TENTATIVE PROGRAM

2019

11th World Congress and Expo on

Cell & Stem Cell Research

March 25-26, 2019 | Orlando, USA

Welcome Message

Paul J Davis
Professor of Medicine, Albany Medical College

I am very pleasure to welcome you to 11th World Congress and Expo on Cell & Stem Cell Research. Conference Series LLC Ltd is a recognized leader in the innovative design and successful realization of scientific meetings. Our goal is to bring together established scientist and young investigators in a broad range of academic fields and to foster useful exchanges of concepts and methods among conferees. These are not large, institutionalized conferences, but are well focused meetings of limited size which enable one-on-one and small group discussions among academics, trainees and industry scientists. We can discuss ideas, results and techniques in detail As a result, we have received overwhelmingly positive comments from our conference participants.

Our primary theme this year is to expand our understanding of the interplay between stem cell and cell biology. We want to do this both fundamental concept level and the technique level. A principal objective is to broaden our Understanding of the survival mechanisms exploited by cancer cell and thus enable development of novel anticancer treatment techniques.

We hope that all participants will have a productive, inspiring and scientifically enjoyable experience.

Paul J Davis, MD
Professor of Medicine,
Albany Medical College, Albany, NY
Adjunct Professor of Pharmacy, Albany College of Pharmacy and Health Science
Chief Scientist Officer, Nano Pharmaceuticals LLC

Stem Cell Conference - 2019

Keynotes

Diana Anderson
University of Bradford, UK

Haval Shirwan
University of Louisville, USA

Yang Teng
Harvard Medical School, USA

Paul J Davis
Albany College of Pharmacy and Health Sciences, USA

Thomas J Lewis
Health Revival Partners; TN, Talbott USA

Magnus Magnusson
University of Iceland, Iceland

11th World Congress and Expo on

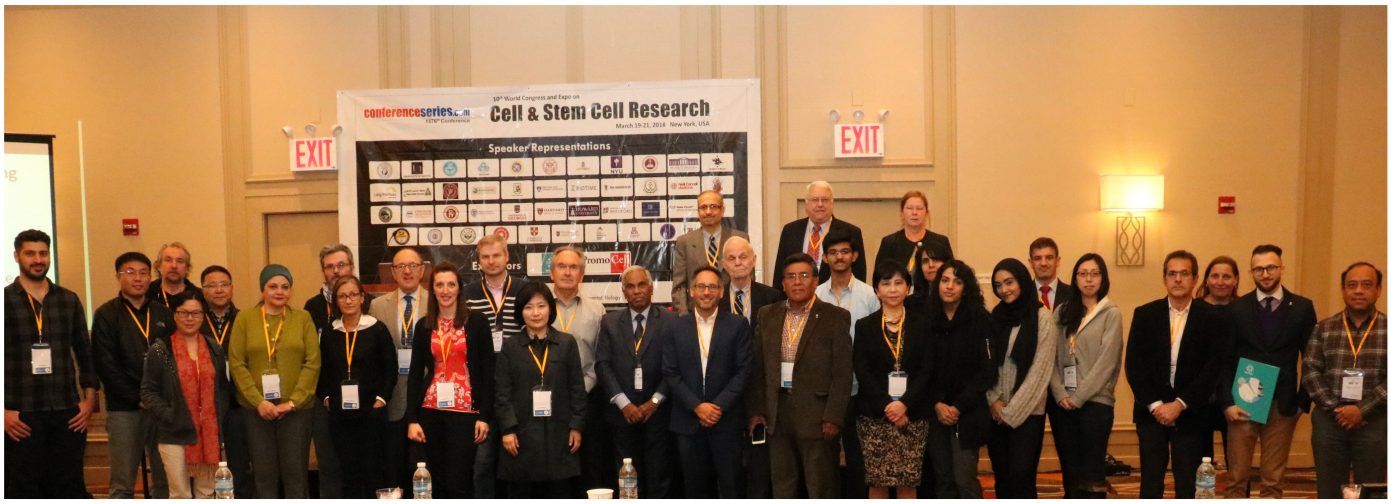

Cell & Stem Cell Research

March 25-26, 2019 | Orlando, USA

PROGRAM @ GLANCE

DAY 1__March 25, 2019	
Opening Ceremony	
Plenary & Keynote Speeches (09:00-11:30)	
Networking and Refreshments Break	
Group Photo	
Speaker Session I (11:30-13:00)	Cell Signaling & Cell Communication | Stem Cells & Types Stem Cell | Epigenetics | Stem Cell Niches & Bio banking | Stem Cell Apoptosis and Signal Transduction
	Panel Discussion
Lunch Break	
Speaker Session II (13:00-16:00)	Stem Cell Embryology | Stem Cell Therapies | Stem Cell Biomarkers | Diseasesand Stem Cell Treatment | Stem Cell Technologies and Signal Transduction
	Panel Discussion
Networking and Refreshments Break	
Speaker Session III (16:00-18:00)	Re-Evaluating Strategies for Transplantation of stem cells | Tissue Engineering and Regenerative Medicine | Novel Technologies | Disease Modelling and Drug Discovery
	Panel Discussion
Day 1 concludes…	
DAY 2__March 26, 2019	
Opening Ceremony	
Plenary & Keynote Speeches (09:00-11:30)	
Networking and Refreshments Break	
Speaker Session I (11:30-13:00)	Tumour cell science | Applications in Nanotechnology Cellular Plasticity And Reprogramming | Cell And Organ Regeneration
	Panel Discussion
Lunch Break	
Speaker Session II (13:00-16:00)	Stem Cells and Veterinary Applications | Clinical Trials on Cell & Gene Therapy | Regulatory and Reimbursement Issues | Stem Cell Market World Wide
	Panel Discussion
Networking and Refreshments Break	
Speaker Session III (16:00-18:00)	Poster Presentations
	Best Poster Award Distribution
Day 2 concludes…
