experiences.

The conference witnessed an amalgamation of peerless speakers, researchers and delegates who well informed the audience with their enviable research knowledge and on various alluring topics related to the Spine and Spinal Disorders.

We thank you all for the enormous, exquisite response. With this, inspires us to continue organizing events and conferences for promoting the Spine Research. Conference Series LLC accordingly, is delighted to announce the **3rd International Conference on Spine and Spinal Disorders** which will be held during **June 11th-13th, 2018 in London, UK** so as the continuation of Spine 2017 Conferences.

Mark your calendars for the upcoming meeting to divulge the advances in spine heath for expansion of the world's knowledge; we are hoping to see you soon!
